momcozy

Manufacturer: MOMCOZY

Referention number: DNXXGJOINLRMMOO

Information:

Momcozy NS005 is a pair of silver breast cups made from pure 999 silver, designed for breastfeeding mothers with irritated or sore nipples. They naturally support regeneration and healing, while the perforated, breathable design helps keep the skin comfortable and dry. The ergonomic Ergon Curve shape and size L (45 mm) ensure a good fit, discretion under clothing, and stable wear. The cups are lightweight, hypoallergenic, nickel-free and safe for the baby, and do not affect the taste or smell of milk. This is hygienic, convenient support without the need to use ointments.

Full product description

Momcozy NS005 - Silver breast shields for recovery and protection

The **Momcozy** NS005 product is a high-quality therapeutic accessory, designed for women who experience discomfort during **breastfeeding**. These **shields** are made from pure **999 silver**, which has been valued for centuries for its natural regenerative properties. The **silver** material supports faster healing of irritation that may affect the **nipples** and **areola** after intensive feeding. The **NS005-NA02NB-A L** model in a set containing **2 pieces** is essential support for every mother caring for the health of her breasts.

Innovative design and breathability for your skin

The **Momcozy** model features a unique surface perforation, which significantly improves **breathability** and air circulation while wearing. This **design** helps **prevent** excessive sweating and a feeling of stuffiness, speeding up the tissue repair process. The perforation edges are precisely polished to ensure complete **comfort and convenience**, eliminating the risk of scratching sensitive skin. Each **breast shield** is extremely lightweight, so prolonged use does not burden the delicate structure of the **nipple**.

Ergonomic shape and discreet fit of Momcozy shields

The brand's designers have ensured that each **breast shield** has an **ergonomic Ergon Curve** shape. As a result, the silver **Silver Nursing Cup** fits the body perfectly, without putting excessive pressure on the tissues or showing under clothing. The correct **size** (in this case **L** with a diameter of 45 mm) means that the **Shield** guarantees a natural appearance of the chest. By choosing the **Momcozy** product in this variant, every **mother** gains confidence that the product is safe, nickel-free and hypoallergenic, which is crucial for sensitive skin.

Easy-to-use and hygienic NS005-NA02NB-A model

Using the **Momcozy** product does not require additional balms or creams that could alter the taste of the milk. The **shields** made of **999 silver** themselves provide a protective barrier, isolating sore areas from direct contact with clothing. After each use, they should be cleaned and dried thoroughly. Remember to measure the areola before purchase – the correct **size** is key to effectiveness. The **NS005-NA02NB-A L** model in a set of **2 pieces** is an investment in **comfort**, allowing you to enjoy closeness with your child without unnecessary pain.

Safety and precise L size fit

Choosing the right model, namely **NS005-NA02NB-A L**, guarantees that the **breast shield** will fully perform its protective function. The **silver** material is completely safe for the baby, as it contains no toxic substances and does not affect the smell or taste of the milk. The **ergonomic** shape with a diameter of 45 mm ensures stability, so the **shields** stay in place even during everyday activity. By investing in **999 silver** from **Momcozy**, every **mother** receives a top-class product that combines traditional recovery methods with modern production technology.

Technical data

Material	Pure 999 silver
Model	NS005 (NS005-NA02NB-A)
Quantity in pack	2 pieces
Size	L (45 mm)
