Manufacturer: MOMCOZY

Referention number: DNXGHJKOGRMMIL

Information:

The Momcozy PP007 pregnancy pillow in an F shape provides comfortable support for the whole body during side sleeping, rest and feeding. Its 145 cm length helps relieve pressure on the hips, abdomen, shoulders, neck and knees, supporting the spine in its natural position. The breathable Air Layer cover and anti-allergy polyester filling increase comfort, reduce moisture and are safe for the skin. The pillow is lightweight, durable, easy to wash and features a versatile grey design that suits any interior.

Full product description

Pregnancy pillow - more than just comfort

It's hard to get a restful night's sleep during pregnancy when your body demands support and pressure relief. **The Momcozy PP007 F-shaped Pregnancy Pillow** is designed to support a woman through every stage of pregnancy - whether sleeping or resting during the day. Thanks to the **Air Layer** and the **gray, breathable pillowcase**, you get comfort that doesn't tire your skin, while making everyday life easier.

Pillow - the comfort of sleeping on your side

The F-shape makes it easier to **sleep on your side**, relieving pressure on your hips, abdomen and shoulders. **A sleeping pillow** of this length (145 cm) supports the entire body - from the neck to the knees. The ergonomic form helps keep the spine in a natural position, which is especially important during pregnancy.

Anti-allergenic pillow - breathable and safe

The anti-allergenic polyester filling and **Air Layer pillowcase** effectively reduce skin contact with moisture. The structure of the material allows air circulation, which is important especially on warmer nights. In addition, the whole thing is **chemical-free** and machine washable.

Decorative pillow - functionality and aesthetics

Although it is a product dedicated to pregnant women, **the pillow** will also work well as a **large seat cushion or chair cushion**. Its neutral **gray color** scheme and minimalist design blend well with any interior design. As a result, you can also use it after giving birth without having to hide it from view.

Breathable Pillow Cover

Support pillow - for feeding and relaxation

Momcozy PP007 is not only **a pillow for sleeping on your side**, but also **a pillow for breastfeeding** and daily relaxation. The F-shape allows you to comfortably position your arm and baby while nursing. Importantly, **the support pillow** is lightweight, easy to carry and retains its shape well.
