Information:

Momcozy Breastmilk Bag 120 pcs are practical, leak-proof bags for storing expressed breast milk in the fridge or freezer. Made from safe BPA-free material, they have a 250 ml capacity, a double zip seal and reinforced edges that help reduce leaks. The built-in temperature indicator makes it easier to monitor warming, and the labelling area allows you to note the date and time. The Easy Pour spout enables convenient, hygienic pouring of milk into a bottle without splashing. The large 120-piece set is ideal for daily portioning and organising supplies.

Full product description

Momcozy Breastmilk Bag 120 pcs - storage bags for milk with Easy Pour spout

This **product description** concerns the **Momcozy Breastmilk Bag 120 pieces** set, i.e. practical bags with a spout for collecting expressed milk. It is a convenient **accessory** for parents who want to safely **store breast milk** in the fridge or freezer. The 120-piece set is ideal for everyday feeding planning, as each **bag** helps organise portions and reduce the risk of spillage. The product belongs to the **storage bags** and **breastmilk** categories, so it has been designed with hygienic contact with milk in mind.

Safe storage - how to store breast milk in Momcozy bags

The material used is **BPA-free**, so the milk does not come into contact with bisphenol A. A single **bag** has a capacity of **250 ml**, making it easy to prepare portions suited to the baby's needs. The double zip closure and reinforced edges help reduce the risk of **leakage** during cooling, freezing and thawing. Thanks to its stable shape, the product can be **stored** upright or flat, depending on the amount of space in the fridge.

Biały
Gorące (> 40°C / 104°F)

Breast milk and temperature-dependent indicator

The built-in **indicator** changes colour during warming, making it easier to judge whether the portion is cold, properly warmed or too hot. This solution supports control of milk feeding without the need for an additional thermometer. A thoughtfully designed writing area helps mark the date and time of filling, making it easier to maintain **freshness** and the order in which supplies are used.

8 oz / 250 mL

Easy Pour bag - how to fill easy and hygienic portions

The side **Easy Pour** spout allows you to pour milk into a bottle in a **precise** way, without unnecessary splashing. Filling takes place through the top closure, while pouring is done through a separate side outlet, which limits contact between the contents and external elements. This layout supports hygiene and makes the **bag** function like a flexible **container** designed for portioning milk.

Convenient storage of breast milk with Momcozy 120 pieces

These practical bags help organise a home supply of milk for a baby. Each **bag** can be labelled, sealed and arranged in the fridge or freezer so that the right portion is easy to find. The material used in the product includes safe polyethylene intended for contact with food. These are practical **storage bags** for people who want to **store** milk in an organised, hygienic and space-saving way.

A convenient addition to everyday feeding

The 120-piece set works well with a breast pump, feeding bottles and a warmer, so it can be part of an everyday feeding system. In the **FAQs** section, the most common questions concern how to fill the bags, their leak-tightness and thawing. Before sealing, it is worth removing excess air and then pressing the zip firmly to reduce the risk of **leakage**. The product is suitable both for short-term chilling and for building up a larger supply for the following days.

Cechy

- Bez wycieków
- Wskaźnik temperatury

Technical data

Brand Momcozy

Number of pieces in the pack	120 pieces
Capacity of a single piece	250 ml
Intended use	Storage and freezing of breast milk
Material	Polyethylene suitable for contact with food
Temperature information	Colour information about the milk warming level
Type of closure	Double zip closure
Pouring method	Side Easy Pour spout

Key benefits

- **Safe storage** – the leak-tight design helps protect milk in the fridge and freezer.
- **Large 120-piece set** – the pack is enough for a longer period of everyday use.
- **Easy Pour spout** – the side outlet makes it easy to pour the contents cleanly into a bottle.
- **Portion control** – the capacity of a single piece allows you to prepare convenient portions for the baby.
- **Hygienic use** – separating the filling area from the pouring area limits contact between the milk and the surroundings.

The product is a proposition for

- **Breastfeeding mothers** who regularly express milk and need a larger set of containers.
- **Parents organising supplies** who want to label portions clearly and keep track of use-by dates.
- **People who value order**, for whom convenient arrangement of portions in the fridge or freezer matters.
