momcozy

Manufacturer: MOMCOZY

Referention number: DNKGJOIKRMLL

Information:

Momcozy YN46 Creamy Floral is a seamless nursing bra with a push-up effect, created for pregnant women and those in the lactation period. Jelly Strip technology provides stable support comparable to underwires, but without pressure, irritation or metal wires. The soft, elastic material adapts to the changing bust, and the absence of side seams means the model is invisible under clothing. The fastenings and straps can be operated with one hand, making breastfeeding easier. The reinforced construction helps prevent breast sagging and reduces leakage, while the safe materials are friendly for both mother and baby.

Full product description

Functional nursing bra Momcozy YN46 with push-up support

Momcozy **YN46** in the Creamy Floral variant is a **seamless floral nursing bra** designed with women going through the period from **pregnancy to motherhood** in mind. This **bra** combines an aesthetic finish with high practicality, providing stable support for the body during **childbirth** and the later care of the baby. By choosing this **nursing bra**, the user receives a product that allows the sensitive tissues to be **supported more gently**, without giving up the attractive look of lingerie.

Komfort drugiej skóry

Maślana miękkość i gładkość

Construction and Jelly Strip technology

The **YN46** model uses a **jelly strip - seamless floral** stabilising system, which effectively replaces traditional stiffening. This **innovative bonding technology** uses **jelly gel** material, so the **nursing bra** does not require metal **wires** or a hard **underwire**. **Instead of traditional stitching**, which often causes irritation, this method **seamlessly bonds the fabrics**, creating a smooth and flat surface. The **Strip - seamless floral bra** offers support comparable to that known from **underwired models**, while remaining a fully soft and flexible garment.

Practical use during feeding and lactation

This **floral push-up nursing bra** was created to make everyday **breastfeeding** as easy as possible. The **bra** has **fastenings and straps** that are **easy to operate** with one hand, allowing the baby to be positioned quickly and efficiently. A properly chosen **nursing bra** is intended not only to make access to the breast easier, but also to **prevent breast sagging** by lifting them securely. The design means the **bra holds** the weight well, and the cups **support** the body more firmly and **sit closer** than a standard **seamless bra**. To **avoid leakage** onto outer clothing, the lower part of the cups is reinforced, which is helpful when you need to **pump** milk with a breast pump or during natural milk let-down.

Wszechstronny na każdą okazję

Material properties and wearing comfort

The fabric used to make this **bra** is extremely **light and delicate**, allowing the material and the skin to **move together** naturally. As a **wire-free and seamless** product, the **YN46** model feels like a **natural extension of the skin**. This **soft nursing bra** is a suitable choice for a hospital bag for **childbirth**, as it provides freedom in every position. The **bra** is highly elastic, allowing it to **stretch** and adapt to changes in breast volume throughout the day.

Safety and manufacturing standards

Every **seamless bra** by **Momcozy** is made with care to ensure that the material does not **contain harmful substances**. This helps **guarantee the safest wear** for both mother and baby during direct skin-to-skin contact. The **seamless bra** does not show under clothing, and the adjustable **strap** allows precise fitting to the figure. Please note that mechanical damage resulting from improper care of **Momcozy products is excluded** from the free repair process. This **nursing bra** is a stable and well-thought-out option for women who value safety and a considered approach to designing lactation lingerie.

Key benefits

- The lack of side seams means the **bra** is invisible under clothing and does not cause chafing.
- The Jelly Strip system stabilises the **breasts** in a way comparable to **underwired models**, but without pressure.
- The **soft** and **elastic** material allows the fabric to **stretch** freely and breathe.
- The ability to operate the fastenings with one hand significantly makes **breastfeeding** easier in any conditions.
- The **push-up** design helps **lift** the breasts and **prevent breast sagging**.
- The product does not **contain harmful substances**, ensuring complete safety for the baby.

The product is intended for

- Women in lactation looking for a stable and **seamless nursing bra**.
- Expectant mothers putting together a hospital bag for **childbirth**, who value **comfortable** and **soft** material.
- People who want to **pump** milk with a breast pump and need stable support without underwires.
- Mothers needing lingerie that can **support more gently** the body from **pregnancy to motherhood**.
- Women looking for lingerie combining a **push-up** function with the absence of compressive **wires**.
