Full product description

FIMI X8 Mini V2 Standard - drone with 4K camera and three-axis gimbal

If you're looking for a drone that allows you to see the world from a different perspective and capture amazing aerial videos, then the **FIMI X8 Mini V2** is for you. It's a drone that combines **lightweight, range, quality and functionality**. It is the perfect equipment for aerial photography and filming enthusiasts who want to enjoy amazing views and capture unforgettable moments.

Key Features of FIMI X8 Mini V2 Standard

- Range up to 9 km
- Flight time up to 31 minutes
- 4K camera with three-axis gimbal
- Tracking and filming modes
- Level 5 wind resistance
- Weight 245 grams

Ultralight and foldable design

The **FIMI X8 Mini V2 weighs only 245 grams**, which means you can take it with you anywhere without worrying about extra charges or restrictions. Its **foldable design** allows for easy storage and transportation. **The drone fits in the palm of your hand** and is ready to fly in seconds.

Range up to 9 km and flight time up to 31 minutes

The **FIMI X8 Mini V2** uses the **latest RokLink video transmission system**, which provides high sensitivity and strong noise immunity. This allows **you to fly at distances of up to 9 km** and watch live video on your smartphone or tablet. The drone is also equipped with a **2200 mAh smart battery** that allows you to **fly for up to 31 minutes** on a single charge. **The battery has a Type-C port** that allows for 9V/3A fast charging.

