Full product description

A clean, healthy environment without compromise

UWANT Mite Neutralizing Cleaning Solution is for those who want to **maintain pristine cleanliness, eliminate dust mites and take care of your health**, while avoiding contact with harsh chemicals. This product is **an innovative solution** that you can use every day, enjoy a clean and healthy environment without worrying about harmful chemicals. The **500ml** product is a practical choice that supports daily cleaning and helps protect your family from allergens.

Mite Control Cleaning Solution

Removes stains & eliminates mites

Effective against mites

UWANT dust mite neutralizer is a **solution formula** that not only cleans, but also **actively eliminates dust mites, improving the air quality** in your home. With it, **you reduce the risk of allergic reactions**, creating a healthy environment without worrying about the harmful effects of microbes. The product can be **used directly** on upholstery, mattresses or curtains, making it extremely versatile.

Deals even with tough dirt

UWANT cleaning and **stain removal** solution provides **effective removal of stains** from fabrics, carpets, furniture or curtains. It only takes a few moments to notice the effect - cleaning and stain removal requires no scrubbing or additional chemicals. Thanks to this, the **500ml** product lasts for many uses, **keeping clean without excessive use**.

Realistic support for allergy sufferers

Neutralization of dust mites is possible thanks to ingredients that **act directly on allergens** and their sources. Regular use allows you to **maintain a clean and healthy environment**, even with daily use of the space. It's also a way to **house and reduce the risk of allergic reactions** without the need for frequent laundering.

Safe composition and ecology

UWANT solution is **an environmentally friendly** choice that allows you to take care of cleanliness while taking care of the planet. It contains no aggressive substances, making it **safe for household members**, including children and pets. It can be used as **an additive to cleaning devices**, increasing their effectiveness without risking your health.
