Information:

Momcozy BM04 is a smart electronic baby monitor with an HD camera that provides a clear view of your baby day and night. Thanks to 2.4 GHz Wi-Fi connectivity and a dedicated parent unit, you can monitor your little one at home or from anywhere via the Momcozy app. Advanced encryption and FCC certification ensure privacy and safety, while the motion sensor and danger zone alert immediately notify you of any worrying situations. Two-way audio lets you soothe your baby with your voice, and automatic recording plus the ability to share the image with up to 20 people help you preserve and share important moments.

Full product description

Momcozy BM04 - Smart electronic baby monitor with HD video and Wi-Fi connectivity

Give your child the highest level of protection with **Momcozy BM04**. This modern **baby monitor** is an advanced **video monitor** for **babies**, offering unique flexibility: you can use the dedicated parent unit at home or choose **Wi-Fi connectivity** (2.4GHz support) to have **access** to the live view from anywhere in the world. The Momcozy **app** lets you **stream** the image directly to your smartphone, making this **electronic** monitoring system perfectly **suited** to the needs of modern parents who care about their little one's **safety**.

Secure monitoring and privacy at the highest level

Your family's **privacy** is a priority, which is why **Momcozy BM04** uses advanced data encryption, ensuring that the **clear image** from the baby's room reaches only authorised people. The high-resolution **HD** (High Definition) **camera** provides a **clear** and **high-quality** view both day and night. Thanks to smart solutions, the **electronic baby monitor** offers a **Danger Zone Alert** function, sending instant **notifications** to your phone when the child leaves the designated **safe** area of the cot.

Alerty ruchu w czasie rzeczywistym

Otrzymuj powiadomienia o każdym ruchu dziecka i szybko reaguj na sytuacje podczas snu, takie jak przekroczenie się lub zasłonięta twarz.

* Funkcja dostępna tylko w aplikacji

Smart camera and motion detection function

Every **function** in the **Momcozy BM04** has been designed to **make** everyday care easier. The **camera** has a built-in **Smart Motion Detection** sensor, which informs you about the baby's activity, including potential dangers such as a covered face during sleep. The **monitor** also enables **two-way audio**, so you can soothe your baby with your voice before you reach the room. This **high-quality accessory** means that every user **review** highlights the incredible **comfort** and peace of mind this **electronic** guardian provides.

Konfigurowalna strefa bezpieczeństwa

Otrzymuj natychmiastowe powiadomienia w telefonie, gdy dziecko opuści wyznaczony przez Ciebie bezpieczny obszar.

* Funkcja dostępna tylko w aplikacji

Shared access and automatic recording of memories

Momcozy BM04 helps build family bonds through **Shared Video Access** – the view from the **camera** can be shared with up to 20 family members. This **smart monitor** also has an automatic video recording function, allowing you to capture and **share** your child's most important developmental milestones with loved ones. The **app** lets you take photos and videos manually, creating a digital archive of precious moments. Stable **connectivity** and intuitive **functionality** make this one of the most popular baby monitors on the market.

Zachowaj każdą wyjątkową chwilę

Nagrywaj automatycznie lub ręcznie, korzystając z pamięci lokalnej albo chmury.

* Karta pamięci i usługa chmury są sprzedawane oddzielnie

Simple installation and certified reliability for parents' peace of mind

Correct installation of the device is key to achieving the best viewing quality, which is why the **Momcozy BM04 baby monitor** has been designed with different usage scenarios in mind. The **camera** can be placed on a dedicated stand or mounted on the wall, and the **high-quality** optics provide a **clear image**, provided the correct distance from the cot is maintained (minimum 0.6 m vertically). The **electronic monitor** is **FCC** certified, confirming compliance with strict radio and safety standards. Thanks to these guidelines, every **mother** and father can **make** everyday life easier, knowing that their **electronic baby monitor** works reliably and that their little one's **safety** is constantly under the control of **smart** technology.

Wyraźny obraz w dzień i w nocy

Obserwuj swoje dziecko w krystalicznie czystej jakości **1080P** – w dzień i w nocy.
