Full product description

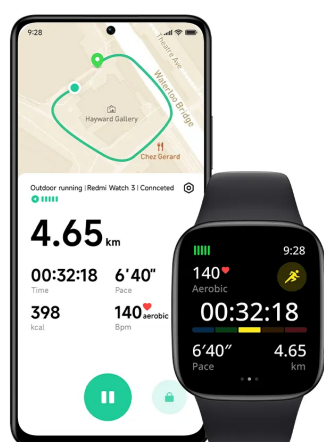

Xiaomi Redmi Watch 3 - ideal for those looking for an elegant yet functional smartwatch

This black watch combines a modern design with advanced health and fitness features to help you better manage your health and activity. With its AMOLED display, water resistance and long battery life, the Redmi Watch 3 will be a reliable daily companion.

Advanced activity monitoring

The Xiaomi Redmi Watch 3 allows you to accurately track your activity with **built-in GPS** and support for several positioning systems, such as Beidou, GLONASS, Galileo and QZSS. You can run, walk or bike, and the watch will accurately record your route, pace and calories burned. This gives you full control over your workouts, without the need to take your phone with you

Monitoring of blood oxygen levels (SpO2)

The Redmi Watch 3 is equipped with a **blood oxygen level (SpO2) sensor** that allows you to monitor this important health parameter in real time. Regular SpO2 monitoring can help you better understand your overall health and well-being, especially during intense workouts or stressful situations.

Personalization and convenience of use

Redmi Watch 3 offers a wide range of watch faces and the ability to customize the interface to suit your needs and style. With **a variety of personalization options**, you can easily change the look of the watch depending on the occasion or your mood. In addition, the watch is lightweight and comfortable, making it fun and comfortable to wear throughout the day, whether at work or during a workout.

Modern and easy to read AMOLED display

The Xiaomi Redmi Watch 3 is equipped with a **1.75-inch AMOLED display**, which provides crisp colors and high brightness of up to 600 nits.

This makes all the information on the watch easily visible, even in bright sunlight. The large and easy-to-read screen makes using the watch comfortable and intuitive.
