Price: **129.00 zł** gross / 104.88 zł net

Manufacturer: EXTRALINK

Referention number: DNXGKHQQLRMNJH

Information:

The POWERLINK 50 W 1 SET electric screwdriver is a practical set for servicing, assembly and minor repairs. The set includes 48 interchangeable bits, pliers and a lever, providing a wide range of applications. Magnetic bits make working with screws easier, while the built-in light improves visibility in poorly lit areas. The clear display shows the operating status and battery level. The S2 steel bits are durable and wear-resistant. The battery allows for around 180 minutes of use and driving up to 400 screws, and USB-C charging ensures convenient recharging.

Full product description

Precise work for repairs and assembly

POWERLINK 50 W 1 SET electric screwdriver is a tool designed for service work, assembly tasks and minor repairs. The set includes **48 bits, pliers and a lever**, allowing the tool to be adapted to different types of screws and components. Thanks to the built-in light, the work area remains clearly visible, which helps when carrying out tasks in less well-lit spaces.

ZESTAW PRECYZYJNYCH ŚRUBOKRĘTÓW 50 W 1

Zestaw narzędzi do naprawy wkrętek elektrycznych z końcówkami magnetycznymi do telefonu, aparatu, laptopa i zegarka.

Key advantages of the set

- **48 interchangeable bits** - enables work with many types of screws.
- **Built-in lighting** - helps when working in areas with limited light access.
- **Magnetic bits** - make it easier to hold screws during assembly.
- **Clear display** - allows monitoring of operating status and battery level.
- **USB-C charging** - supports convenient and fast recharging.

Durable construction materials

The bits are made of **S2 alloy steel**, which is resistant to wear and corrosion. This construction helps maintain proper durability during regular service work. The solid build of the tool supports stable operation and makes precise assembly tasks easier.

30-MINUTOWY CZAS ŁADOWANIA

Magnetic solutions for working comfort

The magnetic tip helps hold the screw during assembly, making work with small components easier. As a result, the screw remains stable while being driven in, contributing to more convenient and controlled assembly. The magnetic holder in the set also helps keep accessories neatly stored.

KONSTRUKCJA MAGNETYCZNA I WYSKAKUJĄCA

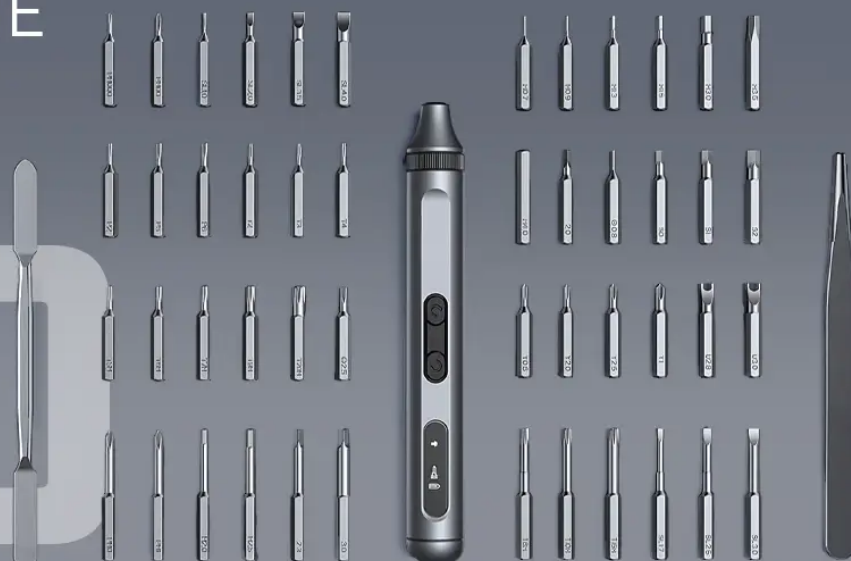

Display for easier work control

The tool is equipped with a **clear display** that shows the current operating status and battery charge level. This makes it easier for the user to monitor the device's working time and plan subsequent tasks. This feature helps make the tool more convenient to use during longer jobs.

50

Long operating time on a single charge

The screwdriver is fitted with a battery that allows operation for around **180 minutes**. On a single charge, the device can help drive in up to **around 400 screws**, supporting efficient work across many assembly tasks. This solution makes it easier to carry out a series of jobs without frequent charging.

PRECYZYJNA I WYDAJNA KONTROLA MOMENTU OBROTOWEGO

Zapewnia wysoką wydajność
i efektywność pracy.

Convenient USB-C charging

The **Type-C** port allows convenient charging of the device using popular power cables. This means you can quickly top up the battery and prepare the tool for the next tasks. The compact design of the set also makes it easy to store all the components in one place.
