momcozy

Manufacturer: MOMCOZY

Referention number: DNXGJOHRGRMMMO

Information:

Momcozy YN08 is a comfortable breast pumping and breastfeeding bra that enables hands-free milk expression without using your hands. The patented X-shaped design securely holds the breast pump funnels in place, helping to prevent leaks and loss of suction. The soft, breathable cotton and spandex blend ensures all-day comfort, while the practical clip makes one-handed use easier. Adjustable straps and the option to cross them at the back improve fit and support. The model is universal and compatible with many popular breast pumps, including Philips Avent, Spectra and Lansinoh. Ideal for active mums who want to combine comfort, discretion and efficient milk expression.

Full product description

Momcozy breast pump bra - freedom and convenience

Momcozy YN08 is a product designed with mothers in mind who want to regain mobility during everyday tasks. This **breast pump bra** allows for effective **hands-free milk expression**, so you can work, read or simply rest while the **breast pump** does its job. The use of **Hands-Free** technology makes **breastfeeding** and regular **milk expression** much less troublesome and no longer requires constantly holding the bottles in place. The **YN08** model is synonymous with a modern approach to motherhood, combining functionality with complete discretion.

Breast pump bra and Hands-Free technology

The key to the success of the **YN08** model is its patented X-shaped construction, which keeps the flanges securely in the right place. As a result, the **pumping bra** lets you **pump** milk without the risk of losing the seal or leaking, which often happens with ordinary underwear. The **Pumping** function integrated into this model ensures that each **breast** is properly supported, and the weight of the filling bottles is distributed evenly. This is the ideal **Momcozy breast pump bra**, which genuinely improves a woman's mental and physical comfort during lactation.

Comfortable nursing bra for everyday wear

Made from a high-quality blend of cotton and spandex, this **bra** is so **comfortable** that it can be worn all day long with ease. The material is exceptionally soft and kind to sensitive skin, which is extremely important when you need to **express** milk regularly. This model combines the features of a classic **nursing bra** and a specialist **breast pump bra**. As a result, you do not need to change underwear before every session - the **Nursing** technology allows for quick and discreet latching without having to remove the entire **bra**.

Milk expression and easy access thanks to practical clips

The designers at **Momcozy** have taken care of every detail, equipping the **bra** with a detachable **clip** that allows one-handed operation. This is extremely helpful when you are holding your **baby** and want to prepare for a **milk expression** session at the same time. The **adjustable** straps allow for a perfect fit, and the option to cross them at the back further strengthens the structure during intensive use of the breast pump. This means **milk expression** takes place without unnecessary effort and without the need to use your **hands** to support the pumping set.

Momcozy milk expression with any breast pump

One of the biggest advantages of the **YN08** model is its versatility. This **breast pump bra** is compatible with most devices available on the market, such as breast pumps from Philips Avent, Spectra or Lansinoh. By choosing the right size (size M), you can be sure that the flanges will fit precisely, allowing you to **pump** milk effectively without losing suction. The **pumping bra** from **Momcozy** is an investment that makes **breastfeeding** a modern process fully adapted to the pace of a contemporary woman's life.
