Manufacturer: MOMCOZY

Referention number: DNxGJOHRHRMMNN

Information:

Momcozy YN08 is a comfortable breast pump bra and nursing bra, created for mums who value mobility and comfort. Hands-Free technology and the patented X design securely hold the breast pump flanges in place, preventing leaks and enabling effective hands-free milk expression. The soft, breathable cotton and spandex blend ensures all-day comfort, while the practical clip makes it easy to switch quickly to nursing. Adjustable straps and a universal fit mean the model is compatible with most popular breast pumps, combining functionality, discretion and everyday comfort.

Full product description

Momcozy breast pump bra - freedom and convenience

Momcozy YN08 is a product designed with mothers in mind who want to regain mobility during everyday tasks. This **bra for a breast pump** allows for effective **hands-free milk expression**, so you can work, read or simply rest while the **breast pump** does its job. The use of **Hands-Free** technology means that **breastfeeding** and regular **milk expression** become much less troublesome and do not require constantly holding the bottles. The **YN08** model is synonymous with a modern approach to motherhood, combining functionality with complete discretion.

Breast pump bra and Hands-Free technology

The key to the success of the **YN08** model is its patented X-structure design, which holds the funnels securely in the right place. As a result, the **pumping bra** allows you to **pump** milk without the risk of leaks or loss of seal, which often happens with ordinary underwear. The **Pumping** function integrated into this model ensures that each **breast** is properly supported, and the weight of the filling bottles is distributed evenly. This is the ideal **Momcozy breast pump bra**, which has a real impact on a woman's mental and physical comfort during lactation.

Comfortable nursing bra for everyday use

Made from a high-quality cotton and spandex blend, this **bra** is so **comfortable** that it can be worn all day long. The material is extremely soft and kind to sensitive skin, which is especially important when you need to **express** milk regularly. This model combines the features of a classic **nursing bra** and a specialist **breast pump bra**. As a result, you do not need to change underwear before every session - the **Nursing** technology allows for quick and discreet breastfeeding without having to remove the entire **bra**.

Milk expression and easy access thanks to practical clips

The designers at **Momcozy** have taken care of every detail, equipping the **bra** with a detachable **clip** that allows one-handed operation. This is extremely helpful when you are holding a **baby** and at the same time want to prepare for a **milk expression** session. The **adjustable** straps allow for a perfect fit to the figure, and the option to cross them at the back further strengthens the design during intensive use of the breast pump. This means that **milk expression** takes place without unnecessary effort and without the need to **use your hands** to support the pumping set.

Momcozy milk expression with any breast pump

One of the biggest advantages of the **YN08** model is its versatility. This **breast pump bra** is compatible with most devices available on the market, such as breast pumps from Philips Avent, Spectra or Lansinoh. By choosing the right size (size L), you can be sure that the funnels will fit precisely, allowing you to **pump** milk effectively without losing suction. **The breast pump bra** from **Momcozy** is an investment that makes **breastfeeding** a modern process fully adapted to the pace of a contemporary woman's life.
