Manufacturer: MOULD KING

Referention number: DNXGKIISMRMNGM

Information:

Mould King Technic RC in 1:8 scale is an impressive set of 4800 pieces that faithfully recreates a luxury supercar thanks to realistic details such as a glossy black body, plated exhausts and refined wheels. The model offers remote control for driving and steering, as well as functions such as opening the doors, adjusting the chassis and the rear wing, providing interactive play. Made from durable, safe ABS, it is solid, resistant and easy to assemble thanks to the clear instructions. It is a great gift for fans of motoring and model building, compatible with bricks from other brands.

Full product description

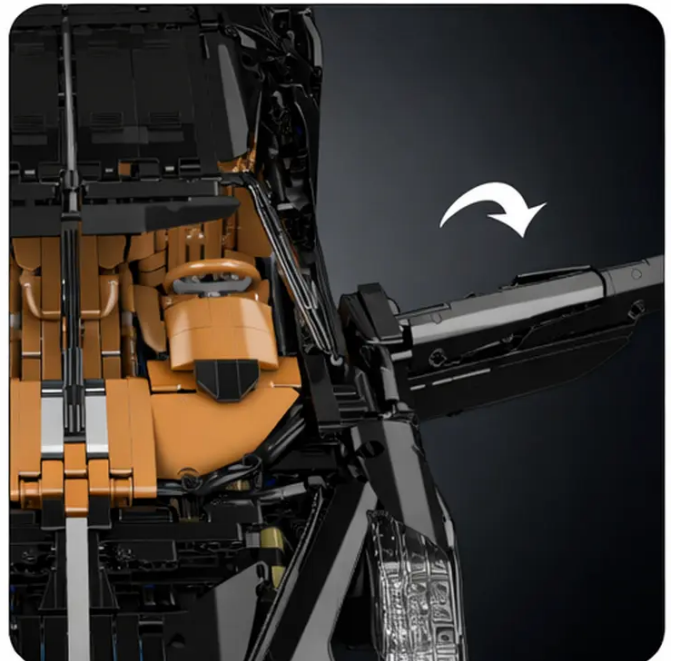

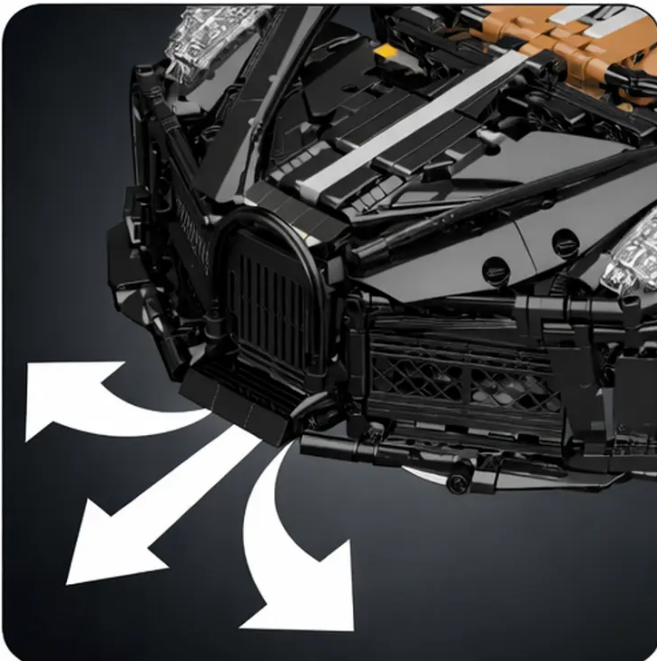

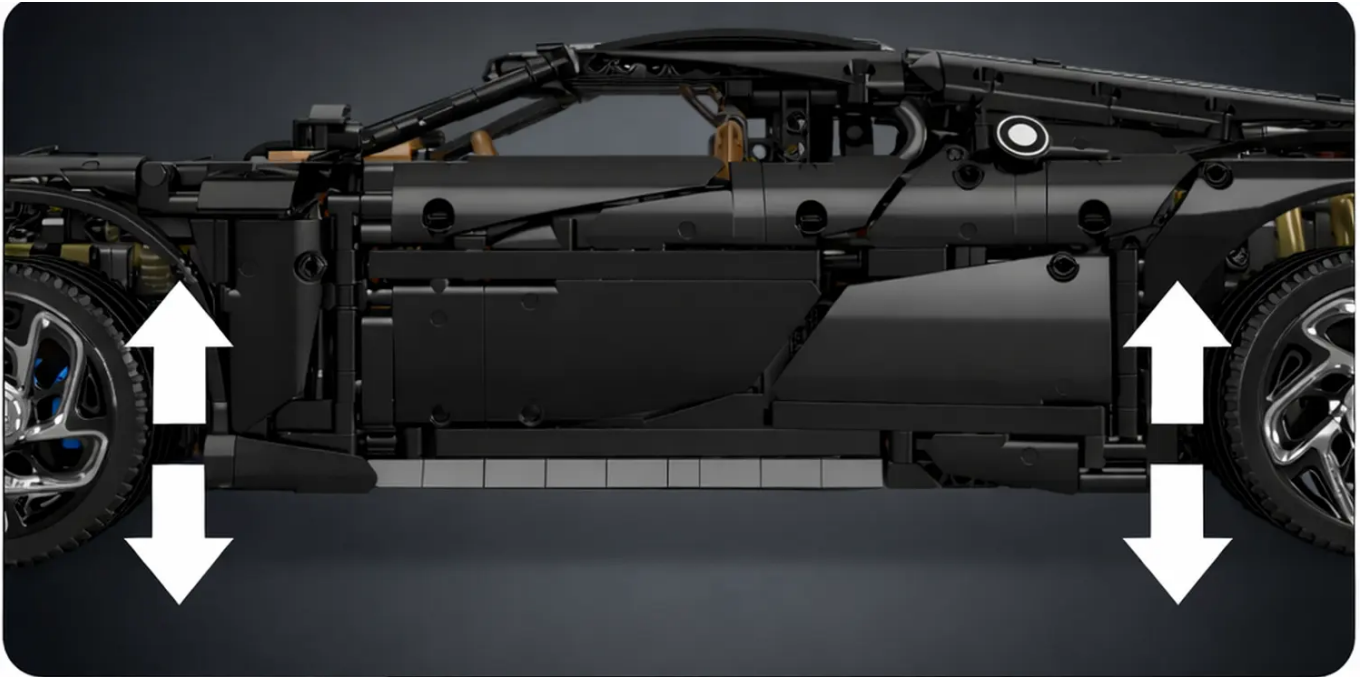

Realistic Design

