Information:

Mould King 13186 is an impressive collectible pirate sailing ship model with over 5260 pieces, created for enthusiasts of advanced builds. Once assembled, it reaches 120 cm in length and 71 cm in height, making it a striking interior decoration. The set stands out with 11 sails, a richly decorated stern, detailed decks and realistic interiors, including the captain's cabin. Retractable, simulated cannons add authenticity, and durable ABS bricks ensure the model's sturdiness. It is a demanding, rewarding project and an eye-catching display piece for adult collectors.

Full product description

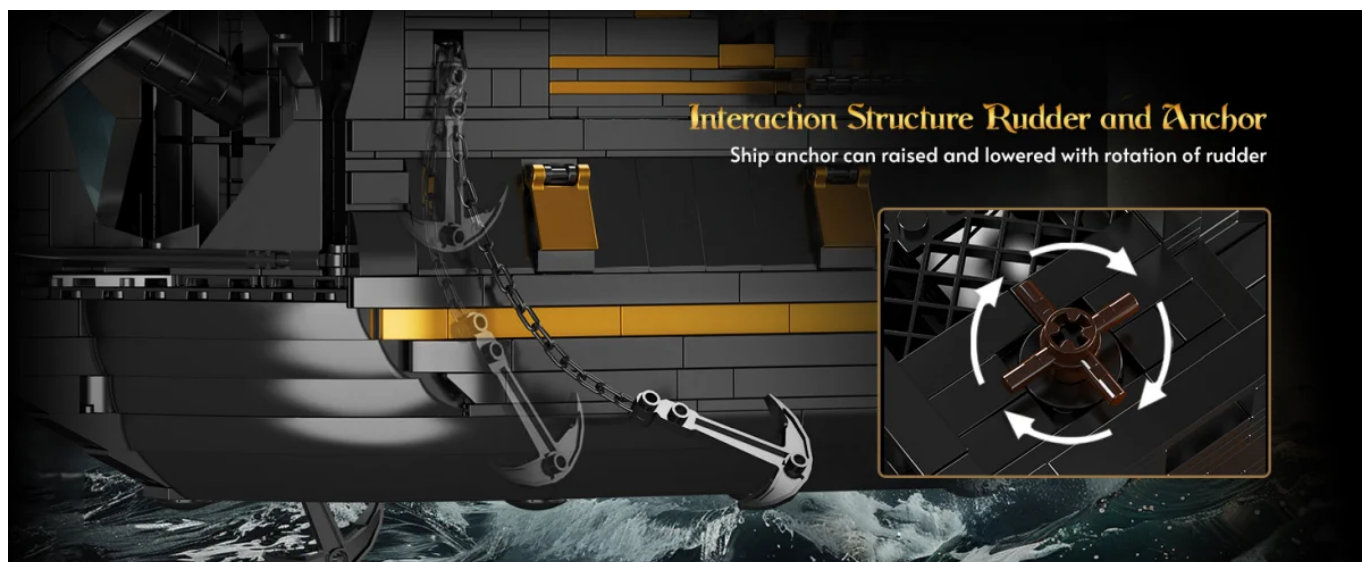

Epic Collectable Sailing Ship Model

The **Mould King 13186** build is a powerful engineering challenge that impresses with its scale. Consisting of over **5260 pieces**, this pirate ship model is one of the largest sets of its kind on the market. Its monumental silhouette, measuring **120 cm** in length, means that every moment spent building it translates into a spectacular visual effect in a home collection.

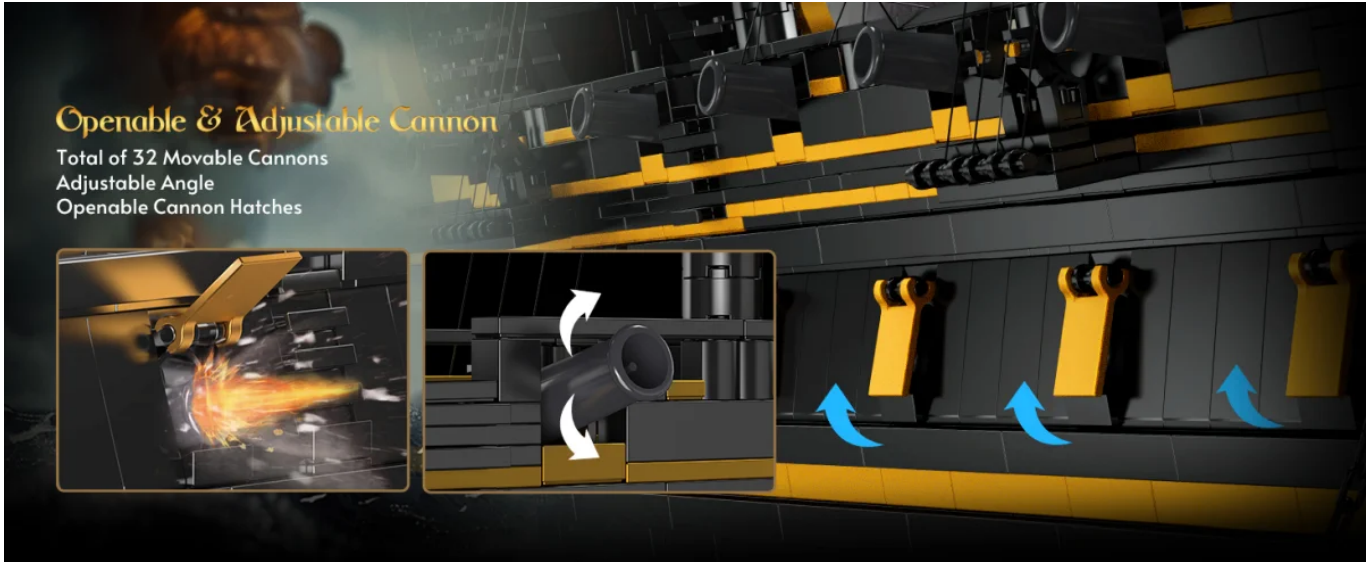

Key features of MOULD KING 13186

- **Impressive scale:** the model, measuring 120 cm in length and 71 cm in height, dominates any room.
- **Rich detail:** the set offers 11 sails, a decorated stern and numerous decks full of detail.
- **Moving elements:** the hull conceals retractable, simulated cannons that increase the realism of the build.
- **High quality:** the blocks made from durable ABS plastic ensure the construction's longevity.

Realism and construction details

The model offers exceptionally **detailed interiors**, including a richly decorated captain's cabin and stern balconies. The use of numerous masts and rigging helps recreate the atmosphere of maritime legends. Building this set allows you to explore the secrets of **traditional shipbuilding** in block form, offering the satisfaction of assembling advanced mechanisms and external decorations.

Advanced model display

This black sailing ship is not just a toy, but above all a **display piece** for adult fans. The sturdy construction and huge number of details make the model look impressive in an office or living room. The clear **paper instruction manual** helps you move smoothly through the assembly process, turning many hours of building into a relaxing experience for the constructor.
