Manufacturer: MOMCOZY

Referention number: DNXGHJKODRMLPO

Information:

The Momcozy PP102 U-shaped pregnancy pillow provides comfortable support for the head, back, stomach and legs, helping you find a comfortable side-sleeping position and relieve pressure on the spine. The soft filling and cooling, breathable cover made of nylon and polyester increase comfort, especially during night sweats. The removable cover is machine washable, making it easy to care for. The pillow also works well after childbirth as support during breastfeeding, rest and everyday relaxation, offering multifunctional use for mum and baby.

Full product description

Pillow for pregnant women - comfort in any position

Pregnancy is a time when sleeping and resting comfort becomes especially important. **The Momcozy PP102 U-shaped pregnancy pillow** was created for moms-to-be who want to ensure comfortable body positioning throughout the night. Thanks to **the cooling fabric and soft filling**, the pillow gives **maximum comfort**, supports the spine and also works well during **feeding the baby** and daily rest.

Letter shape - wrapping on all sides

The U-shaped pillow allows you to support your head, back, abdomen and legs at the same time. This way you don't have to change positions or reach for additional pillows - you have everything in one. **The pregnancy croissant pillow** adjusts to your figure and provides comfortable sleep on both the left and right sides.

Cooling fabric - comfort while you sleep

The fabric used in the pillowcase is made of a combination of nylon and polyester, which gives **a pleasant cooling effect while sleeping**. This is especially useful for pregnant women who struggle with nightly hot flashes. **The pillowcase** is removable, breathable and **machine washable**, making daily care much easier.

Feeding support - convenience for mom and baby

After giving birth, the pillow is perfect for **breastfeeding**. It provides **comfortable support for the shoulders and back**, which reduces tension in the neck and spine. It also helps to **safely position the baby**, which contributes to the comfort of feeding and relaxation of the mother.

Multifunctionality - more than just for sleeping

It is not only **a pregnancy pillow for sleeping**, but also a practical tool for **resting, feeding and relaxing** after delivery. The pillow makes it easier to sit up, supports when working in bed, and can even act as a **playpen or security** for the baby. Such **a multifunctional product** is useful for much longer than just during pregnancy.
