Information:

The Black Forest SUP board 305 × 81 × 15 cm is a stable and comfortable board for recreational paddling on lakes, rivers and calm waters. Its wide design makes it easier to maintain balance, while the rigid construction made from 2700 GSM drop-stitch material provides good support once inflated. The non-slip 3 mm EVA foam increases comfort and grip. The set includes an adjustable 3-piece aluminium paddle, pump, backpack, safety leash, fins and a repair kit. The board is easy to pack and transport, making it ideal for holidays and learning SUP.

Full product description

SUP board for recreation

The Black Forest SUP board, measuring 305 × 81 × 15 cm, has been designed for calm paddling on lakes, rivers and other recreational waters. The 81 cm width helps maintain balance, while the 15 cm height supports the rigidity of the construction once inflated. It is a practical choice for a holiday trip, a weekend by the water or learning to paddle on a SUP.

Stable shape

The 305 × 81 × 15 cm dimensions provide a comfortable surface for standing and kneeling paddling. The board's width makes it easier to keep your balance when getting onto the water, changing position and manoeuvring calmly.

2700 GSM material

The board is made from 2700 GSM drop-stitch material. The internal 15 cm structure helps it keep its shape when inflated, which translates into suitable rigidity during recreational use. The side panel consists of two layers: an internal 0.52 mm layer and an external 0.7 mm layer, which reinforces the board's edges and increases the durability of the sides during inflation, carrying and use by the water.

3 mm EVA foam

The top part of the board is covered with 3 mm EVA foam. Its surface improves foot grip and increases comfort while paddling, resting and learning to keep your balance on the board.

Paddle and handling

The set includes a 3-piece aluminium paddle with TPR grips, which help you hold it more securely in your hands while paddling. The paddle can be adjusted from 165 to 208 cm, allowing you to match its length to the user's height. The board is easy to inflate and deflate thanks to the high-pressure valve. Using the included pump, it can be inflated to the recommended 15 PSI, or around 1 bar.

Set

The set includes: a Black Forest SUP board 305 × 81 × 15 cm, an aluminium alloy paddle, a hand pump, a backpack, a safety leash for the foot, one removable large slot-type fin, two fixed small fins and a repair kit. Once deflated, the board can be folded and packed into the backpack, which makes transport and off-season storage easier.
