Price: **109.99 zł** gross / 89.42 zł net

Manufacturer: MOULD KING

Referention number: DNXXGKIIQDRMMGP

Information:

Build a working, detailed model of the legendary V8 engine and discover how it works from the inside. The set of over 500 pieces offers realistic mechanics with moving pistons, a crankshaft, a radiator fan and a timing drive. Transparent cylinder heads allow you to observe the operation of the components, and the M-type motor sets the construction in motion. The 90-degree layout faithfully reproduces the classic architecture of the power unit. It is an attractive educational and collector's model for adult technology enthusiasts.

Full product description

Micro-scale engineering

Build your own working model of a legendary power unit. This set allows for **detailed analysis of how an internal combustion engine works**, offering a fascinating insight into the world of mechanical engineering. **Transparent cylinder heads** make every movement of the pistons visible, helping you understand the machine's operating cycle.

Key features of Mould King 100885

- **Motorised drive** – the M-type engine brings the whole structure to life.
- **Realistic mechanics** – moving pistons, crankshaft and radiator fan.
- **Transparent elements** – allow observation of the internal components in operation.
- **90-degree layout** – a faithful recreation of the classic V8 engine architecture.
- **Timing drive** – visible chain synchronising valve operation.

Education and engineering

The set consists of **over 500 elements**, creating a compact and aesthetically pleasing technical model. The use of a **classic cylinder bank angle** and details such as pulleys and a V-belt gives the construction educational value. It is a great choice for adult technology fans who appreciate **functional collector models** for the desk.

Specification

Parameter	Details
Number of elements	552 pieces
Model dimensions	19.3 cm x 12.8 cm x 12.9 cm
Power supply	6x AA batteries (not included)
Drive	M-Motor electric motor
Material	ABS plastic
