momcozy

Manufacturer: MOMCOZY

Referention number: DNXGJOIMLRMMNQ

Information:

Momcozy Breastmilk Bag is a set of 50 pre-sterilised bags for the safe storage of breast milk, each with a capacity of up to 180 ml. Made from a thick, safe BPA-free material, they feature double side seams and a double zip closure that protect against leakage. The built-in thermal indicator makes it easy to check the temperature of the milk, while the clear space for the date and time helps organise supplies. The design allows for flat freezing or upright standing, saving space in the freezer. A practical pouring spout ensures hygienic and convenient use.

Full product description

Momcozy Breastmilk Bag 50 pieces - Breast milk storage bags

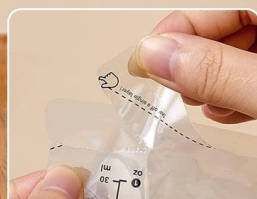

The **Momcozy Breastmilk Bag 50 pieces** product is a practical choice for women for whom **breastfeeding** is a key part of childcare. These special **breastmilk storage bags** allow you to conveniently **store** expressed **breast milk**. Each individual **bag** has an optimal capacity of up to **180 ml**, which makes daily portioning easier. The set of **50 pieces** supports parents in organising home food supplies for infants from the first months of life.

Zero zanieczyszczeń

Oddzielny wlew i wylew

Wlewanie mleka - otwórz zgrzew

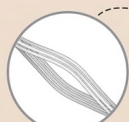

Wylewanie mleka - oderwij róg

Safe storage, leak-proof bag and protection against leakage

The product design is based on a thick, durable material that has been factory pre-sterilised to ensure proper food hygiene. The product is completely free from harmful chemicals, as confirmed by the absence of bisphenol A, meeting a stable safety standard that protects valuable **breast milk** from contamination (the **bp** indicator). To secure the contents against spillage, double side seams and a double zip closure have been used, which makes a confirming sound when pressed shut properly. This eliminates the risk of accidental **leakage**.

Ulepszone zamknięcie - bez wycieków

Podwójne zamknięcie strunowe

Podwójnie zgrzewane boki

How to store food: milk storage bags, milk containers and the freezer

These tailored **Momcozy** accessories significantly make it easier to manage fridge space. The design allows them to stand upright or be laid flat to achieve a completely **flat** package profile. This makes the home **freezer** more spacious, and freezing and thawing run more smoothly. Each item has a designated space for clearly marking important **dates** and the time the milk was expressed, which makes it easier to rotate supplies properly.

Wskaźnik temperatury

Pokazuje aktualną temperaturę mleka

Fioletowy

Zimne (<36°C / 96,8°F)

Niebieski

Optymalna temperatura karmienia
(36-40°C / 96,8-104°F)

Biały

Gorące (>40°C / 104°F)

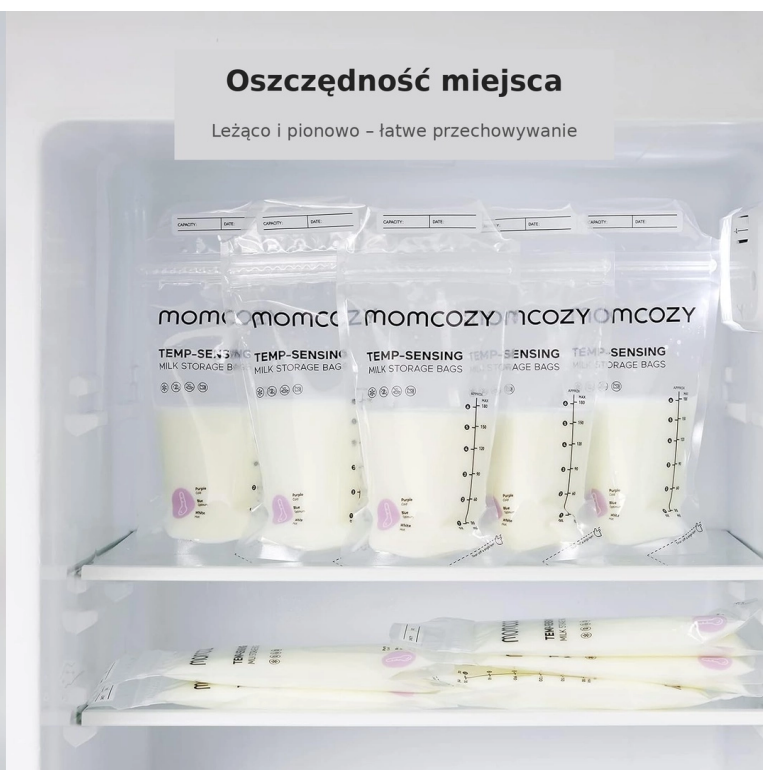

Easy control of food temperature and a self-standing design

A functional feature of the product is the integrated visual thermal indicator, which allows you to monitor the temperature of the liquid at all times without using external devices. The system changes the colour of the graphic depending on the warmth of the milk: purple indicates a cold state (below 36 degrees Celsius), blue means the correct serving temperature (36-40 degrees Celsius), while white warns that the liquid is too hot (above 40 degrees Celsius). This helps parents quickly assess when the **bag** containing the milk is ready to use.

Oszczędność miejsca

Leżąco i pionowo – łatwe przechowywanie

How to fill 180 ml milk bags and breastfeeding - an easy and hygienic easy pour solution

The product design focuses on complete sterility and preventing contamination. To fill it, open the top zip section, while a factory-made spout is used to pour the contents into a bottle; this should be cut along the marked line. This separation of the inlet and outlet means that pouring the liquid type **milk** is stable and free from contact with the outer edge of the zip. As a result, feeding becomes highly hygienic, and the precise scale expressed in **ml** makes it easier to control the meal volume.

Wstępnie sterylizowane do higienicznego przechowywania

Technical data

Product specification

Brand	Momcozy
Number of pieces	50 pieces
Capacity	180 ml
Material	BPA-free material (bp standard)
Protection	Double zip closure, reinforced sides

Key benefits

- **Thermal indicator** - practical and easy control of the milk temperature before giving it to the child.
- **Double protection** - reinforced side seams and a double zip to prevent leaks.
- **Space saving** - the stable design allows the product to be frozen flat or stood upright.

- **High hygiene** – separate filling and pouring paths eliminate the risk of contamination.
- **Ready to use** – factory pre-sterilised material that is safe for health.

The product is suitable for

- **Breastfeeding mothers** looking for a functional way to safely store milk.
- **Parents building a milk bank** who need clear portion labelling using time notes.
- **People who value good organisation** of freezer space thanks to the option of freezing flat.
