Full product description

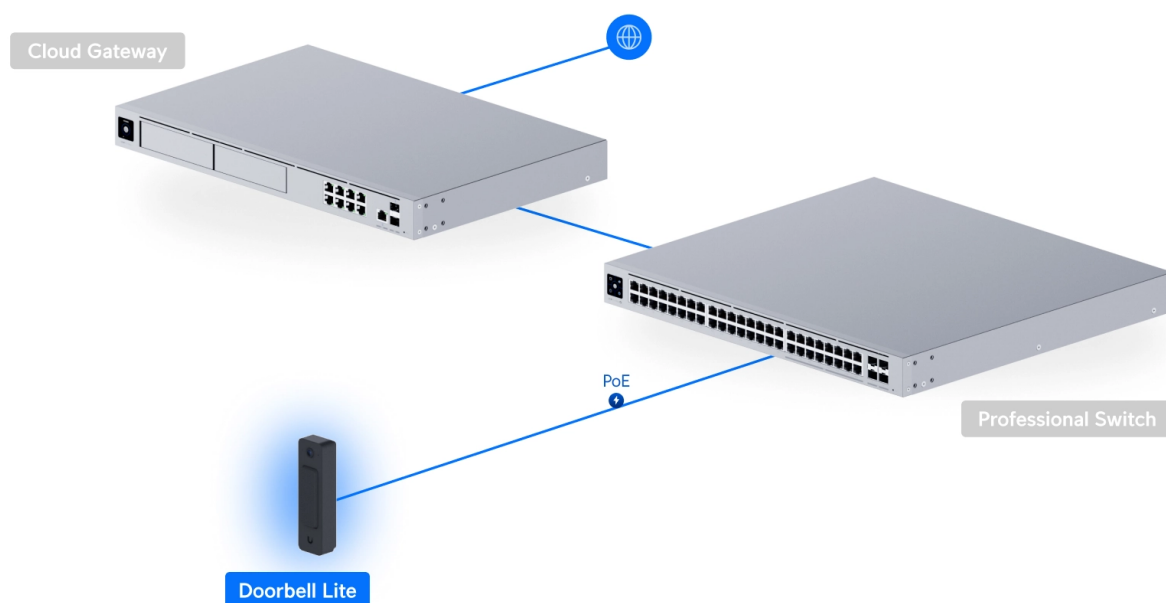

Ubiquiti Doorbell Lite: Intelligent Access and Security Control.

The Ubiquiti Doorbell Lite is a **state-of-the-art video** intercom that combines camera, doorbell and intercom functions to provide full control over access to your home or office. With its **high-quality video**, **two-way communication** and integration with UniFi Protect, it provides convenience and security at all times. Simple installation and **power supply via PoE** make it the **perfect solution** for modern security systems.

Wide Compatibility and Ease of Installation

The video intercom is powered by **PoE**, which means easy installation without the need for additional power cables. **Extensive compatibility with UniFi systems** makes the device perfectly **compatible** with other products from the brand, creating a **cohesive security system** throughout the home or office. With simple installation, users can quickly connect the device to their existing network.

Two Ways to Communicate

The video **intercom** offers a **two-way intercom** to talk to a visitor. With a built-in **speaker and microphone**, users can easily communicate with people at the door for convenience and security. In addition, the **doorbell function** makes it easy to identify visitors and control access

Remote Access and Monitoring

The Ubiquiti **Doorbell Lite** works with the **UniFi Protect** app to allow remote access to the camera view. Thus, users can monitor their doors from **anywhere** using their phone or computer. It's a convenient solution that allows full control over the security of the facility.

Wide Compatibility and Ease of Installation

The video intercom is powered by **PoE**, which means easy installation without the need for additional power cables. Extensive **compatibility with UniFi systems** makes the device perfectly **compatible** with other products from the brand, creating a **cohesive security system** throughout the home or office. With simple installation, users can quickly connect the device to their existing network.

High Resolution Image

The Ubiquiti Doorbell Lite offers a **5 MP camera** that provides high quality images. With this resolution, the image is clear, even in difficult lighting conditions. **IR Night Vision technology** allows you to monitor the entrance even after dark, providing **full protection around the clock**.
