Full product description

Kingsmith K12 electric treadmill

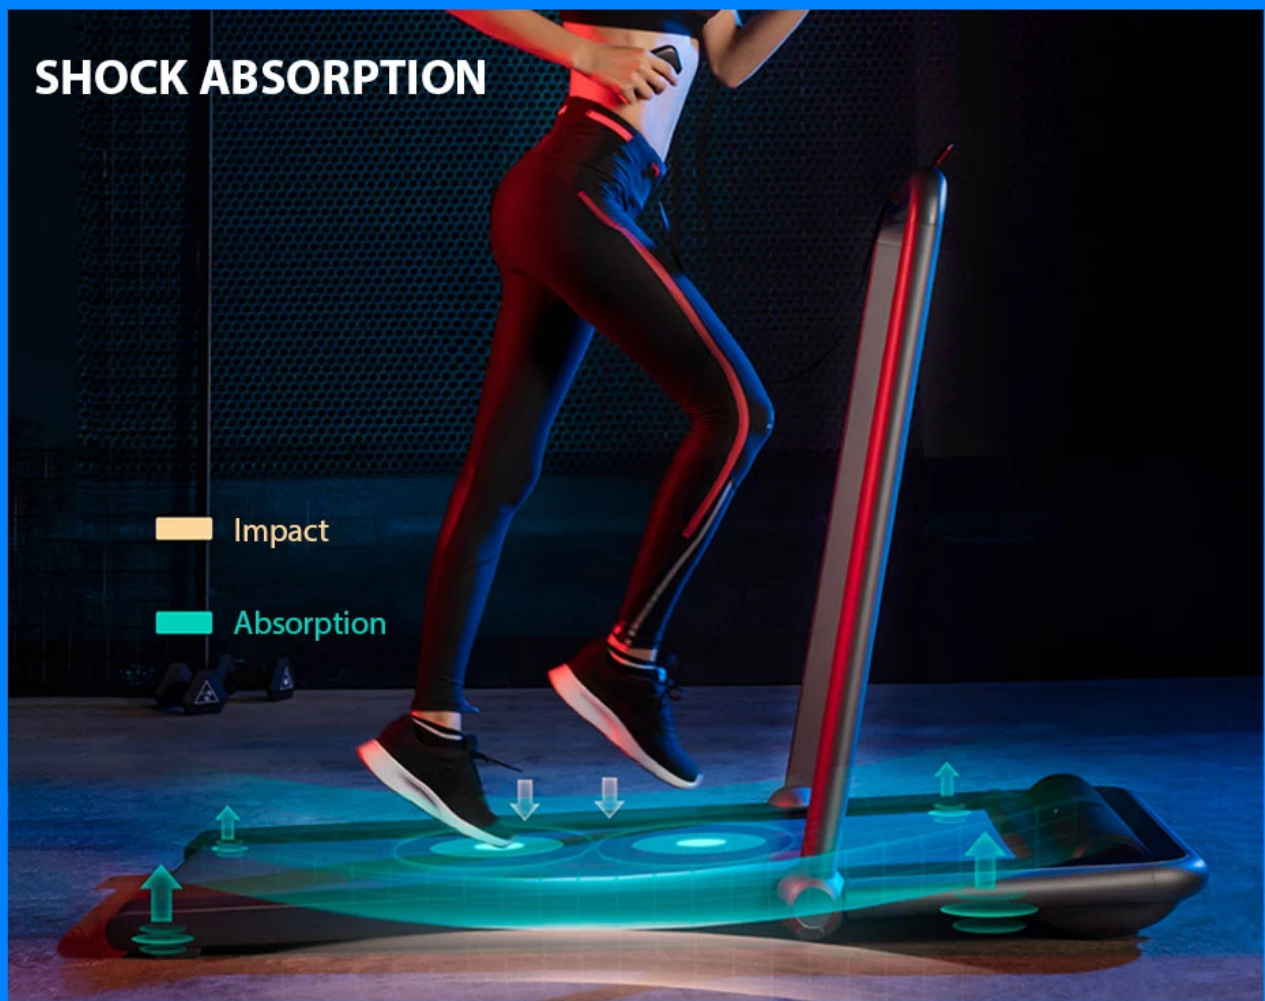

Xiaomi KingSmith Walking Machine K12 is a modern treadmill that fits perfectly into any interior. The minimalist body is made of classic black and has very compact dimensions of **480x792mm**. The treadmill is equipped with a folding handle, which not only serves as a support, but also allows you to conveniently place your smartphone and enjoy your favorite music or movies while exercising.

