Information:

A spacious travel backpack designed with comfort and order on the move in mind. The adjustable chest strap, soft back panel and breathable material increase carrying comfort, while the suitcase attachment strap makes it easier to get around the airport. The backpack offers thoughtful organisation with a laptop pocket, a waterproof compartment, numerous storage pockets and a side bottle pocket. The 180° opening zip lets you pack items suitcase-style, even for a multi-day trip. The built-in cable opening allows you to charge your phone from a power bank, while hidden pockets increase the security of valuable items.

Full product description

Travel comfort

The thoughtfully designed backpack with **adjustable chest fastening** and soft foam on the back makes even long walks through terminals less tiring. The **breathable material** ensures proper air circulation, and the dedicated strap allows the backpack to be securely **attached to a suitcase handle**. The safety of valuable small items is enhanced by a **hidden pocket**, which is difficult for bystanders to access.

Space organisation without compromise

The inside of the backpack offers **large capacity** with a clear division into zones, helping you quickly find what you need. A special **waterproof compartment** protects the rest of your luggage from moisture from toiletries, and a dedicated **laptop pocket** stabilises electronic equipment during transport. Additional compartments and a side water pocket ensure that every item has its designated place.

Constant access to power on the go

A practical **built-in cable opening** allows convenient charging of your phone directly from your power bank placed inside the luggage. This solution lets you freely use navigation or multimedia without having to hold an external battery in your hand. The design with **durable handles** on the sides makes it easy to carry the backpack like a bag, which comes in handy during airport security checks.

Ready for any challenge

The spacious main compartment will hold clothing, footwear and larger accessories, ensuring their **safe transport** thanks to the internal strap system. Numerous smaller pockets help keep small items such as a toothbrush or headphones organised. The use of **durable materials** with a smooth texture helps maintain the backpack's attractive appearance even with intensive use.

Convenient packing

The special **180-degree zip** means the backpack opens completely flat, which significantly speeds up arranging clothes. This design makes it possible to pack for a **5-day trip** while keeping dimensions accepted in the aircraft cabin. Internal compression straps stabilise the contents, preventing clothes from shifting during travel.

Quick access to the most important small items

The external **side pocket** lets you keep a flask or drink bottle always within reach, without needing to open the main compartment. An additional **hidden pocket** on the back is a safe place for a passport or phone, resting directly against the user's body. This arrangement of compartments contributes to greater peace of mind and convenience when moving through crowds.