The Mould King Technic RC set in 1:8 scale consists of 4,800 pieces that accurately replicate the appearance of a luxury supercar. Thanks to detailed features such as a glossy black body, galvanised exhaust pipes and precisely designed rims, the model perfectly captures the elegance and sporty character of the real vehicle. Every element has been carefully designed to attract attention and provide unrivalled authenticity.

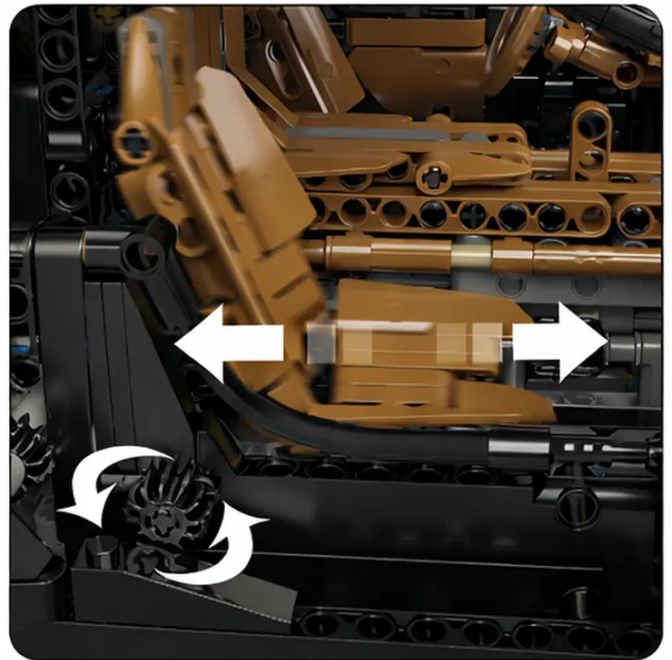

Remote Control

The model offers full control thanks to an advanced remote, which allows driving forwards, backwards and precise steering. What is more, remote control enables the doors to be opened, the chassis to be adjusted and the rear wing to be set, making the fun even more interactive. These functions allow the vehicle to be customised to your own preferences, making it exceptionally realistic.

