Information:

The versatile 4-in-1 kitchen appliance combines baking, air frying, preparing crispy dishes and keeping food warm. The 60-200°C temperature range and 1-60 minute timer make it easy to adapt operation to different dishes. The 4-litre glass basket allows you to conveniently prepare meals for the whole family, while the transparent design lets you monitor the process without opening it. Made of tempered glass, ABS, PP and nylon, it ensures durability, safety and easy cleaning. Its compact dimensions and modern design mean the appliance fits perfectly into any kitchen.

Full product description

Versatility in the kitchen

This appliance combines four functions in one compact device. You can bake, air fry, achieve crispy dishes or keep ready meals warm. Adjustable temperatures from 60°C to 200°C allow you to tailor the cooking method to a wide range of recipes and ingredients.

Practical capacity and convenience

The 4-litre glass basket allows you to prepare meals for the whole family. The transparent material lets you monitor the process continuously, eliminating the need to open the appliance and lose heat.

High-quality materials

The pots are made of tempered glass, while the lid and structural elements are made of durable ABS, PP and nylon. This combination ensures safe use, resistance to high temperatures and ease of cleaning.

Ease of use and storage

The appliance has a simple control panel, allowing you to set the time from 1 to 60 minutes. After cooking, you can cool the food in the glass basket in the fridge, so the ready meals stay fresh.

Compact dimensions and design

The product measures 29 × 27 × 32 cm, which means it will fit on any kitchen surface. The modern look combined with functionality means the appliance blends perfectly into any interior, serving as an elegant piece of kitchen equipment.
