Manufacturer: MOULD KING

Referention number: DNXGKIISDRMMIL

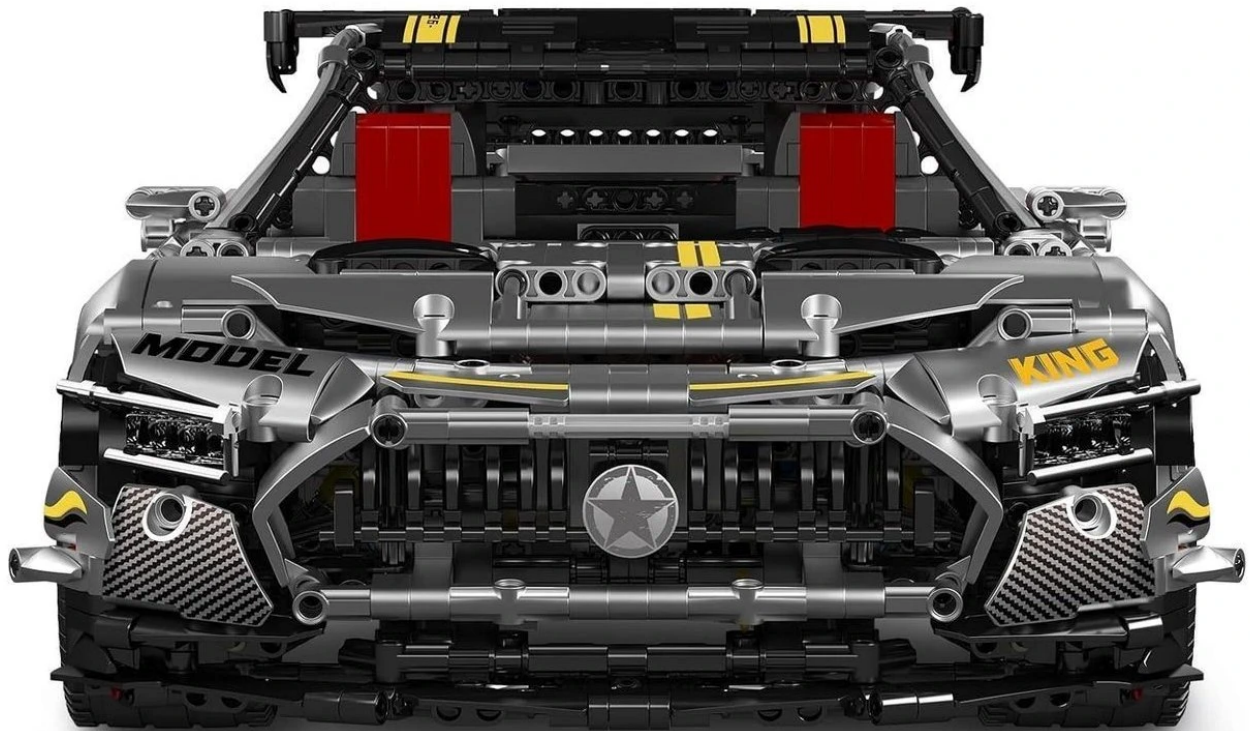

Information:

Mould King 13126 is an impressive 1:8 scale GT car model, consisting of 2872 pieces and measuring over 50 cm in length. The set stands out with its sporty appearance, large spoiler, and refined interior details, such as red seats and a dashboard. The model features a transparent V8 engine with moving pistons, manual steering, a multi-speed gearbox, and a rear differential. Opening doors and bonnet enhance the realism, and the construction is prepared for expansion with remote control modules or the 13080D Dynamic Pack drive kit.

