Information:

Momcozy DK01 Bottle Drying Rack is a spacious and adjustable drying rack for bottles and baby accessories, holding up to 18 bottles. Thanks to the Momcozy DIY system, it allows the peg layout to be adapted to different sizes of dishes and breast pump parts. Made from safe, BPA-free material, it ensures stable drying thanks to drainage slots and good air circulation. The integrated brush holder and compartments for small parts help keep the worktop tidy. The snap-fit construction is easy to assemble, disassemble, clean and transport.

Full product description

Momcozy DK01 Bottle Drying Rack - Bottle drying rack

Momcozy DK01 Bottle Drying Rack is a functional drying rack designed with the organisation and drying of baby accessories in mind. This practical **bottle rack** makes everyday, regular **bottle cleaning** easier, offering suitably arranged space for feeding set components. Its thoughtful design means this stable **bottle drying rack** takes up optimal space, so the **kitchen worktop remains tidy**. The whole unit saves valuable **counter space**, supporting hygiene routines in every home with a small child.

Adjustable Momcozy DIY design

The model stands out for its high configuration flexibility, provided by the **Momcozy DIY** system. Unlike traditional solutions with a fixed layout, this design lets you **adjust the peg arrangement** to the user's current needs. This functionality makes the product an efficient **diy larger bottle drying rack**, easily accommodating items of various sizes. The entire flexible **design** is based on safe, food-grade plastic, BPA-free, ensuring stable conditions for drying items.

Drying accessories with baby bottle

The rack is characterised by its large capacity, making it suitable for everyday use as a **drying rack for 18 bottles**. This thoughtful **rack** effectively **holds** a variety of items, securely keeping **bottles with** matching teats and caps. The well-designed ventilation system with a built-in drainage slot minimises water build-up and increases airflow. As a result, natural **drying** is efficient, and items such as **baby bottles** remain completely **clean and dry**, ready to be used again at the next feeding.

Organised space and versatile use

This highly **versatile** rack gathers all the necessary utensils in one work area. Specially designated zones allow you to **put away small parts** and **parts** of the breast pump, protecting them from being lost. In addition, this model has an integrated side **holder** for washing accessories. This separate space securely **stores** useful **brushes**, allowing **the brush** for scrubbing to be stored upright, which helps keep the washing area tidy. This layout makes the product a suitable alternative to standard organisers from brands such as **Munchkin**.

Compact dimensions and easy cleaning

Despite its large capacity, the design makes optimal use of space, so you save extra **counter space** on the work surface. The whole unit assembles without any tools using snap-fit parts. Equally simple disassembly allows the structure to be folded flat for transport or for thorough washing. The ability to quickly take the components apart is **helpful for removing dirt** and makes tasks described as **for easy cleaning** easier, allowing you to reach every corner of the rack base with a standard sponge **with the sponge** and maintain full hygiene.
