Referention number: DNXGKIJJRMMII

Information:

Mould King 24066 is a 540-piece set for building a replica of an American racing biplane in classic red, white and blue colours. The model stands out with its retro appearance, realistic rigging, stable construction and a movable propeller. The detailed cockpit with a transparent canopy and replicated instruments adds realism, while the undercarriage and mechanical details increase the appeal of the build. The durable ABS bricks ensure a solid fit, and compatibility with other popular systems gives greater building freedom. It is an excellent choice for aviation fans, collectors and anyone who appreciates an eye-catching model for display on a shelf.

Full product description

Racing aeroplane model

The **Mould King 24066** set allows you to build a replica of an American racing biplane, made up of **540 pieces**. The model catches the eye with its classic colour scheme in red, white and blue, echoing historic aircraft taking part in aerial competitions. It is an option for those who appreciate **technical details** and retro aesthetics.

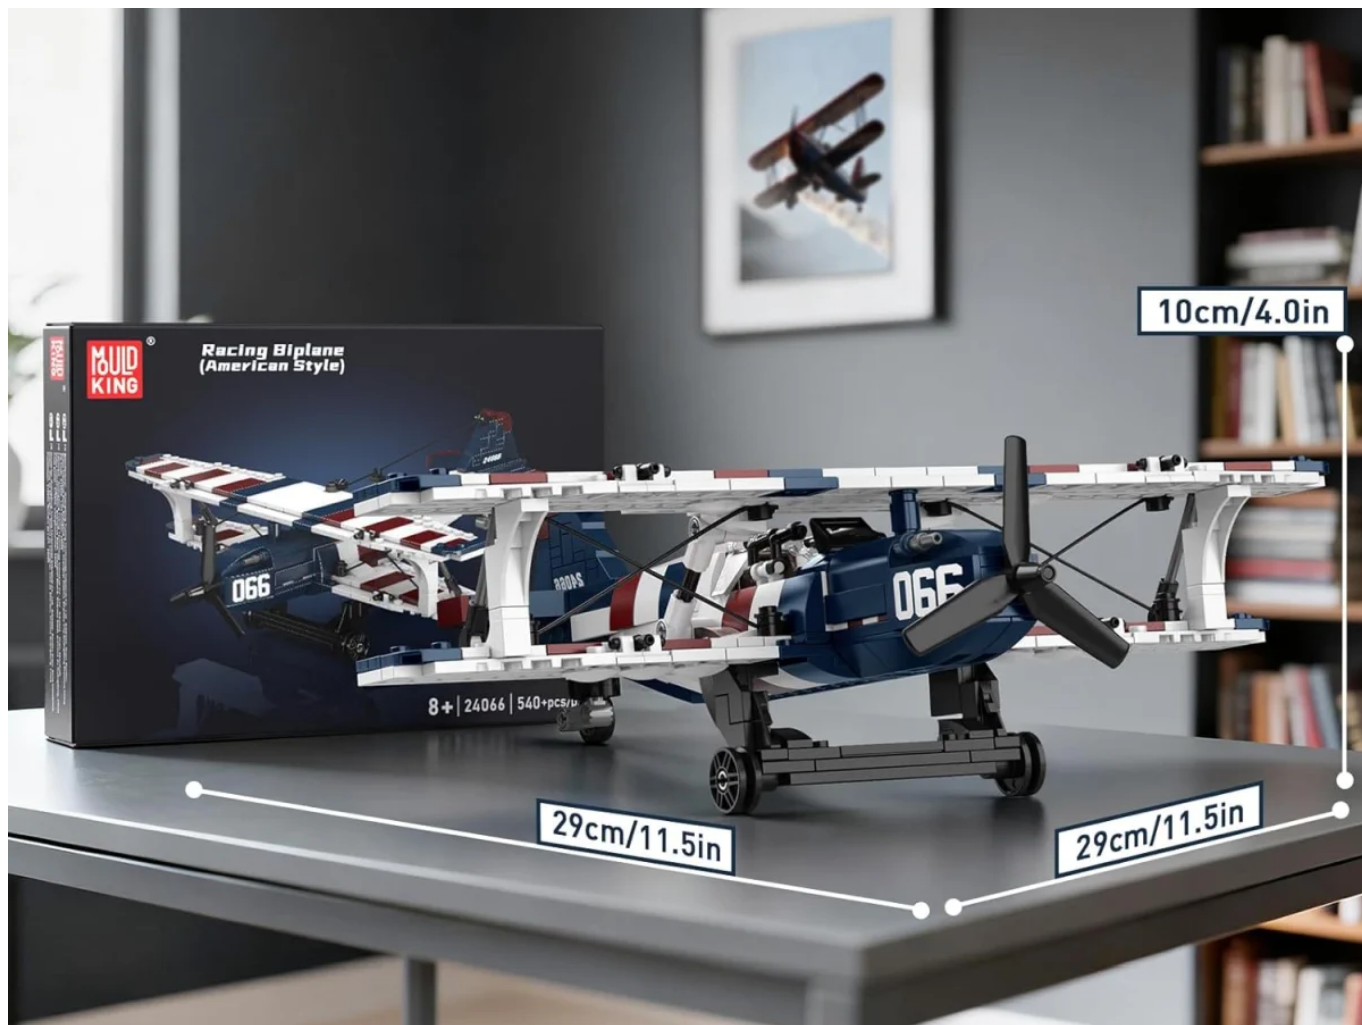

Key features of MK-24066

- **540 pieces** made from durable ABS plastic.
- **Moving propeller** mounted on the nose of the aircraft.
- **Detailed cockpit** with a transparent canopy and control panels.
- **Stable biplane structure** with realistic rigging.
- **Compatibility** with brick systems from other well-known manufacturers.

Realism and functionality

The construction offers many mechanical touches that every **AFOL** will appreciate. Moving elements, such as the **rotating propeller** and the reproduced undercarriage, add dynamism to the model. The pilot's cockpit interior has been designed with attention to realism, including control sticks and instruments, making the finished biplane look exceptional on a collector's shelf or in a home office.

Passion for aviation

Building this set helps develop manual skills and an understanding of the basics of **aeronautical engineering**. The use of high-quality ABS bricks means that the individual parts fit together snugly, which translates into a durable structure. This is a product that combines a construction challenge with the satisfaction of owning an aesthetic model of a **classic aeroplane**.

Specification

Parameter	Details
Number of pieces	540 pieces
Model dimensions	29.1 x 10 x 29.1 cm
Material	ABS plastic
User age	8+ / AFOL
Product code	24066
