The world of VOD applications

At the heart of the device is the **Android TV 11** operating system, which opens the door to digital entertainment without the need for external players. It allows you to download more than 7,000 programs from the **Google Play** store, including giants like Netflix, YouTube, Disney and HBO Max. **Widevine L1's DRM** certification makes sure you can enjoy series in high definition.

Android TV 11

Łatwiejszy sposób na korzystanie z ulubionych rozrywek. Obsługa Disney+, Hulu, HBO i wiele innych. Dostęp do sklepu Google Play.

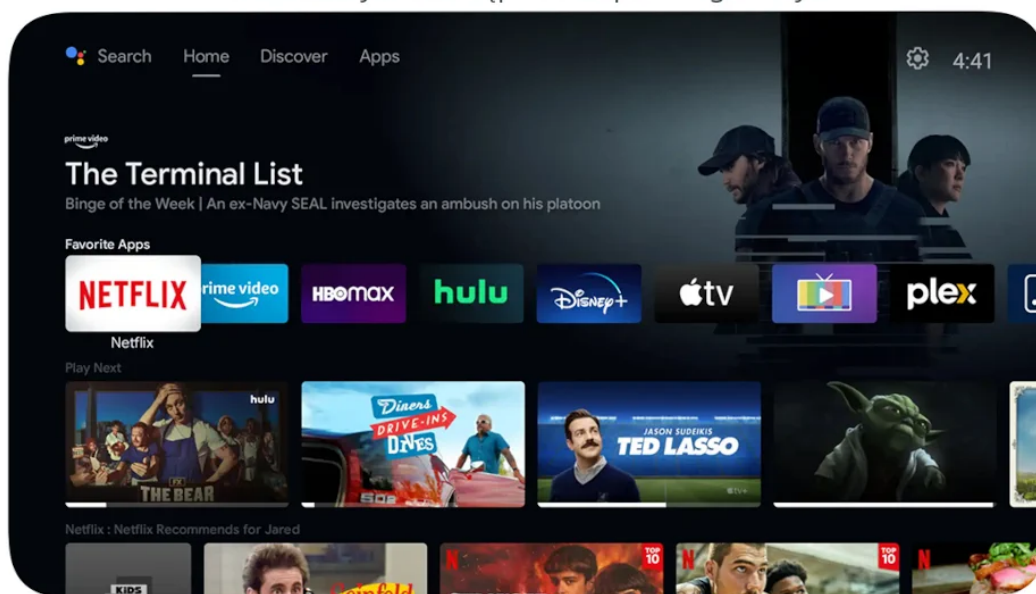

Image from almost any angle

The unique **360° Gimbal** design allows the lens to be freely maneuvered to its full extent. This allows the Cube 1 projector to project movies on a wall, a slanted attic, or even on the ceiling, which promotes comfortable viewing while lying down. This mechanism also serves the function of **protecting the camera (when folded)** during transport. This design **makes it easy to set up** the frame without the need for additional tripods or pads.

Elastyczność wyświetlania pod każdym kątem

Możliwość regulacji obrotu projektora o 360°.

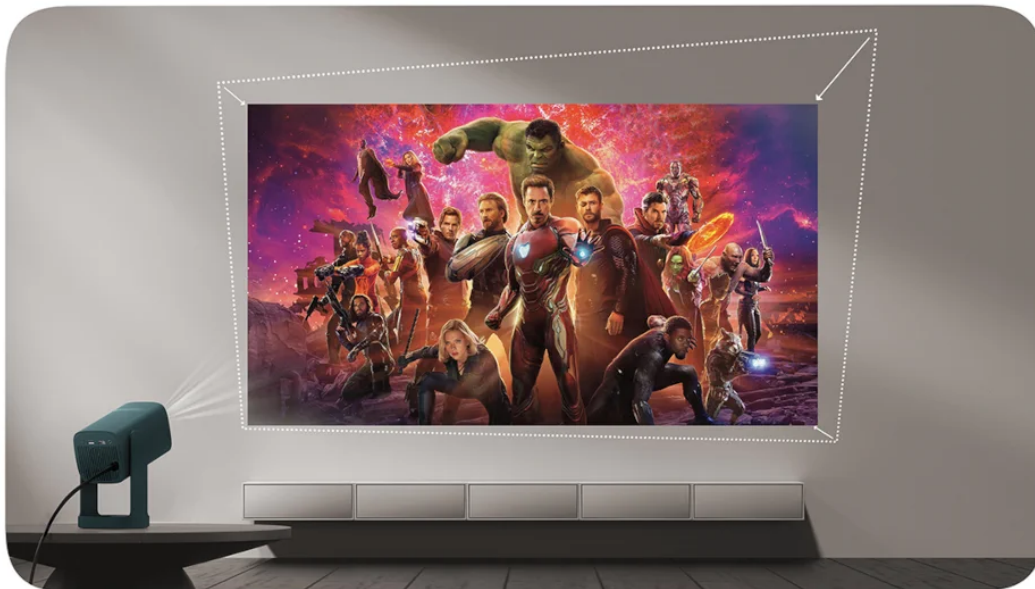

Clear HD projection

The LCD matrix is responsible for the visual quality, generating a brightness of **350 ANSI Lumens** and a native 720P resolution. The **Electric Focus** function helps instantly focus a scene with the remote control, eliminating manual ring turning. In addition, four-point **keystone correction** and automatic vertical calibration contribute to a rectangular image, even when the projector stands on its side. You can get a screen diagonal **from 40 to even 110 inches**.

Czteropunktowa korekcja zniekształceń trapezowych

Korekcja trapezowa w czterech punktach ułatwia projekcję boczną.

Sound full of detail

The visual experience is complemented by a built-in **8W** speaker, which eliminates the need to take additional audio equipment with you. It offers **rich and immersive** sound, enough to fill a small to medium-sized room. Quiet fan operation, generating noise of less than **28dB**, takes care of a comfortable screening without annoying background noise, allowing you to focus on the dialogues and music.

Wyraźny Bogaty Imersyjny

Wbudowane głośniki o wysokiej jakości i mocy 8 W zapewniają wrażenia dźwiękowe niczym w kinie.

HIGH-QUALITY

8W

Barrier-free connectivity

A **Dual Band Wi-Fi** module (supporting 2.4 and 5GHz bands) ensures a stable network connection, which is crucial for smooth, high-quality video streaming. **Bluetooth 5.0** technology allows the device to pair wirelessly with headphones or an external sound system. Physical HDMI, USB and AUX ports allow you to connect a game console, laptop or memory stick, making the projector a universal media hub.

Style and mobility

Weighing just **0.9 kg**, the projector fits in one hand, making it an extremely handy device. Its compact size makes it easy to pack in your backpack. Available in stylish colors such as **Alpine White**, **Sky Blue**, **Canyon Orange** and **Dark Green**, you can match the equipment to the character of your interior. This is a device that **combines aesthetics** with functionality, being ready to work in any conditions.

The Wanbo Cube 1 projector is an excellent option for:

- Movie lovers who want to watch movies on the big screen in small apartments.
- Travelers and frequent movers who value lightweight luggage.
- Gamers looking for a mobile screen to connect consoles.
- Parents who want to safely display their children's stories on the ceiling or wall.
