Manufacturer: EXTRALINK

Referention number: DNXGKINMGRMMJP

Information:

The Black Forest SUP board 320 × 81 × 15 cm is a stable recreational model for paddling on lakes, rivers and calm waters. The wide design makes it easier to keep your balance while standing, kneeling and manoeuvring, and the 2700 GSM drop-stitch core provides good rigidity once inflated. The double-layer sidewalls increase durability, while the 3 mm EVA foam improves grip and comfort. The set includes an adjustable 3-piece aluminium paddle, pump, backpack, leash, large detachable fin, repair kit and instructions, making the board ready for convenient use and transport.

Full product description

SUP board for leisure

The Black Forest SUP board, measuring 320 × 81 × 15 cm, has been designed for calm paddling on lakes, rivers and other recreational waters. The 81 cm width helps maintain balance, while the 15 cm thickness supports the rigidity of the inflated construction.

Stable paddling

The 320 × 81 × 15 cm dimensions provide a comfortable surface for standing and kneeling paddling. The wide design helps maintain balance when getting onto the board, changing position and manoeuvring calmly on the water.

2700 GSM construction

The board is made from 2700 GSM drop-stitch material. The internal structure, with a height of 15 cm, helps maintain the correct shape when inflated, which translates into better rigidity and easier handling while paddling.

Double-layer sidewalls

The side panel consists of two layers: an inner 0.52 mm layer and an outer 0.7 mm layer. This construction strengthens the board's edges and increases the sides' resistance to typical loads associated with inflation, carrying and use on the water.

EVA foam underfoot

The top section of the board is covered with 3 mm EVA foam. Its texture improves foot grip and increases comfort during longer periods on the board. It works well for paddling, resting and learning to keep your balance.

Paddle and handling

The set includes a 3-piece aluminium paddle with TPR grips, which help you hold it more securely in your hands while paddling. The adjustable length from 165 to 208 cm makes it easy to adapt the paddle to the user. The board has a high-pressure valve, allowing it to be inflated to the recommended 15 PSI (1 bar), and then quickly deflated after use.

Set

The set includes: Black Forest SUP board 320 × 81 × 15 cm, aluminium alloy paddle, hand pump, backpack, ankle safety leash, removable large slot-type fin, repair kit and user manual. The complete package makes it easy to prepare the equipment for a trip to the water and to store it after the season ends.
