Manufacturer: MOMCOZY

Referention number: DNXGJOHRJRMPL

Information:

Momcozy YN08 is a comfortable bra for pumping and breastfeeding, created for mums who value freedom and mobility. Hands-Free technology and the patented X design securely hold the breast pump flanges in place, helping to express milk hands-free, without leaks and without having to constantly support the bottles. The soft, breathable cotton and spandex blend ensures all-day comfort, while the detachable clip and adjustable straps make it easy to fit quickly and operate with one hand. The model is universal and compatible with many popular breast pumps, including Philips Avent, Spectra and Lansinoh.

Full product description

Momcozy breast pump bra - freedom and convenience

Momcozy YN08 is a product designed for mothers who want to regain mobility during everyday tasks. This **breast pump bra** allows for effective **hands-free milk expression**, so you can work, read or simply rest while the **breast pump** does its job. The use of **Hands-Free** technology makes **breastfeeding** and regular **milk expression** much less troublesome and does not require constantly holding the bottles. The **YN08** model is synonymous with a modern approach to motherhood, combining functionality with complete discretion.

Breast pump bra and Hands-Free technology

The key to the success of the **YN08** model is its patented X-shaped construction, which keeps the funnels securely in place. As a result, the **pumping bra** allows you to **pump** milk without the risk of losing the seal or leaking, which often happens with ordinary underwear. The **Pumping** function integrated into this model ensures that each **breast** is properly supported, and the weight of the filling bottles is distributed evenly. This is the ideal **Momcozy breast pump bra**, which has a real impact on a woman's physical and mental comfort during lactation.

Comfortable nursing bra for everyday wear

Made from a high-quality cotton and spandex blend, this **bra** is so **comfortable** that it can be worn all day long. The material is extremely soft and kind to sensitive skin, which is especially important when you need to **express** milk regularly. This model combines the features of a classic **nursing bra** and a specialist **breast pump bra**. As a result, you do not need to change underwear before every session – the **Nursing** technology allows for quick and discreet latching of the baby to the breast without having to remove the entire **bra**.

Milk expression and easy access thanks to practical clips

The designers at **Momcozy** have taken care of every detail, equipping the **bra** with a detachable **clip**, which allows one-handed operation. This is extremely helpful when you are holding your **baby** and at the same time want to prepare for a **milk expression** session.

The **adjustable** straps allow for a perfect fit to the figure, and the option to cross them at the back further strengthens the structure during intensive use of the breast pump. This means that **milk expression** takes place without unnecessary effort and without the need to **use your hands** to support the pumping set.

Momcozy milk expression with any breast pump

One of the biggest advantages of the **YN08** model is its versatility. This **breast pump bra** is compatible with most devices available on the market, such as breast pumps from Philips Avent, Spectra or Lansinoh. By choosing the right size (XXL size), you can be sure that the funnels will fit precisely, allowing you to **pump** milk effectively without losing suction. **The pumping bra** from **Momcozy** is an investment that makes **breastfeeding** a modern process fully adapted to the pace of a contemporary woman's life.
