Price: **123.10 zł** gross / 100.08 zł net

Manufacturer: EXTRALINK

Referention number: DNKGKHQGRMMMQ

Information:

The green backpack with dimensions 40x30x20 cm and a capacity of 40L is a practical solution for travel, work and university, meeting the requirements of many airlines. It offers a spacious interior with compartments and mesh pockets that make quick packing and keeping things tidy easier. A dedicated shoe pocket separates them from the rest of the contents, while a reinforced compartment protects a laptop up to 17 inches. Additional pockets help organise small items, and the breathable, softly padded shoulder straps and back ensure comfortable carrying throughout the day.

Full product description

Dimensions tailored to your needs

A green backpack with dimensions of **40x30x20 cm** is a solution for those looking for luggage that meets the strict requirements of airlines. Its design allows you to move freely between the office, university and the airport terminal, offering **comfort of use** in each of these situations. The compact backpack holds space comparable to a small suitcase, which makes it easier to organise short trips and everyday duties.

Express packing with 40L capacity

The spacious interior with a volume of **40 litres** allows you to take all the essentials for a few-day trip without having to give up your favourite clothes. The opening system makes access to the contents easy, which helps with **quickly arranging items** and keeping things tidy during security checks. Special mesh pockets and compartments ensure that every item stays in place during transport.

Duża pojemność 40L

Hygiene and order thanks to a separate pocket

A dedicated **shoe pocket** located at the bottom of the backpack effectively separates footwear from clean clothes and food. This solution helps keep the inside of the main compartment clean, which is crucial during an active day in the city or a long journey. An additional zip offers **instant access** to a spare pair of shoes without the need to repack the entire bag.

Safe transport of electronics and accessories

A specially reinforced compartment allows you to carry a **laptop up to 17 inches**, protecting it from accidental knocks while on the move. The system of smaller pockets helps organise small items such as a **tablet, phone or documents**, so everything is always within reach. This interior organisation contributes to greater efficiency at work and eliminates time wasted searching for keys or pens.

Comfortable to carry all day

The use of **breathable honeycomb-structured material** on the shoulder straps and back improves air circulation, which reduces sweating while carrying the bag. The soft padding helps to **relieve the shoulders**, making even a heavily loaded backpack feel lighter. A sturdy top handle makes it easy to carry the bag by hand, which is useful on crowded public transport.