Full product description

Racing engineering at scale

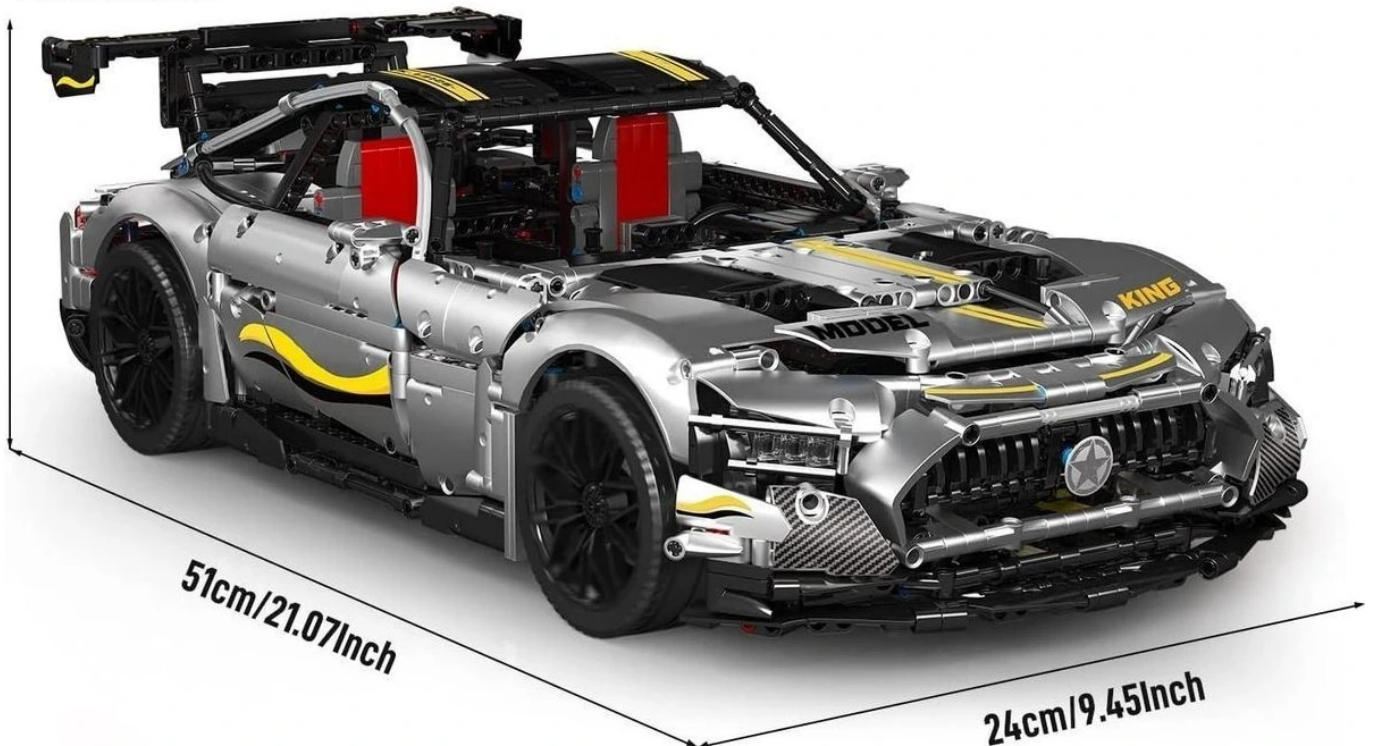

The **Mould King 13126** model is a powerful construction in **1:8 scale**, faithfully reproducing the aesthetics of modern GT-class cars. The set consists of **2,872 pieces**, which translates into a satisfying building process. The silhouette, over half a metre long, catches the eye with its sporty livery and extensive aerodynamic package with a **massive spoiler**.

Key features of Quicksilver

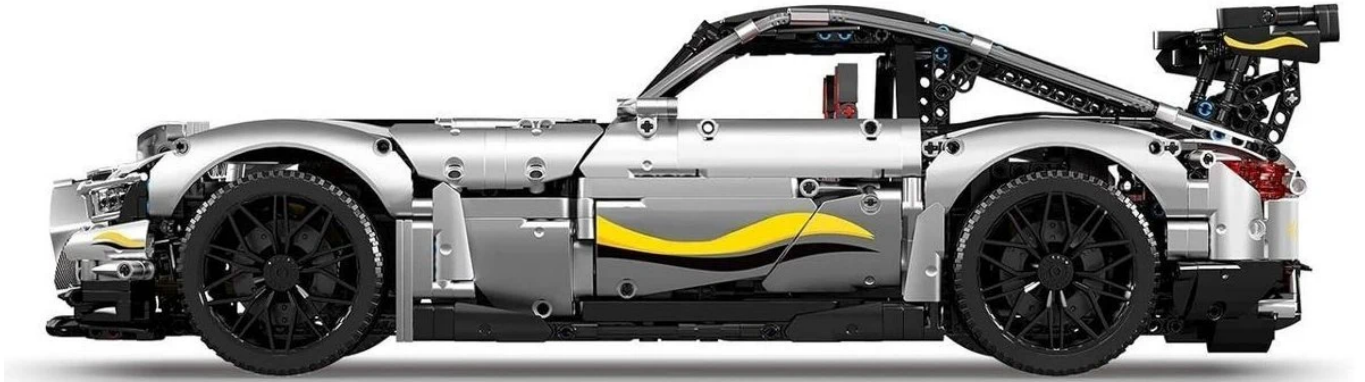

- **Expansion option:** The construction is adapted for mounting remote control modules.
- **V8 engine:** Transparent casing with moving pistons driven by the wheels.
- **1:8 scale:** Impressive model dimensions exceeding 50 cm in length.
- **Steering system:** Manual wheel-steering mechanism integrated with the interior.
- **Multi-speed gearbox:** Advanced drivetrain mechanism with differential.

14cm/5.51Inch

Mechanics and chassis details

The model offers insight into complex mechanical systems. **Full drivetrain** together with the rear differential helps to understand how real racing vehicles work. The base version focuses on the engineering and visual aspects, offering **red sports seats** and a detailed dashboard, which are visible when the doors are opened.

Possibility of motorising the set

The construction has many moving points, including an **opening bonnet** and doors. The set presented is a static version, which makes an excellent base for later modification. To enjoy driving, simply equip the car with the dedicated **13080D Dynamic Pack**.

Specification

Parameter	Details
Number of pieces	2,872 pieces
Model scale	1:8
Age	13+
RC compatibility	Yes (requires 13080D Dynamic Pack)
Assembled model dimensions	51 x 24 x 16 cm
