Price: **49.00 zł** gross / 39.84 zł net

Manufacturer: MOULD KING

Referention number: DNXGKIJHRMLPM

Information:

Mould King 24020 is a compact tracked bulldozer with 244 pieces, ideal for fans of technical models and engineering in miniature scale. It combines a classic yellow colour scheme with black and blue details, faithfully capturing the look of a heavy construction machine. The model features a movable, manually controlled blade and a tracked undercarriage, which increases the realism and interactivity of play. The durable ABS elements are compatible with popular brick systems, and the clear instructions make quick and hassle-free assembly easy. It is a solid, attractive set for play and collecting.

Full product description

Compact construction machine

Model **Mould King 24020** is a treat for engineering enthusiasts who appreciate details on a micro scale. This **tracked bulldozer** consists of 244 pieces, making the building process quick and satisfying. The design reflects the characteristic silhouette of heavy machinery, combining a classic yellow colour scheme with technical accents in black and blue.

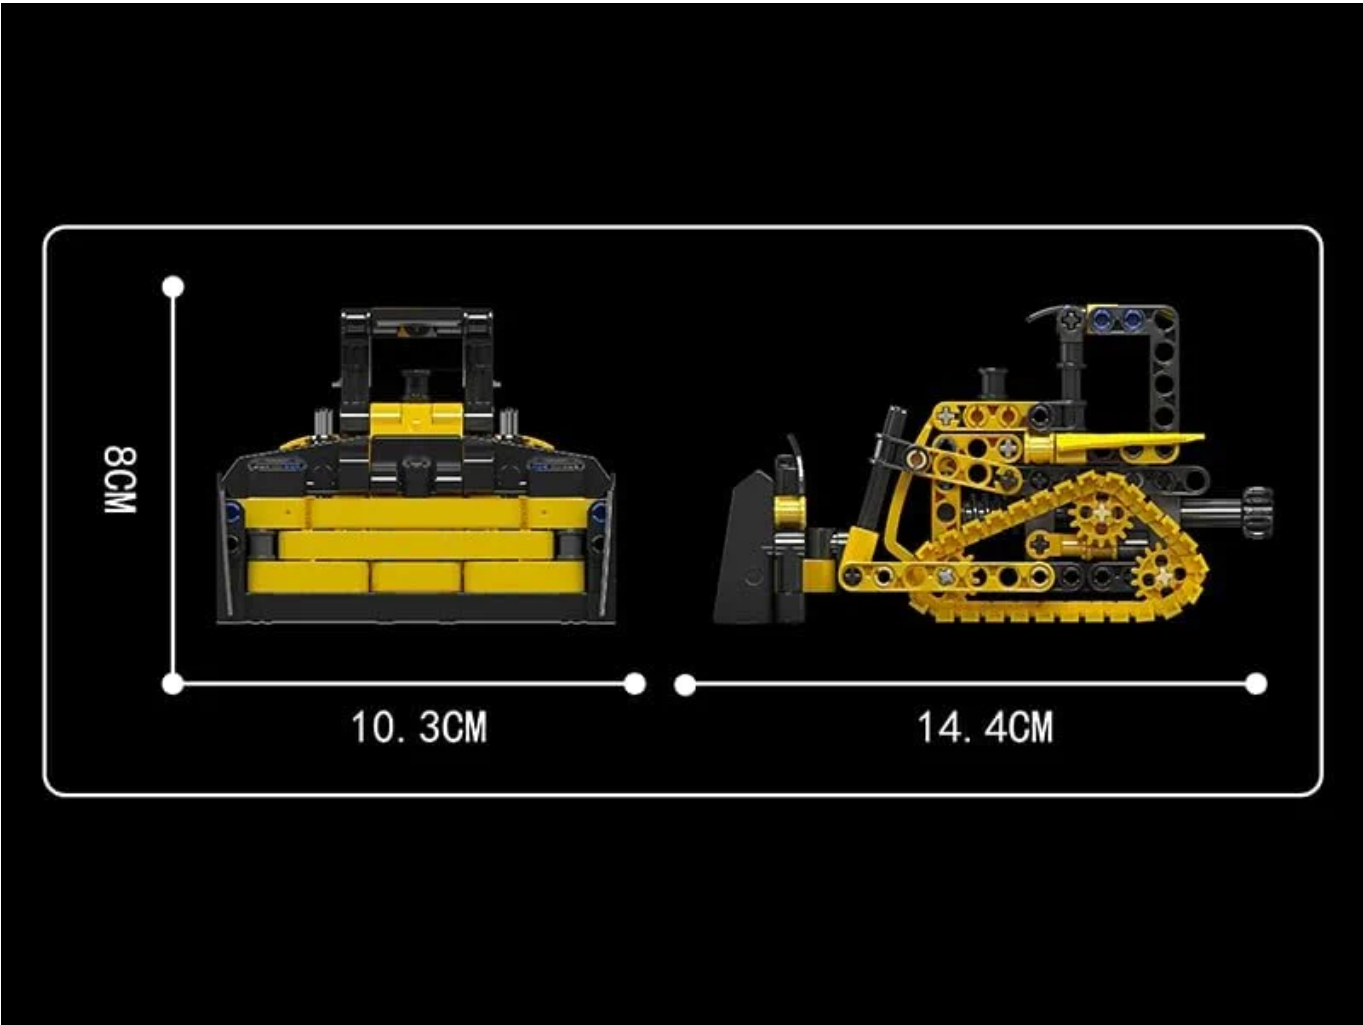

Key features of Mould King 24020

- **244 pieces** precisely made from ABS plastic.
- **Movable blade** manually controlled for realistic play.
- **Tracked undercarriage** allowing the model to move.
- **Full compatibility** with popular brick systems.
- **Intuitive instructions** making step-by-step assembly easy and accurate.

Realism and technical value

The **Mould King 24020** set helps to understand the basics of construction machinery mechanics. The use of a **movable bucket** and tracks means the model is not just a static decoration, but an interactive project. Solid construction and **high-quality materials** contribute to the model's durability, making it an attractive addition to any technical brick collection on the shelf.

Specification

Parameter	Details
Number of pieces	244 pcs.