Speed adjustment depending on the position of the legs

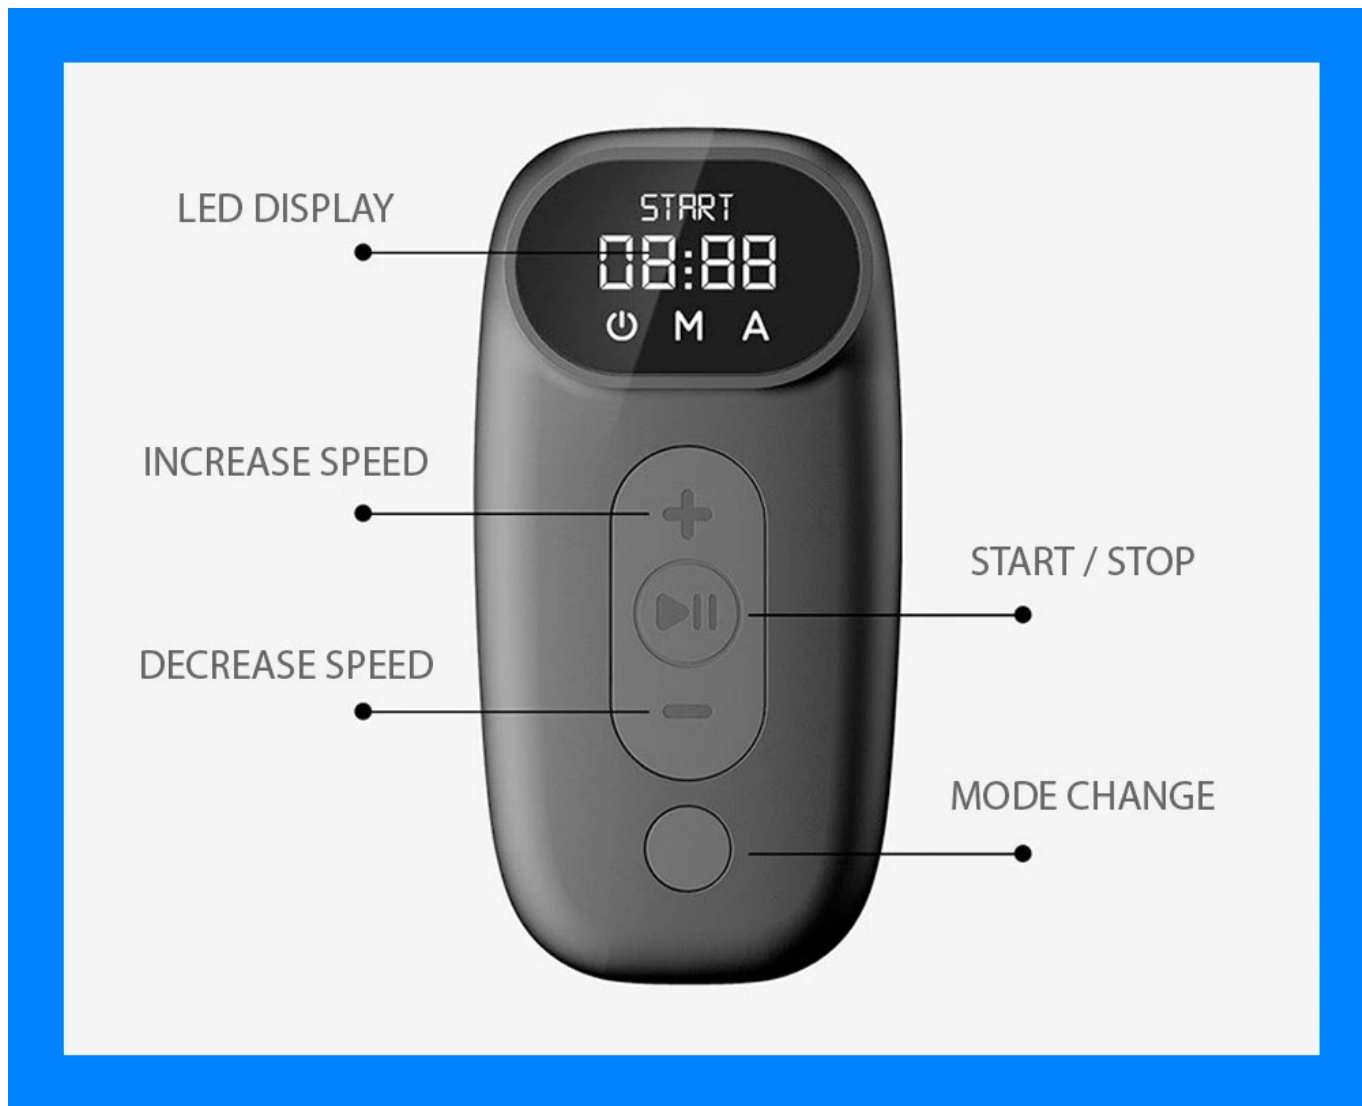

In walking mode (mode A), the treadmill can automatically adjust its speed based on foot position and rhythm. **The built-in pressure sensor** allows it to record the user's actions in real time and responds instantly to any change in walking pace.

SHOCK ABSORPTION

Quick mode change

The remote control allows you to quickly change the selected mode and running pace. An additional advantage is the compact body of the remote control, which perfectly fits in your hand during exercise.

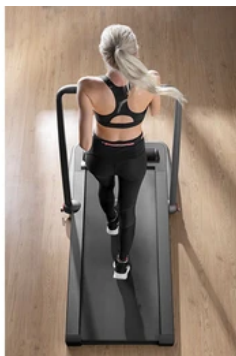

Select speed

The treadmill runs at a maximum speed in walk mode of up to **6km/h** and is ideal for warming up or starting an intense cardio workout. The maximum speed in run mode reaches **12km/h** and is designed for active training.

