momcozy

Manufacturer: MOMCOZY

Referention number: DNKGJOHRIMMOM

Information:

The Momcozy YN08 breast pump bra is a comfortable and functional solution for mums who want to express milk hands-free. The patented X-shaped design securely holds the breast pump funnels in place, reducing the risk of leaks and ensuring comfort during Pumping sessions. The soft cotton and spandex blend is skin-friendly and suitable for all-day wear. A practical clip makes one-handed use easier, while adjustable straps and the option to cross them at the back improve the fit. The model combines the functions of a nursing bra and a breast pump bra, is discreet, comfortable, and compatible with many popular breast pumps.

Full product description

Momcozy breast pump bra - freedom and convenience

Momcozy YN08 is a product designed for mothers who want to regain mobility during everyday tasks. This **breast pump bra** allows for effective **hands-free milk expression**, so you can work, read or simply rest while the **breast pump** does its job. The use of **Hands-Free** technology makes **breastfeeding** and regular **milk expression** much less cumbersome and do not require constantly holding the bottles. The **YN08** model is synonymous with a modern approach to motherhood, combining functionality with complete discretion.

Breast pump bra and Hands-Free technology

The key to the success of the **YN08** model is its patented X-shaped design, which keeps the funnels securely in place. As a result, the **pumping bra** allows you to **pump** milk without the risk of leaks or loss of seal, which often happens with ordinary underwear. The **Pumping** function integrated into this model ensures that each **breast** is properly supported, and the weight of the filling bottles is distributed evenly. This is the ideal **Momcozy breast pump bra**, which has a real impact on a woman's mental and physical comfort during lactation.

Comfortable nursing bra for everyday use

Made from a high-quality cotton and spandex blend, this **bra** is so **comfortable** that it can be worn all day long. The material is extremely soft and kind to sensitive skin, which is especially important when you need to **express** milk regularly. This model combines the features of a classic **nursing bra** and a specialist **breast pump bra**. As a result, you do not need to change underwear before every session – the **Nursing** technology allows for quick and discreet latching of the baby to the breast without having to remove the entire **bra**.

Milk expression and easy access thanks to practical clips

The designers at **Momcozy** have taken care of every detail, equipping the **bra** with a detachable **clip** that allows one-handed operation. This is extremely helpful when you are holding a **baby** and at the same time want to prepare for a **milk expression** session. The **adjustable** straps allow for a perfect fit to the figure, and the option to cross them at the back further strengthens the structure during intensive use of the breast pump. As a result, **milk expression** takes place without unnecessary effort and without the need to **use your hands** to support the pumping set.

Momcozy milk expression with any breast pump

One of the biggest advantages of the **YN08** model is its versatility. This **breast pump bra** is compatible with most devices available on the market, such as breast pumps from Philips Avent, Spectra or Lansinoh. By choosing the right size (XL size), you can be sure that the funnels will fit precisely, allowing you to effectively **pump** milk without losing suction. **The Momcozy pumping bra** is an investment that makes **breastfeeding** a modern process fully adapted to the pace of life of the contemporary woman.
