Information:

Momcozy All-in-1 Core Baby Kit is a complete care set for babies from the first days of life, combining accessories for hygiene, health and care. The set includes safe scissors with rounded tips, nail clippers and a nail file, a manual nasal aspirator made of soft silicone, hygienic brushes made of medical-grade silicone, a comb shaped to fit a newborn's head, a finger toothbrush for gums and tongue, and anti-colic tubes helping to reduce gas and abdominal discomfort. Everything fits in a durable, closable case that makes the set easy to organise, store and take on the go. It is a practical choice for a baby layette and as a gift.

Full product description

Momcozy All-in-1 Core Baby Kit - Complete set for babies

Momcozy All-in-1 Core Baby Kit is a multifunctional set of accessories created with everyday baby care in mind from the first days of life. This thoughtfully designed **baby kit (set for babies)** includes the items needed to carry out three main tasks: hygiene, care, and looking after the little one's health. The set gathers all the most important tools in one place, making daily **care** easier and more consistent. The product is a practical part of a newborn layette, helping parents adapt hygiene routines to the current needs of the **baby**.

Wszystko w 1

Podstawowy zestaw dla niemowląt Momcozy

Gentle tools from the Momcozy All-in-1 series

The set includes precisely made nail-trimming tools, including scissors with rounded tips, curved clippers and a gentle file. The design of these elements allows the edges to be neatly trimmed without the risk of damaging the baby's delicate skin. An important component of the **Momcozy All-in-1 (Momcozy all in one)** set is also a manual **nasal aspirator**, made from soft silicone material. This design enables stable suction of secretions using one hand, increasing the comfort of the task of daily **baby care**.

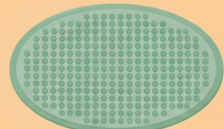

Effective cleansing and ergonomic brushes

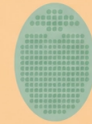

The set includes soft **brushes** made of medical-grade silicone, intended for washing the body and gently removing cradle cap from the scalp. This type of silicone **accessory** is much more hygienic and easier to clean than traditional sponges or cotton towels. The set also includes a specially shaped comb adapted to the shape of a newborn's head and a silicone finger toothbrush, which is used for safe gum massage and cleaning the surface of the tongue.

Effective help in reducing abdominal gas

Part of the **Momcozy All-in-1 Core Baby Kit (complete Momcozy care set)** are specialist tubes that make it easier to release gas from the digestive system. They were created to help babies release air accumulated in the intestines, reducing discomfort caused by colic. They are made from a flexible material with smooth edges to ensure safety during use. Inserting the tip to a depth of around 1-2 cm can bring relief to the baby, providing practical support during demanding stages of infant development.

Handy case suited to travel

All the elements included in the **Momcozy** set fit into a durable, zippered organiser, which makes it easy to store the items at home and take them on the go. The designers managed to **design** the space in such a way that each item has its dedicated place, preventing them from moving around. The clear layout makes it easy to quickly access the tool you need. The purchase of this set is covered by the standard consumer procedure, which gives the right to **return** unused goods within **30 days** from the date of purchase.

Key benefits

- Complete equipment combining hygiene, health and nail-trimming tools in one set.
- Safe rounded scissor tips and curved clipper blades adapted to small hands.

- Efficient anti-colic tubes made of flexible material that make it easier to remove gas.
- Hygienic brushes made of medical-grade silicone, helpful in tackling cradle cap and easy to wash.
- Rigid case that makes it easy to carry the set and protects the contents from dirt.

The product is suitable for

- People looking for a universal gift for a **baby shower (party for an expectant mother)** or putting together a newborn layette list.
- Young parents who want to have all the basic grooming items in one handy organiser.
- Users who value accessories made from durable, BPA-free silicone materials.
- Families who travel often and need a compact care set for the road.