4K camera with three-axis gimbal

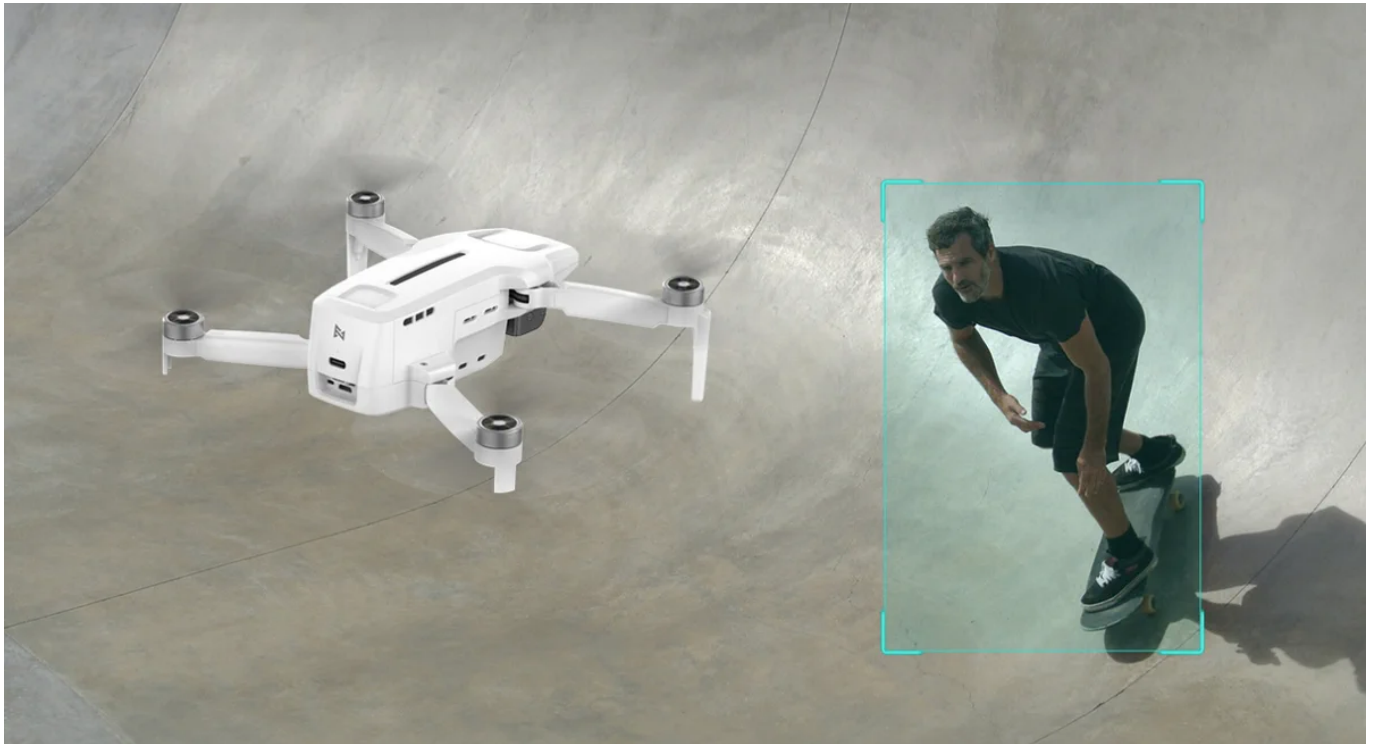

The **FIMI X8 Mini V2** has a **4K camera with a three-axis mechanical gimbal** that stabilizes images even at high speeds and strong winds. The camera has a **12MP sensor and an f/2.0 aperture** for bright and detailed photos and videos. You can record **video at up to 4K 30 fps**.