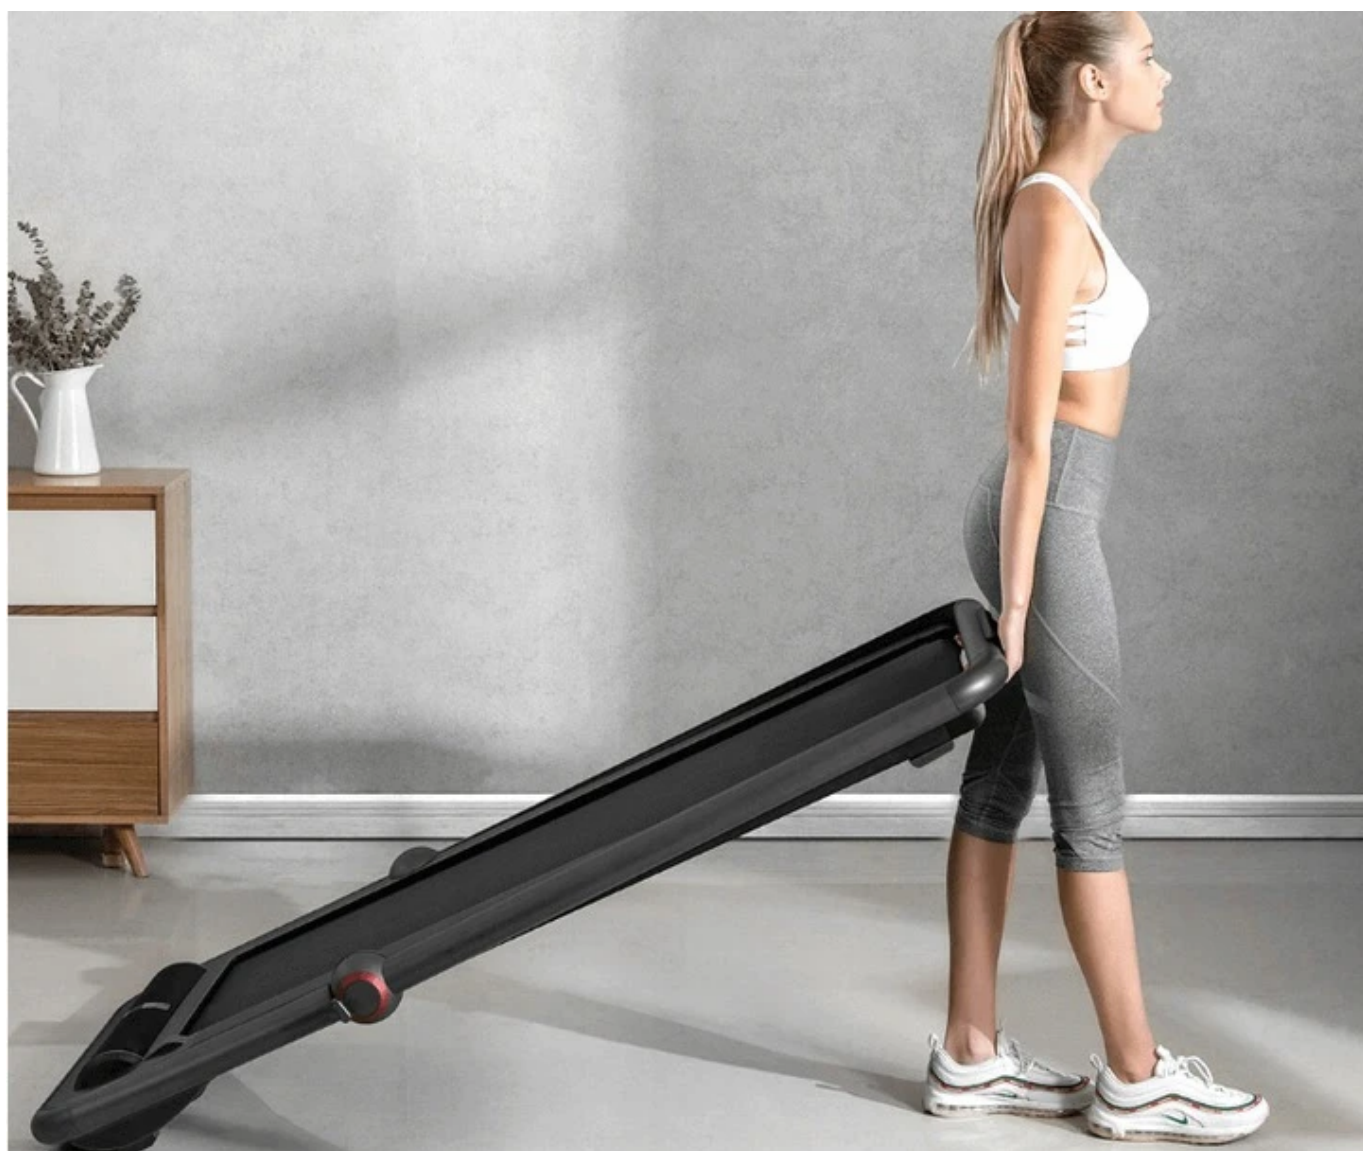

Comprehensive protection system

The **Xiaomi Kingsmith K12 Walking Pad treadmill** is equipped with a comprehensive protection system that guarantees safe and stable operation throughout the entire workout cycle. Moreover, you can control the treadmill with the remote control or through a dedicated app.

Robust and mobile

The treadmill is made of durable aluminum alloy that can withstand up to 100 kg. In addition, several built-in wheels make it easy to move the treadmill to any convenient location.

Track your results

The user-friendly mobile app allows you to collect and track workout data such as average speed, calories burned and average running time.
