Manufacturer: EXTRALINK

Referention number: DNXGJQJODRMMKJ

Information:

Extralink is a cordless brush cleaner with Turbo Spin technology and motorised rotation of 250–350 rpm, which quickly removes dirt, grease and deposits from the kitchen, bathroom, car and other surfaces. The LED display makes it easy to check the battery level and select the operating mode, while IPX7 waterproofing allows the device to be used safely in wet environments. The 2000 mAh battery provides up to 2 hours of operation, and USB-C charging adds convenience. The lightweight design, non-slip handle, 360° rotating head and 5 cleaning attachments help reach hard-to-access areas and adapt the device to different tasks.

Full product description

Turbo Spin Technology

Thanks to the advanced, motorised rotation system (250–350 rpm), the cleaner quickly and effectively removes dirt from a variety of surfaces – from kitchen worktops and bathroom tiles to car interiors. Tough grease and grime disappear without unnecessary effort.

LED Display and Modes

Thanks to the intuitive LED screen, the user has full control over the battery status and can adjust the cleaning speed (low/high) to individual needs, which increases ease of use.

320/r - mocny i szybki bieg

IPX7 Water Resistance

The Extralink brush has an IPX7 water-resistance rating, which allows it to be used in wet areas such as the shower or around the sink. It is ideal for cleaning glass, ceramics, fittings and garden furniture.

Long Operating Time

The 2000 mAh lithium battery provides up to 2 hours of continuous use on a single charge. The USB-C port makes recharging easy, while the lightweight 0.36 kg design and non-slip handle ensure comfort during cleaning.

Flexible 360° Reach

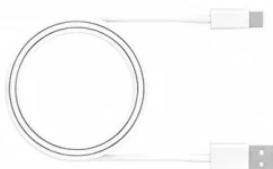

The rotating head makes it easy to reach corners, spaces behind taps and narrow gaps. The appropriately selected bristles help clean grout, shower doors and surfaces with different textures thoroughly.

Complete Cleaning Set

The cleaner comes with five specialist attachments, allowing the cleaning method to be matched to the type of surface and dirt.
