Information:

A spacious travel backpack designed with comfort and organisation on the move in mind. It has an adjustable chest strap, soft padding on the back, breathable material and a strap for attaching it to a suitcase handle, which increases carrying comfort. It offers a large, well-divided space with a laptop pocket, a waterproof compartment, a side bottle pocket and a hidden pocket for valuable small items. The 180° zip makes packing easier, while compression straps keep the contents stable. The built-in cable opening allows you to conveniently charge your phone from a power bank. Ideal for short and longer trips, including as cabin luggage.

Full product description

Travel comfort

The thoughtfully designed backpack with a **adjustable chest strap** and soft foam on the back makes even long walks through terminals less tiring. The **breathable material** ensures proper air circulation, and the dedicated strap allows you to securely **attach the backpack to a suitcase handle**. The safety of valuable small items is enhanced by a **hidden pocket**, which is difficult for bystanders to access.

Space organisation without compromise

The inside of the backpack offers **large capacity** with a clear division into zones, which helps you quickly find what you need. A special **waterproof compartment** protects the rest of your luggage from moisture from toiletries, and a dedicated **laptop pocket** stabilises electronic equipment during transport. Additional compartments and a side water pocket mean that every item has its designated place.

Constant access to power on the move

A practical **built-in cable opening** allows convenient charging of your phone directly from your power bank placed inside the luggage. This solution lets you freely use navigation or multimedia without having to hold an external battery in your hand. The design with **durable side handles** makes it easy to carry the backpack like a bag, which comes in handy during airport security checks.

Ready for any challenge

The spacious main compartment will hold clothing, shoes and larger accessories, ensuring their **safe transport** thanks to an internal strap system. Numerous smaller pockets help keep small items such as a toothbrush or headphones organised. The use of **durable materials** with a smooth texture helps the backpack maintain an attractive appearance even with intensive use.

Convenient packing

A special **180-degree zip** means the backpack opens completely flat, which significantly speeds up arranging clothes. This design allows you to pack enough for a **5-day trip** while keeping dimensions accepted in the aircraft cabin. Internal compression straps stabilise the contents, preventing clothes from shifting during travel.

Quick access to the most important small items

The external **side pocket** lets you keep a flask or drink bottle always within reach, without needing to open the main compartment. An additional **hidden pocket** on the back is a safe place for a passport or phone, resting directly against the user's body. Such a layout of compartments contributes to greater peace of mind and convenience when moving through crowds.
