momcozy

Manufacturer: MOMCOZY

Referention number: DNXXGJOIOKRMMON

Information:

Momcozy WN06 is an intelligent, portable white noise machine and night light designed with your baby's peaceful sleep in mind. It offers 20 soothing sounds, including white noise, nature sounds and lullabies, effectively masking background noise. The warm amber night light makes night-time feeding and changing easier without waking your little one, while brightness adjustment increases comfort. The compact design with a hanging loop lets you take the device anywhere, and Bluetooth adds convenience. The built-in USB-C rechargeable battery provides up to 10 hours of operation, while the timer and button lock enhance safety and ease of use.

Full product description

Momcozy WN06 - Intelligent white noise generator for your baby's peaceful sleep

Provide your child with the ideal conditions for rest with **Momcozy WN06**. This **intelligent generator** is an advanced **Sound Machine** device that combines a **white noise generator** with a gentle night light, creating a safe space for sleep. **Momcozy** offers the highest build quality, using soft materials and a **compact design**, making the device friendly to the environment in which the **infant** stays. The **generator** effectively masks **unwanted noise**, such as traffic or loud conversations, allowing the little one to **relax** after a day full of excitement.

20 soothing sounds - Personalising your little one's sleep

The device has **20 soothing sounds** that help your child **fall asleep** faster and sleep more deeply. Among the available options you will find **white noise** (White Noise), a **fan**, soothing lullabies and a variety of **nature sounds**, such as ocean waves or **birds singing**. This **variety** means the **sound player** can be perfectly **adjusted** to your child's preferences. Every **function** is within easy reach, and the high-quality sound makes the **infant** feel safe, which directly translates into better **sleep quality for the child**.

Amber night light and ease of use

The integrated **night light** in a warm amber colour is a huge **convenience** during night-time wake-ups. The **light** emits a gentle glow that makes **feeding** or changing a nappy easier without fully waking the child. You can freely **adjust** the **brightness** and **intensity** of the light to suit the conditions in the **child's room**. **Momcozy** cares about parents' **comfort**, offering intuitive buttons that are easy to **operate** even with one hand. In addition, the built-in **lock - Child Safety Lock** - prevents accidental changes to the settings by curious little fingers.

Portable white noise generator - A companion for every journey

Momcozy WN06 is a typical **portable white noise generator** which, thanks to the built-in ring, can be easily attached to a pushchair, car seat or cot. Its **compact** size and light weight mean that the **infant** can always have their favourite **baby sound machine** with them. The **portable generator** works brilliantly during walks, holidays or visits to grandparents, helping the little one **fall asleep** in a new environment. The device also features **Bluetooth** (wireless connectivity), which further increases its functionality as a modern **sound player**.

Long battery life and smart timer

The efficient **battery** charged via a USB-C port guarantees a **long operating time** – up to 10 hours of continuous playback at maximum volume and brightness. This means you do not have to worry that the **infant** will wake up during a **nap** because the device has run out of power. **Momcozy** offers **three timer options** that allow the **generator** to switch off automatically after a set time, saving energy and ensuring **ease of use**. The robust **battery life** and fast-charging function make this **sound machine** always ready to help, so your **little one** can enjoy a peaceful night.

Technical data

Brand	Momcozy
Model	WN06
Number of sounds	20 (white noise, nature, lullabies)
