Information:

Mould King Green Hound is a remote-controlled off-road buggy made of 2016 pieces, designed for fans of mechanical constructions and off-road driving. The 1:8 scale model stands out with large wheels, a powerful high-torque motor, independent suspension and long shock absorbers, thanks to which it handles sand, mud and steep inclines with ease. It can be controlled by remote control or via an app on Android and iOS. Made from durable ABS and compatible with other popular building blocks, it provides long-lasting and exciting fun.

Full product description

Mould King Green Hound - Your new machine for special tasks

The Mould King Green Hound set is an excellent option for fans of off-road vehicles and mechanical constructions. Containing 2016 pieces, it allows you to build a unique vehicle that performs brilliantly on any surface. Thanks to remote control and a solid build, the set offers many hours of exciting fun.

Excellent Off-Road Performance

Green Hound is a vehicle designed with extreme off-road conditions in mind. Its large 10 cm diameter wheels and high-torque motor allow it to smoothly tackle difficult terrain such as sand, mud or steep inclines. Thanks to independent wheel suspension and long shock absorbers, the vehicle provides stability and comfort on any terrain.

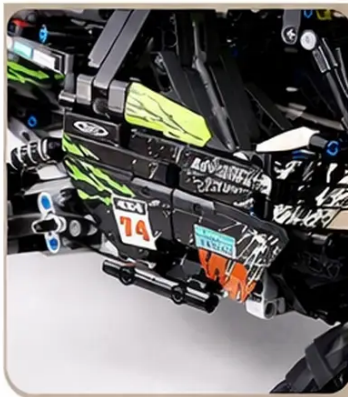

Remote Control and Fun

The set is fully remote-controlled, providing complete control over the vehicle. It can be driven using a remote control or a smartphone app, available for both Android and iOS. This is a great opportunity for outdoor fun, with the chance to fully use the vehicle's potential in difficult terrain.

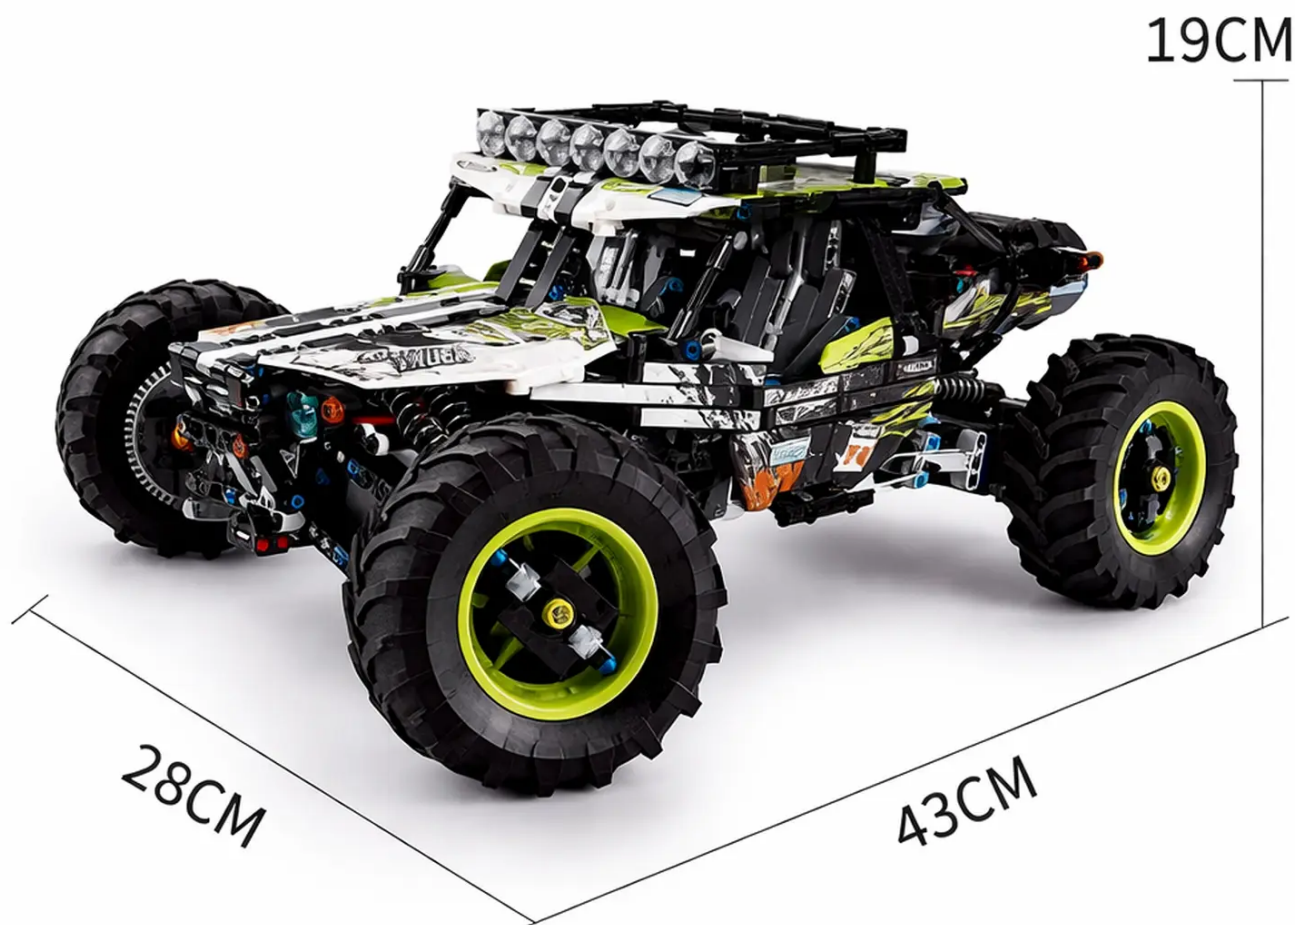

High Build Quality

Mould King bricks are characterised by high build quality. The use of durable ABS plastic makes the set resistant to damage, ensuring long-lasting use. In addition, the set is compatible with other popular brick brands, allowing for the creation of more advanced constructions.

Set Specifications

The Mould King Green Hound Buggy set contains 2016 pieces, and the finished model is at a 1:8 scale. It has a high-torque motor and independent wheel suspension, allowing it to easily handle difficult surfaces. Remote control and a rechargeable battery guarantee long-lasting fun, and the detailed assembly instructions make building the vehicle easier.
