Price: **69.00 zł** gross / 56.10 zł net

Manufacturer: MOULD KING

Referention number: DNXGKIJJLRMMJI

Information:

Mould King 24058 is an impressive model of a racing jet aircraft for enthusiasts of aviation and technical builds. The set consists of 470 pieces and allows you to build a dynamic model over 30 cm long in a red-and-black colour scheme. Its aerodynamic silhouette подчеркивает the sporty character of the machine, while the moving elements increase realism and display appeal. The model features an opening cockpit with pilot cabin details, a moving propeller, and retractable landing gear, so it can be displayed in flight or parked. Stable, well-fitting bricks ensure a satisfying build and a durable final result.

Full product description

Jet Racing Aircraft

The **Mould King 24058** set is an offer for aviation enthusiasts, combining aesthetics with technical details. The model, measuring over **30 cm** in length, stands out with its dynamic silhouette in a contrasting red-and-black colour scheme. The construction of **470 pieces** allows you to learn the basics of aerodynamics during an engaging building process, offering satisfaction to every builder.

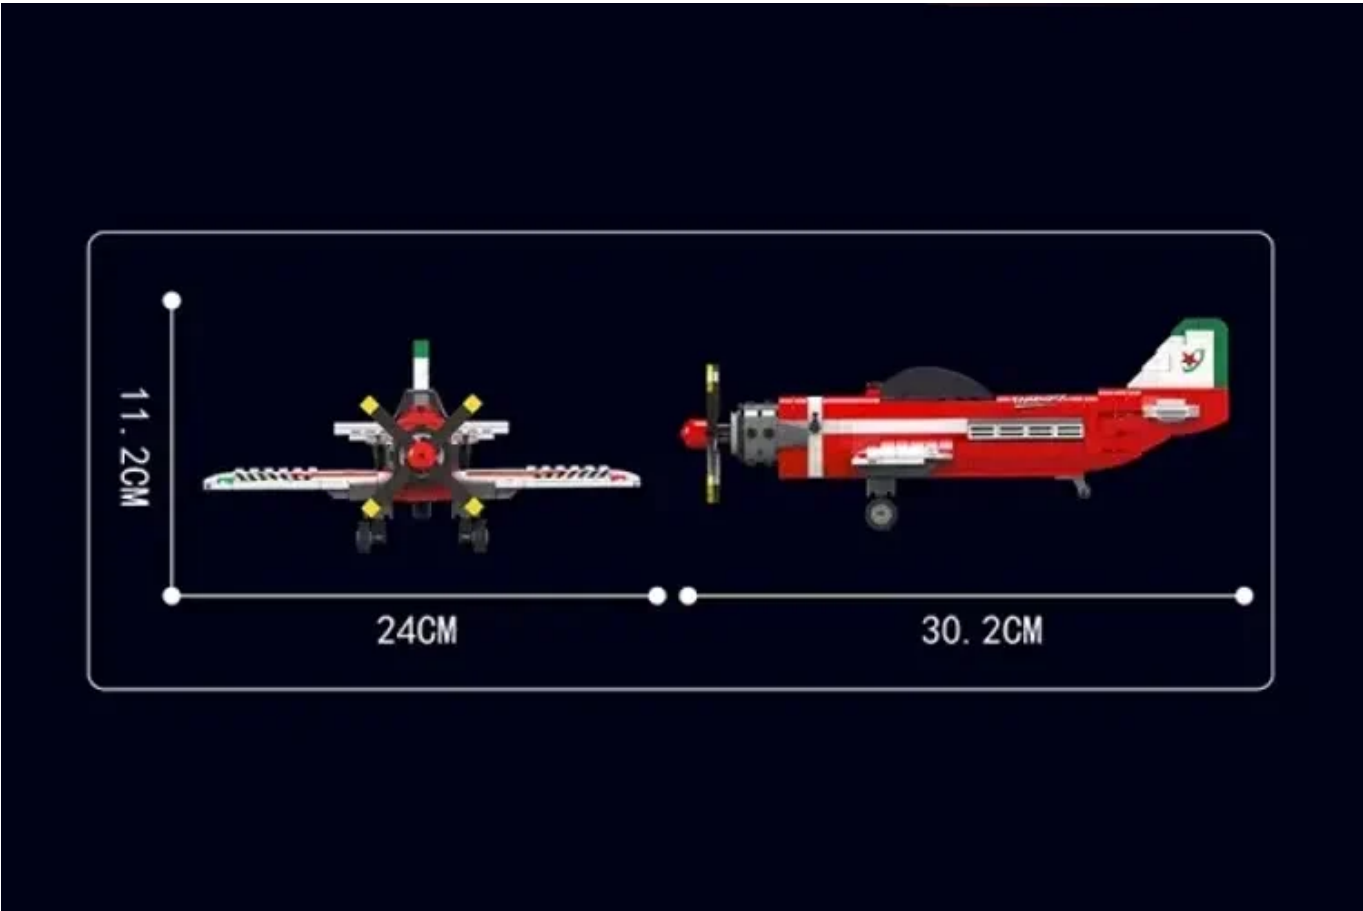

Key features of Mould King 24058

- **470 pieces** providing detailed reproduction of the fuselage.
- **Opening cockpit** with details inside the pilot's cabin.
- **Moving propeller** that increases the realism of the finished model.
- **Retractable landing gear** allowing display in flight or parked mode.
- **Aerodynamic shape** emphasising the machine's sporty character.

Functionality and details

The model has been equipped with **moving components** that enhance its display value. The use of **high-quality bricks** means that the individual parts are stable and fit together well. The presence of an **opening cockpit roof** and a retractable wheel mechanism helps with interaction with the model, making it an interesting addition to a collection for fans of advanced technical builds.
