Information:

The MOULD KING 13151 No. A.R F1 Racing model is the perfect choice for Formula 1 enthusiasts, comprising over 1226 pieces. It offers a realistic design and advanced technology that allows for full remote control via the MK Control app. Users have the ability to manoeuvre, accelerate, and steer, adding authenticity to the fun. The model stands out with its detailed representation of aerodynamics, wheels, and suspension, ensuring durability and robustness in its construction. The high quality of materials and precise fitting of components make building and using the model a true pleasure. This interactive toy combines a passion for motoring with modern technology, making it ideal for any racing fan.

Full product description

Create Your Dream Racing Car with Mould King

The MOULD KING 13151 No. A.R F1 Racing model is a unique offering for fans of Formula 1 and automotive design. Composed of over 1226 pieces, this intricately detailed racing car combines modern design, precise details, and advanced technology. With the MK Control app, users can control the vehicle, steer, accelerate, and manoeuvre like a real F1 driver.

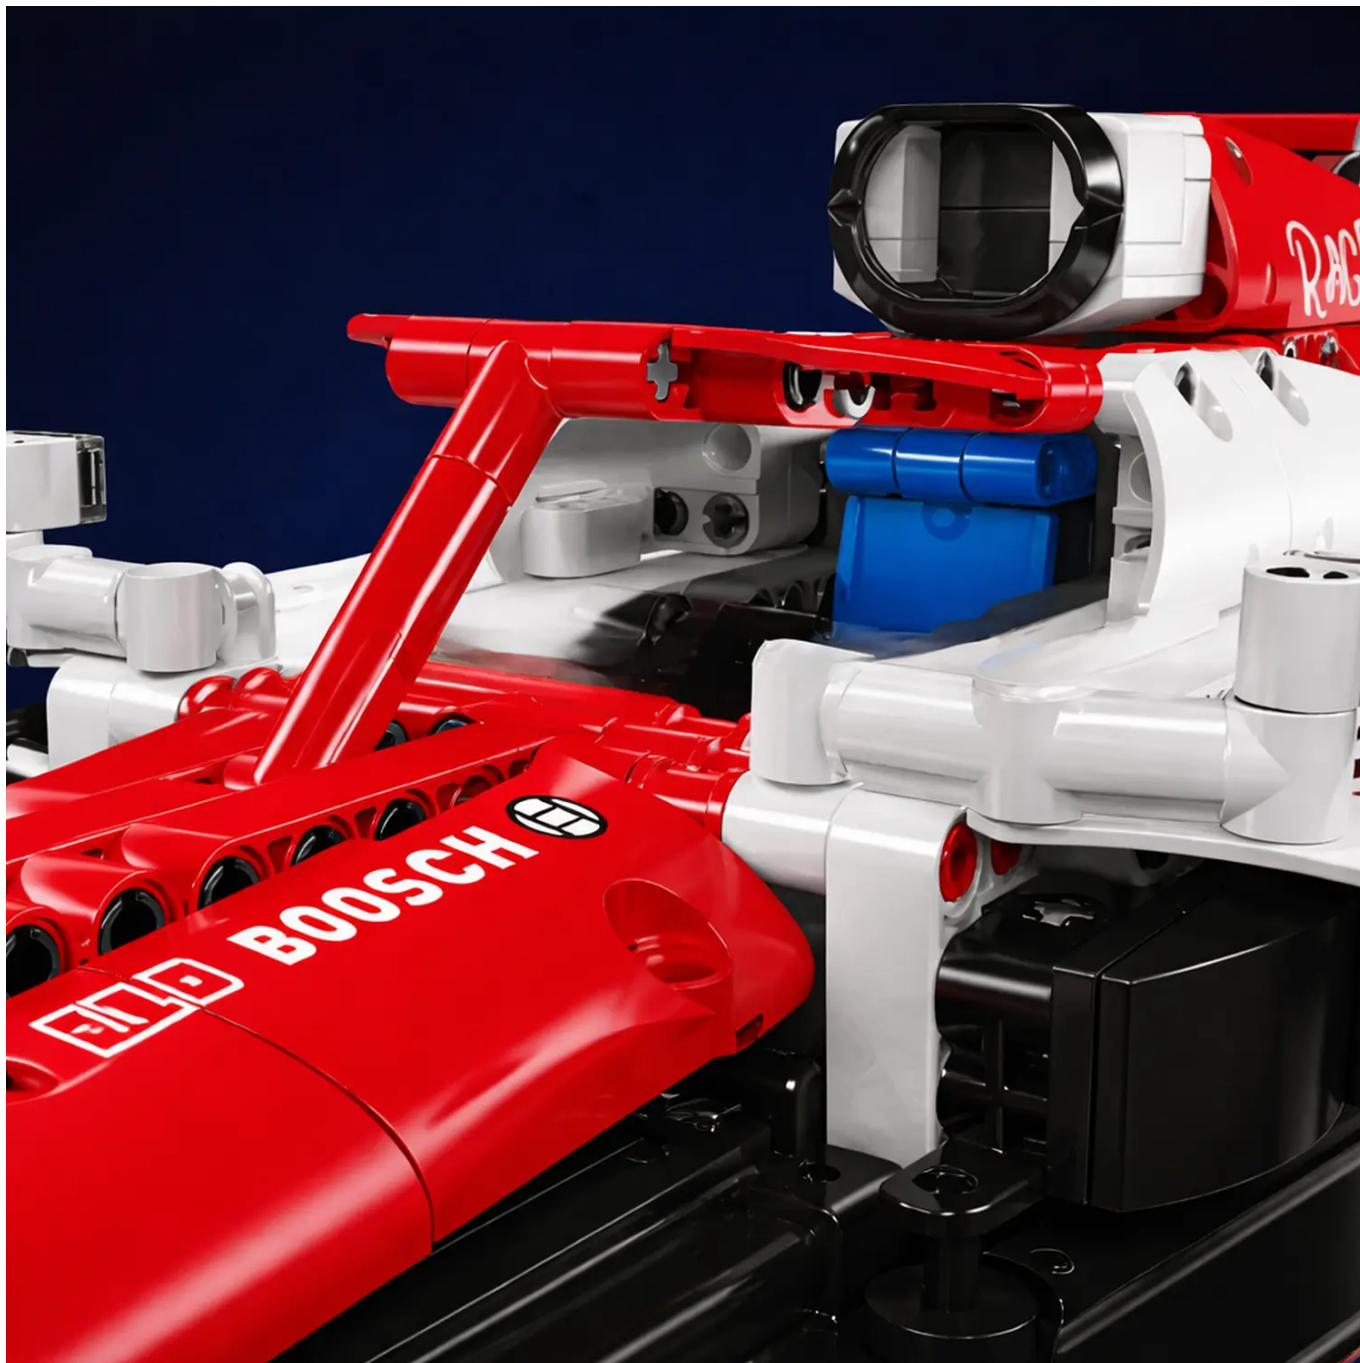

Advanced Technology and Realistic Details

The model stands out not only for its aesthetics but also for its functionality. With precisely replicated aerodynamics, wheels, and suspension, the model captures the spirit of a real F1 car. High-quality bricks ensure the durability and solidity of the construction.

