momcozy

Manufacturer: MOMCOZY

Referention number: DNKGJOIMFRMMIM

Information:

Momcozy NP006 CozyPro is an ergonomic nursing pillow designed to relieve the back, shoulders and neck of the caregiver and provide the baby with stable and comfortable support during breastfeeding. The filling made from safe Ergo Memory Foam adapts to the body shape and does not deform, while the three-point support with a lumbar module helps maintain the correct posture. The Safety Fence design limits the baby's movement, and the wider nest grows with the child. The adjustable waist strap makes it easy to fit different body shapes, and the removable cover is machine washable, ensuring everyday convenience and hygiene.

Full product description

Momcozy NP006 CozyPro – functional feeding pillow with lumbar support system

The **Momcozy NP006 CozyPro** feeding pillow is a practical piece of equipment designed to make **breastfeeding** easier. The product is used to stabilise the infant's position and significantly relieve the caregiver's spine, shoulders and neck during everyday **feeding**. Thanks to its well-thought-out shape, this **feeding pillow** helps keep the baby at the correct height, which promotes proper latching and ensures **comfort** during use for a long time.

Nowa generacja „CozyPro”

Optymalna wysokość i pozycja
dla łatwego przystawienia

Ergonomiczne podparcie lędźwiowe

Ergo Memory Foam technology and three-point stabilisation

The **CozyPro** model is filled with 100% safe **memory foam** (Ergo Memory Foam). This material means that the **Momcozy** pillow adapts stably to the body shape without becoming permanently deformed. The **ergonomic** support system includes not only a place for the baby, but also an additional lumbar module. This design creates a three-point support system that helps maintain an upright posture, reducing muscle tension in the mother.

Mięka, a jednocześnie stabilna

Nie zapada się, zapewnia stabilność nawet podczas długiego karmienia

Wyjątkowa pianka z pamięcią 45D

Sprężyste dopasowanie

W sam raz

Twardsza

Ergonomiczne wsparcie

Równomiernie rozkłada nacisk, rozpraszając siłę
we wszystkich kierunkach dla stabilnego podparcia

Innovative Safety Fence design and wide nest

The **Momcozy** product uses the pioneering Safety Fence solution, which acts as a protective barrier. This design mimics a stable embrace, protecting the infant from accidental shifting or slipping during feeding. The nest surface is 28% wider than in standard models, making the product suitable for growing children. This **ergonomic** design allows the parent to retain freedom of movement while providing the child with stable support along the full length of the body.

Mama i dziecko zasługują na to, co najlepsze

momcozy	Inne
 Pianka z pamięcią o wysokiej gęstości	 Słaba i krucha pianka (brak podparcia)
 Większy rozmiar (57,4 cm dł. × 36,8 cm szer.)	 Ograniczona powierzchnia (50,8 cm dł. × 35,6 cm szer.)
 Ergonomiczne podparcie lędźwiowe	 Nieprawidłowy punkt podparcia
 Zapobiega zsuwaniu się dziecka	 Dziecko łatwo się zsuwa

Body fit and universal adjustment system

The **CozyPro** model has been fitted with an adjustable waist strap, allowing the circumference to be adapted to most body types. This mechanism stabilises the **feeding pillow** against the body, eliminating gaps that could make it harder to keep the baby in a stable position. Thanks to this solution, the product is helpful not only for mothers, but also for fathers and other family members, making it easier for them to master the correct technique for holding an infant without excessive effort.

360° Ergonomiczne wsparcie 360° Łatwe przystawienie, koniec z bólem ciała

Hygiene and maintenance in everyday use

Keeping the product clean is easy thanks to the removable cover, which can be **machine washed**. The outer material, made from durable fabric, is resistant to frequent washing, which is important for maintaining proper hygiene. The **washing machine** allows the cover to be refreshed quickly, while the core, made of **polyurethane foam**, is protected by a dust-proof insert. Although its shape resembles solutions such as a **pregnancy pillow**, the NP006 model is specialised for lactation and lumbar support.

Technical data

Parameter	Technical specification
Brand	Momcozy
Model	NP006 CozyPro
Filling material	100% Ergo Memory Foam (memory foam)
Cover material	100% Polyester
Nest dimensions	57 cm x 36.8 cm
Colour	Grey
Adjustment system	Adjustable waist strap
Cleaning method	Cover is machine washable

Key benefits

- Stable lumbar support reducing strain on the back during **breastfeeding**.
- Filling made of high-quality **memory foam** Ergo Memory Foam, which does not deform under weight.
- Safety Fence design preventing the infant from slipping for greater safety.
- Wider pillow design providing adequate space for the baby at different stages of development.
- Ability to precisely fit the caregiver's body thanks to the adjustable strap.
- Easy to keep clean thanks to a cover that can be handled by a standard **washing machine**.

The product is intended for

- Breastfeeding mothers who need relief for their spine and shoulders.
- Parents looking for a stable and **ergonomic** lumbar support system.
- People looking for a functional and durable baby shower gift.
- Family members of different body shapes, thanks to the universal strap adjustment system.
- Users who value easy maintenance of baby accessories.