Tracking and filming modes

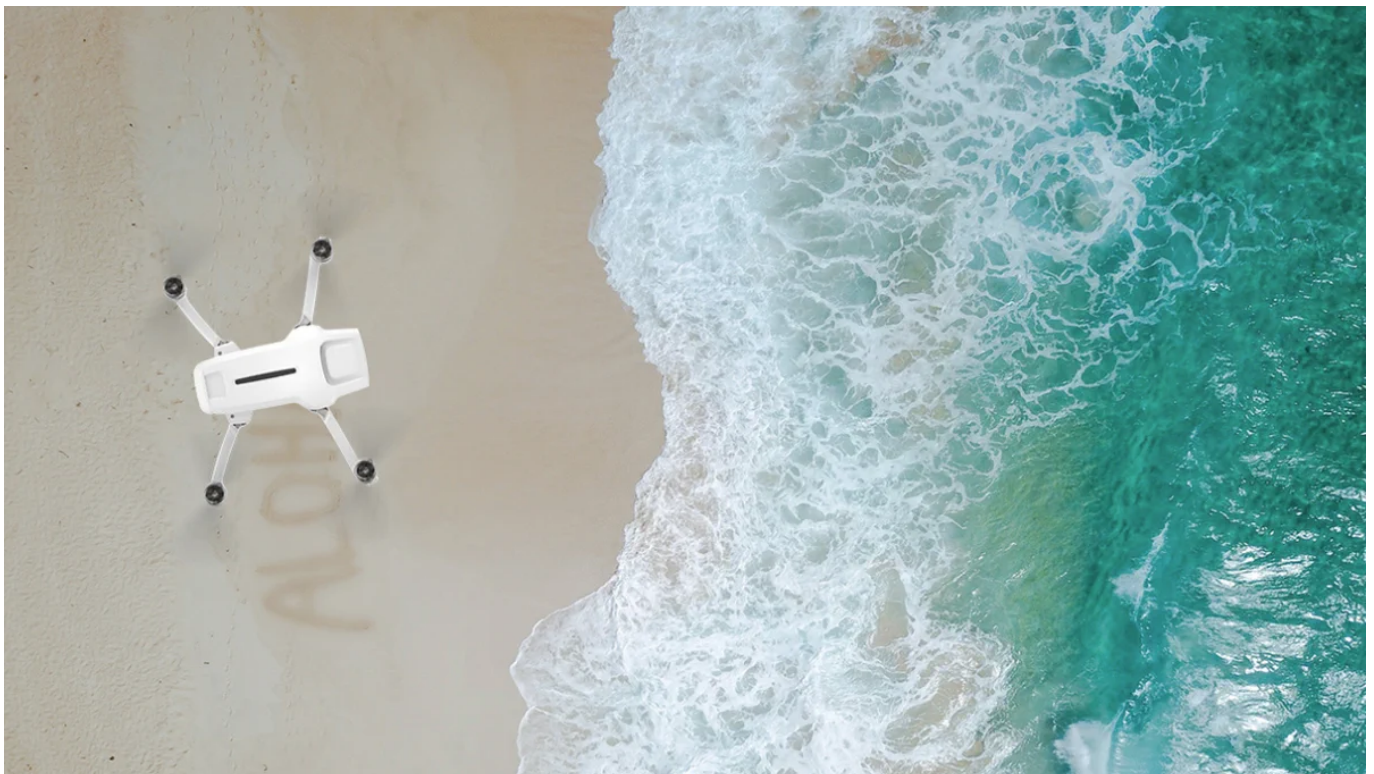

The FIMI X8 Mini V2 has a built-in **AI processor that can recognize and track up to 30 types of targets**, such as people, cars, boats or animals. **You can choose from tracking modes** such as Smart Track, Orbit or Parallel to get dynamic shots from different angles. The drone also has **multiple filming modes**, such as One-Tap Video, Night Shooting or Powerful Flight Plan Shooting, which allow you to create

professional videos with just one touch.

Level 5 wind resistance

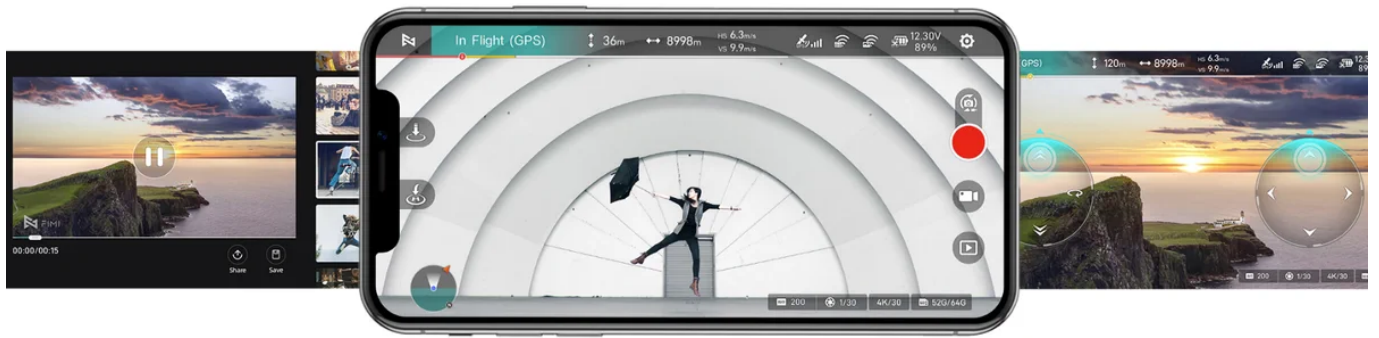

The **FIMI X8 Mini V2 is rugged and reliable** in a variety of weather conditions. Its motors are small in size and highly efficient, providing a better thrust-to-weight ratio and faster response. **The drone can fly in winds of up to 10 m/s (level 5)**, offering smooth and stable flight.

FIMI Navi Mini mobile app

The **FIMI X8 Mini V2 is compatible with the FIMI Navi Mini mobile app**, which allows you to easily and intuitively control the drone with your smartphone or tablet. The FIMI Navi Mini app provides safety and convenience during flight, and allows you to create professional aerial videos. With a completely redesigned user interface, the app is more intuitive to use than ever before. It offers a plug-and-play feature that connects the remote control to a mobile device via an OTG cable. **The app offers features such as:**

real-time video transmission from up to 9 km away adjustment of flight and camera parameters selection of tracking and filming modes saving and previewing photos and videos one-touch editing and sharing of footage route planning using GPS, GLONASS, BeiDou and Galileo

Handy remote control

The handy remote control is lightweight and easy to carry. Improved receiver allows you to enjoy more stable video transmission.
