Manufacturer: MOMCOZY

Referention number: DNxGHJKOERMMGN

Information:

The Momcozy PP001 J-shaped pregnancy pillow provides comfortable support for the head, neck and legs, helping the expectant mother sleep better, rest and feed the baby. The soft, resilient polyester fibre filling adapts to the body and does not clump, while the pleasantly soft jersey fabric cover is gentle on the skin and easy to remove and wash. Its compact shape does not take up much space, so the pillow is also suitable for smaller beds. It is a practical, multifunctional support during pregnancy and after childbirth.

Full product description

Pillow for mom-to-be

The Momcozy PP001 J-shaped pregnancy pillow is designed to provide **comfort to pregnant women** both at night and during the day. With its **soft filling and pleasant-to-touch jersey fabric pillowcase**, this pillow helps you sleep, rest and feed your baby better - without compromising.

Momcozy J Shaped Pregnancy Pillows

All-Night Soft and Stable Support

Letter shape - simple and comfortable

The **J-shaped pillow** allows for comfortable support of the head, neck and legs without the need for additional pillows. This shape does not take up too much space, while providing **ergonomic support for the body** of the mother-to-be. A **pregnancy pillow** of this type works well especially in smaller beds and on the couch.

Fill and fiber - resilience and comfort

Inside, it uses a **resilient polyester fiber filling** that conforms to the body and doesn't bunch up after a few uses. It maintains its softness for a longer period of time, while remaining lightweight and easy to carry. It stands up well to daily use - including as a **nursing pillow with a cotton pillowcase**.

Cover and pillowcase - friendly to use

The **jersey fabric pillowcase** is pleasant to the skin and soft to the touch, which any pregnant woman will appreciate. It is **removable and machine washable**, which makes it significantly easier to keep the pillow clean. The material stands up well to washing, retaining its softness and elasticity.

Multifunctional - more than just for sleeping

This **pregnancy pillow** is great not only for sleeping, but also for **breastfeeding**, relaxing or working in bed. Thanks to its profile, it supports the shoulders and relieves pressure on the neck during feeding, whether sitting or lying down. It is a **comfortable and practical accessory for pregnant women**, which will also find use after giving birth.
