momcozy

Manufacturer: MOMCOZY

Referention number: DNXGJOINERMIL

Information:

Momcozy MS013 is a set of 5 reusable silicone breast milk storage bags with a capacity of 250 ml. Made from safe BPA Free food-grade silicone, they are durable, leak-proof and resistant to damage. Thanks to the Knob Cap Design closure, they protect against leaks, while the option to freeze them flat or upright helps save space in the freezer. The clear scale makes portion measuring easy, and the wide opening allows for easy dishwasher cleaning and sterilisation. After the breastfeeding period, the bags are also suitable for storing purées, juices and fruit purées.

Full product description

Momcozy MS013 - Silicone storage bags for breast milk

The **Momcozy** MS013 set containing 5 **pcs** is a modern solution for women who value ecology and want to safely **store** expressed **breast milk**. This silicone **bag** is a reusable alternative to traditional bags, making **breastfeeding** much easier at home. Each **container** with a capacity of 250 **ml** has been designed to support parents in the daily storage of supplies of this precious **food** for a baby.

Top-quality bag - Safety and durability of Momcozy

Momcozy products are made of premium food-grade silicone (BPA Free), which guarantees the highest **safety** for the child's health. The one-piece construction makes the silicone **bag** extremely durable and resistant to mechanical damage. The tight **closure** with Knob Cap Design completely eliminates the risk of leakage, so the **food** remains protected from external factors. These **storage bags** can be used repeatedly, making them an economical and durable **accessory** for lactation.

Storage and freezing bags for food

The specialist material allows the collected liquid to be safely **frozen** in the freezer. **Momcozy food bags** can be stored upright or flat, which optimises space and helps keep things tidy. After removing from the fridge and **thawing the milk**, it can be quickly prepared for **feeding** by placing the **bag** in warm water. The flexible **container** is also compatible with many devices, such as a home bottle **warmer**, making it exceptionally easy and quick to serve milk in a volume of, for example, **180 ml**.

Wielorazowy silikonowy worek do przechowywania mleka

250 ml container - Easy transport and multifunctionality

Each silicone **container** has a clear scale in **ml**, which makes it easy to measure portions precisely, such as **180 ml** or 200 ml. As a result, **milk storage** is fully controlled, and the parent knows exactly how many ml of liquid a given **bag** contains. This **accessory** is extremely versatile – after the **breastfeeding** period ends, **Momcozy storage bags** can be used as bags for storing mousses, juices or fruit purées. Their **double** advantage is durability and leak-tightness, which makes it easier to safely **transport** food during walks or trips.

Easy maintenance and hygiene at the highest level

It is also worth noting that each Momcozy **bag** has been designed with maximum convenience and time savings in mind. The wide opening makes hygiene maintenance exceptionally easy – the silicone **container** can be safely washed in the dishwasher or sterilised at high temperatures. This means that **breast milk** can be stored in them repeatedly and safely, with the certainty that the **food** given to the baby is always sterile. Such ease of use significantly streamlines preparations for **feeding**, allowing parents to focus on building closeness with their child instead of tedious cleaning.

Product advantages

- **Easy to use** – intuitive filling and secure sealing of food.
- **High-quality silicone** – safe material free from harmful BPA substances.
- **Double storage method** – the option to freeze flat or upright.

- **Transport safety** – complete protection against leakage thanks to Knob Cap Design.
- **Reusability** – an eco-friendly solution instead of disposable milk bags.

The product is intended for

- **Breastfeeding mothers** who are looking for durable, reusable solutions for safely storing expressed milk.
- **Parents who value ecology**, wanting to reduce the amount of waste generated by disposable food bags.
- **People needing leak-proof containers** for transporting liquid and semi-liquid meals (e.g. juices or purées) while travelling.
