Full product description

Powerful light output in a modern design

Headlamp with an impressive 10W of the latest LED technology. Thanks to this advanced technology, the flashlight generates an intense light output of up to **300 lumens**, providing excellent visibility even in the toughest conditions. The built-in **1500mAh** rechargeable battery provides **4-5 hours of continuous use**, making this flashlight an indispensable tool for active people both in the field and in everyday activities.

VERSATILE USE OF A HEAD FLASHLIGHT

Robustness and lightweight construction

This headlamp flashlight has been manufactured from sturdy materials such as **ABS and aluminum**, which guarantees the robustness and durability of the product. Despite its solid construction, the flashlight is relatively lightweight, weighing **only 170g**. This makes carrying it on your head comfortable even during prolonged use

Multifunctionality and flexibility of use

The flashlight offers three different modes: **strong light**, **light light**, and **flashing light**, allowing the user to adjust the illumination to changing conditions and needs. In addition, it is equipped with **a red light on the back**, which increases the user's visibility and safety. **The light zoom function** allows you to adjust the width of the light beam to suit a specific situation.

A UNIVERSAL, CONVENIENT HEADLAMP FOR ADULTS AND CHILDREN!

Easy charging and light direction adjustment

The flashlight has a charging time of **just 4 hours**, so you can quickly prepare it for the next use. The flashlight's adjustable head **rotates up to 90 degrees**, allowing you to direct the light in any direction. A **micro USB cable** is also included, making charging the flashlight convenient and possible anywhere with access to power. This reliable and versatile lighting tool will meet the needs of even the most demanding users.