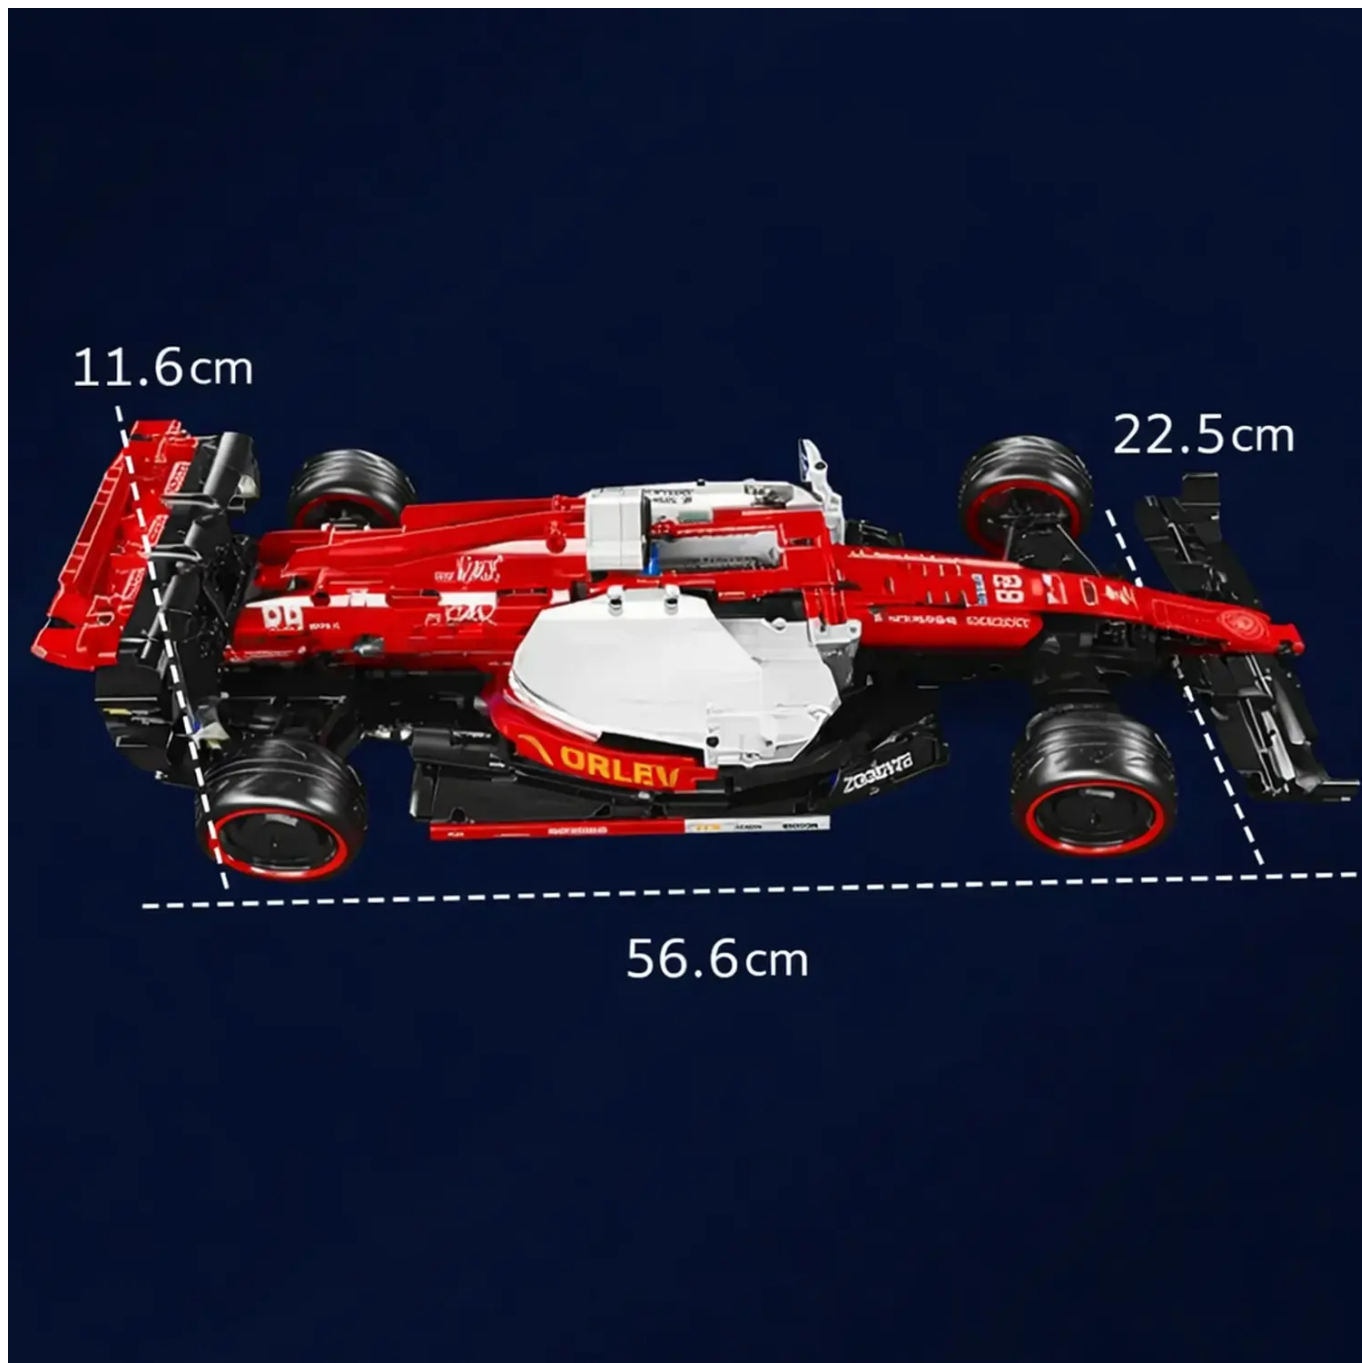

Full Remote Control

MOULD KING allows for full remote control of the vehicle via the MK Control app. Users can control the vehicle in real-time, manoeuvring, accelerating, and steering. Additionally, the model features a motor with rotating pistons, adding realism during play. Remote control also offers greater interactivity and enjoyment of use.

Complete Set for F1 Fans

The set includes 1226 pieces that, when assembled, create a detailed model of a Formula 1 racing car. The high quality of materials and precise fitting of parts ensure satisfaction from building and using it. Thanks to the MK Control system, the model becomes an interactive toy, perfect for all automotive and technology enthusiasts.