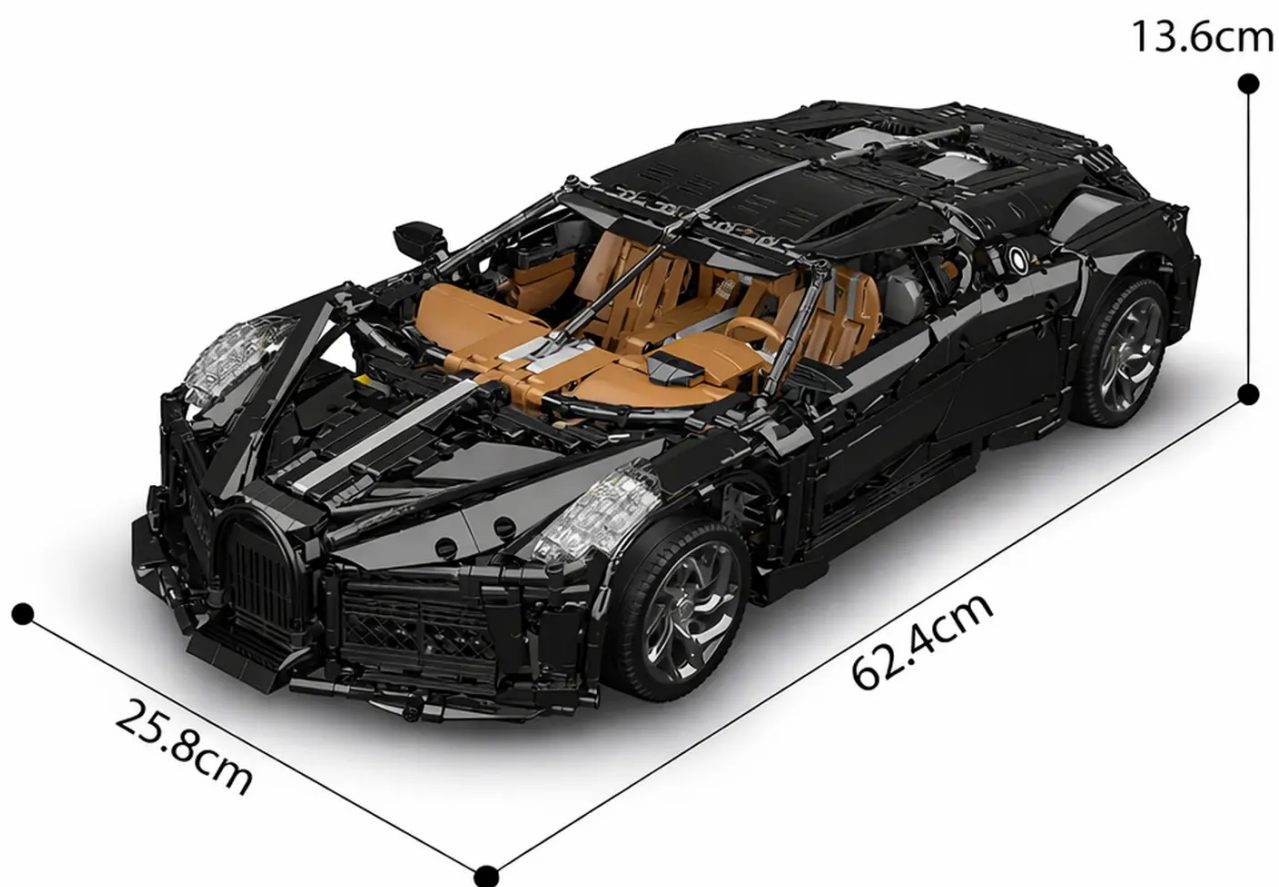

High Quality and Easy Assembly

The bricks are made of durable, non-toxic ABS plastic, which ensures not only the model's stability and durability, but also safe use. The construction is solid, and the model itself is highly resistant to mechanical damage. The assembly instructions are clear and guide you step by step through the building process, making the model easy and enjoyable to assemble, even for beginner builders.

Perfect Gift

This set is an excellent gift choice for any motoring enthusiast and model-making fan. The model is compatible with bricks from other brands, allowing for further expansion and customisation. In addition, the realistic details and remote control make it great fun for both younger and older users. This set combines a passion for motoring with the pleasure of building, making it the ideal solution for any fan of technology and model making.
