momcozy

Manufacturer: MOMCOZY

Referention number: DNXXGOONKRMNGM

Information:

Momcozy TH001 is a non-contact infrared thermometer for quick and convenient measurement of forehead and ear temperature, ideal for the whole family, and especially for children aged 0-3 years. It provides precise, safe readings without contact with the skin, has a silent mode and a clear LCD screen, making it suitable for use at night as well. It also allows measurement of the temperature of objects, such as bottles, and the surrounding environment. The lightweight design, carry bag and power supply from 2 AAA batteries guarantee mobility and ease of use.

Full product description

Fast and convenient temperature measurement - for the whole family

Temperature monitoring is crucial for health, especially for the youngest. **Momcozy TH001** is a **non-contact infrared thermometer** that enables quick and precise measurement of forehead and ear temperature. Thanks to the **children's mode (0-3 years)**, **quiet operation** and **clear LCD display**, the device ensures comfortable use both day and night.

Precise children's mode (0-3 years)

The thermometer is equipped with a **special mode for infants and children up to 3 years old**, which enables safe and accurate temperature measurement. Sensitive infrared sensors provide reliable results, eliminating the risk of incorrect readings. **Safe technology allows measurement without contact with the child's delicate skin**, which is especially important during sleep or illness.

Multi-function measurement - forehead, ear, ambient

The thermometer enables **temperature measurement on the forehead and in the ear**, allowing the method to be adapted to the child's age. In addition, it can be used to measure the temperature of objects (e.g. a milk bottle) and the ambient temperature, making it a **practical tool for everyday use**.

Fast and clear reading

Momcozy TH001 provides **instant results**, eliminating the need to wait for long periods. The **clear LCD display** makes it easy to read the temperature, even in low light. The silent mode means the measurement can be taken without disturbing the child's sleep, which is especially important when monitoring health at night.

Portability and long operating time

The device is **lightweight and easy to carry**, so you can always have it to hand. The set includes a carry bag, which makes it easy to store and take the thermometer on trips. **Powered by two AAA batteries, it offers a long operating time**, eliminating the need for frequent replacement.
