### Information:

Momcozy NP006 CozyPro is a functional feeding pillow with safe Ergo Memory Foam, designed for the parent's comfort and the baby's stable positioning. The Tri-Point Stable Support system provides three-point support for the shoulders, back and lumbar region, while the wider Nursing Nest area gives a growing infant more space. The Safety Guard barrier helps prevent the baby from slipping, increasing safety and comfort during feeding. The adjustable waist strap makes it easy to fit to the body, and the removable cover is suitable for machine washing. It is a practical, hygienic and comfortable solution for mothers, fathers and carers.

### Full product description

#### Momcozy NP006 CozyPro – functional nursing pillow with Ergo Memory Foam

**Nursing pillow** by **Momcozy** is a **functional** piece of equipment that makes the process of **breastfeeding** easier. The **NP006 CozyPro** model has been designed to offer stable support for the parent's arms and spine during everyday care activities. The product is **helpful** in maintaining a stable position for the infant, which significantly increases user **comfort**. The white colour scheme and aesthetic finish make the pillow a **practical** item for a newborn's layette.

dla łatwego przystawienia

## Breastfeeding pillow and Ergo Memory Foam technology

The product interior is filled with 100% safe Ergo Memory Foam. This **foam** is characterised by high density and the ability to reduce pressure points, which is crucial when holding a baby for long periods. The **ergonomic** Tri-Point Stable Support system creates three-point stabilisation, offering support for the baby's arms and additional lumbar support for the mother. The memory **foam** ensures that the **breastfeeding pillow** does not deform and retains its properties through repeated **feeds**.

## Zdejmowany pokrowiec

30% wiskoza bambusowa + 70% poliester

## Wider design and comfort during feeds

The Nursing Nest section in the **Momcozy** model is 28% **wider** than in standard solutions. This design means the pillow provides ample space for a growing baby, allowing them to be positioned freely. Although the product profile may resemble accessories such as a **pregnancy pillow**, the filling density of **CozyPro** is optimised for active support of the infant's weight. As a result, the solution is **suitable** for long sessions without causing arm muscle fatigue.

## Innovative Safety Guard for greater comfort

The product uses a pioneering Safety Guard design, which acts as a protective barrier. This solution mimics a mother's protective embrace, preventing the baby from sliding off the pillow. It is a **practical** mechanism that allows the caregiver greater freedom of movement, increasing overall **comfort** during sessions. **Momcozy** ensures that the system is stable and safe, allowing for a moment of relaxation during frequent **feeds** throughout the day.

## Fit for the whole family and easy care

The adjustable waist strap means the **nursing pillow** by **Momcozy** is **suited** to most body types. This **ergonomic** layout also helps fathers learn how to hold the baby steadily. Hygiene is made easier by the removable cover, which can be **machine washed**. A standard **washing machine** allows effective removal of dirt from the cover made of viscose and cotton. The internal **foam** is protected by a dustproof insert, ensuring long-lasting freshness of the product.

## **Key benefits**

- Stable Tri-Point system supporting the parent's back and the baby's body.
- Filling made of safe Ergo Memory Foam that reduces pressure.
- Safety Guard barrier preventing the baby from slipping.
- Wide Nursing Nest profile suitable for growing babies.
- Adjustable waist strap eliminating gaps between the pillow and the body.
- Removable cover that can be washed in a domestic washing machine.

## **The product is intended for**

- Breastfeeding women who need stable lumbar support.
- Fathers and caregivers wanting to master the correct posture when bottle-feeding.
- People looking for a functional baby shower gift.
- Users who value easy maintenance of children's accessories hygiene.
