Manufacturer: MOMCOZY

Referention number: DNxGHJKPGRMMJJ

Information:

Momcozy BS002 is an 8-in-1 electric steam steriliser that sterilises, dries, defrosts and warms baby accessories in one device. It effectively eliminates up to 99.9% of bacteria, and the sterilisation cycle takes only 8-15 minutes, with drying taking 20-60 minutes. It holds up to 8 standard bottles or 6 wide-neck bottles, as well as teats, breast pumps and milk containers. It allows accessories to be stored in sterile conditions for up to 24 hours. The clear LED panel, automatic shut-off and convenient operation make it a practical and safe support for parents.

Full product description

Sterilizer 8in1 - cleanliness that counts

In the first months of an infant's life , **cleanliness of bottles, pacifiers and accessories** is of utmost importance. **The Momcozy BS002 is an 8-in-1 electric steam sterilizer** that **sterilizes, dries, defrosts and heats** in one unit. With a capacity for **up to 8 bottles**, an **automatic shut-off** function and the ability to store accessories in sterile mode for 24 hours - it's a **practical support** for any parent.

Sterilization and drying in one

The **Momcozy BS002** provides **fast and effective steam sterilization** - the process takes just **8-15 minutes**, and 20-60 minutes for drying (at lower temperatures the time can be extended by 10-15 minutes). The device **eliminates up to 99.9% of bacteria**, which is very important for the health of babies. It's a functional solution that allows you to **sterilize and dry bottles and pacifiers** without using the microwave or boiling water.

Capacity - up to 8 bottles

The **Momcozy electric bottle sterilizer** will hold **up to 8 standard bottles or 6 wide-neck bottles** at a time - ideal for families who use multiple accessories. It can **also sterilize breast pumps, pacifiers, milk containers and other baby accessories**. This is especially useful at home, where many baby feeding items are used daily.

Additional functions - not just a sterilizer

The device works as a **steam sterilizer, dryer, warmer and defroster** in one. This eliminates the need to buy separate equipment like a **microwave scaler, separate warmer or sterilization pouches**. It's a **practical accessory** that can also be used for preparing baby food and keeping accessories clean.

Simple operation - display and automatic shutdown

The sterilizer features an **easy-to-read LED panel with a countdown timer** for easy daily use. **Fully automatic operation** allows you to safely start the device and take care of the baby - **it shuts off automatically** when it completes the cycle. Such a solution ensures comfort and safety of use.
