### Information:

Momcozy MW05 is a portable, cordless milk and water warmer designed for parents on the move. It heats 100 ml of water to 40°C in 3 minutes, and chilled breast milk to 37°C in 5 minutes, with an accuracy of  $\pm 0.5^{\circ}\text{C}$ , helping to preserve nutritional value. It offers two operating modes, a leak-proof stainless steel design, a 500 ml capacity and a thermos function. On a single charge in Eco mode, it can handle up to 24 portions of water or 8 portions of milk, and fast charging takes 1.5 hours. Lightweight and compact, it is ideal for walks, trips and everyday feeding away from home.

### Full product description

### Momcozy portable milk warmer - the ideal travel companion

**Momcozy MW05** is an innovative **portable warmer** that redefines the comfort of caring for a child away from home. This **Momcozy portable milk warmer** has been designed with active parents in mind, combining the function of an advanced thermos with intelligent electronics. The device allows you to quickly prepare **breast milk and water** to the ideal temperature, whether you are on a walk, in the car or on a long journey. With it, your **baby** will always receive a warm meal, and you will gain complete freedom of movement without worrying about access to electricity.

# Ciepłe mleko lub woda, zawsze i wszędzie

## Fast and safe warming with Momcozy MW05 technology

What sets the **MW05 portable warmer** apart is the fact that it is a **super-fast portable breast milk warmer**. The device can **warm** 100 ml of water to 40°C in just 3 minutes, which is an impressive result in the category of **Portable** devices. If you need to prepare chilled **breast milk**, it only takes 5 minutes to reach a safe 37°C. The ability to **warm** food so efficiently means that a crying hungry little one is soothed almost immediately, making this **warmer** an absolute leader in performance on the market.

### Temperature control and operating modes of the Momcozy milk warmer

Precise **temperature control** with an accuracy of  $\pm 0.5^{\circ}\text{C}$  allows you to perfectly match the heat to your child's needs, protecting the valuable nutrients contained in **breast milk**. This **Momcozy milk warmer** offers two dedicated operating modes, making it easy to prepare both natural milk and water for **formula milk**. Such **Momcozy bottle warmers** guarantee the highest level of safety, as the stainless steel and leak-proof **design** prevent any leaks. Now warming **milk and water** is simpler and more hygienic than ever before.

# Pasuje wszędzie

## Wireless bottle warmer - power on a single charge

The completely **wireless** nature of the device eliminates the need to frantically look for a socket in public places. This is a truly **Portable Milk** warmer that, on **a single charge** in Eco mode, can handle up to 24 portions of water or 8 portions of milk. Fast **charging** of the battery in just 1.5 hours means the **portable bottle warmer** is always ready for action. It is the perfect solution for long **feeds** away from home, where reliability and long operating time matter, enough for intensive use throughout the day without the need to plug in cables.

# Łatwy w czyszczeniu dzięki szerokiemu otworowi

## Large capacity and leak-proof design for storing milk

Despite its compact dimensions and weight of just 600 g, the device features a **large capacity** of 500 ml. This allows you to easily prepare portions for 2-3 **baby bottles** during one outing. The leak-proof **design** means the **warmer** fits easily into any **pushchair bag**, while also serving as a sturdy **thermos**. You can freely plan **breast milk storage** and serve it **anywhere**, confident that **Momcozy** equipment will provide reliability for at least **30 days** of holiday adventures and everyday walks.
