Manufacturer: MOMCOZY

Referention number: DNKGJLMERMMHJ

Information:

Momcozy Multi-Function Breastmilk Cooler Bag is a multifunctional thermal bag for the safe storage and transport of milk and food. Made from durable, waterproof 600D PEVA material, it effectively maintains the correct temperature and protects the contents from external factors. The universal Fits Most interior accommodates most standard bottles and containers from popular brands, while the removable divider allows the space to be adjusted for taller bottles or the bag's function to be changed. The adjustable, detachable shoulder strap and stroller clip ensure convenient carrying. Ideal for breastfeeding mums, active parents, and trips away.

Full product description

Momcozy Multi-Function Breastmilk Cooler Bag - A functional way to transport milk safely

Momcozy Multi-Function Breastmilk Cooler Bag is a multifunctional thermal bag designed for the safe storage and transport of milk. The product is a practical accessory that makes daily life easier for breastfeeding women who pump milk. The bag helps maintain a stable temperature of the milk being carried, which is crucial for preserving its nutritional value during trips, at work or on walks. Thanks to its versatile design, the product has a wide range of uses in childcare and everyday duties.

Durable materials and thermal insulation technology

The thermal bag's construction is based on technologically advanced and safe components. The outer and inner layers are made of waterproof **600D PEVA Materials**, which are characterised by high durability and the absence of toxic compounds. The insulated structure effectively maintains a low or high temperature (Warm), protecting the stored food from external factors. The thermal effect of the **Momcozy** bag can be further enhanced by using dedicated cooling or heating inserts, allowing the **Bag** to be adapted to current transport needs.

Functional compartment and universal fit for bottles from different brands

The inside of the bag has been designed to hold accessories that make feeding easier. The product features a **Fits Most** design, meaning it is suitable for most standard containers and bottles for breastmilk. The interior space easily accommodates vessels from popular **Brands** such as **Philips Avent** (Avent), Comotomo, Dr. Brown's, Evenflo, Tommee Tippee, Lansinoh, Nuk and Medela. The bag has a removable insulated divider – once removed, it can carry taller bottles or be repurposed as a classic travel carrier.

Attachment system and carrying comfort

The product is equipped with a practical carrying system that increases mobility in varied conditions. The adjustable and detachable shoulder strap allows the bag to be carried comfortably close to the body. In addition, the integrated snap buckle makes it possible to hang the bag securely on a pushchair handle. The attachment design is compatible with pushchairs from many well-known manufacturers, such as UPPAbaby, Baby Jogger, Britax, Bugaboo and BOB, making it a suitable solution for long walks and car trips.

Wzmocniona konstrukcja warstwy izolacyjnej

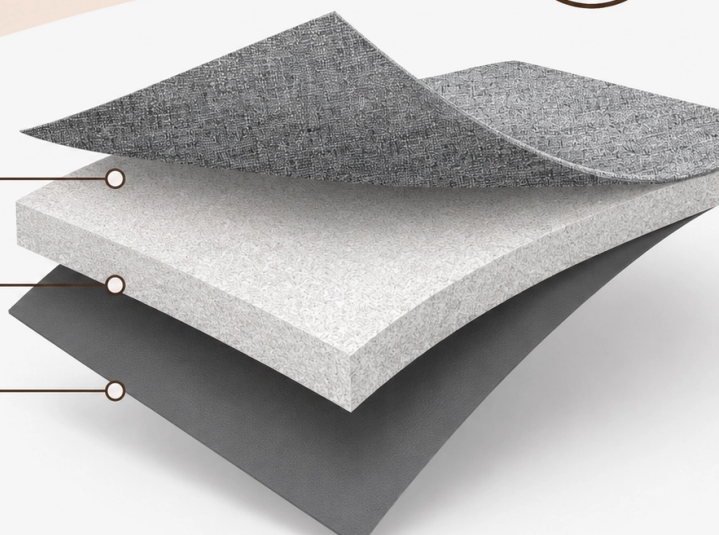

Grubsza warstwa pomaga utrzymać temperaturę nawet do 5 godzin (bez wkładu chłodzącego)

PEVA

8 mm pianka perlowa

PVC 600D

Wide range of uses

Thanks to its removable internal elements, the **Momcozy Multi-Function Breastmilk Cooler Bag** goes beyond the standard scope of baby accessories. After the feeding period or in private situations, it can serve as a handy picnic bag, a lunch organiser for work or a safe case for transporting drink bottles. Its aesthetic, minimalist finish makes the product look neutral and elegant in any situation, regardless of how it is used.

Duża pojemność

Dolna komora pomieści do 6 butelek na mleko

Technical data

Parameter	Value
Brand	Momcozy
Model	Multi-Function Breastmilk Cooler Bag
Main material	Waterproof 600D PEVA Materials
Insulation properties	Maintaining a low or high temperature (Warm)
Bottle compatibility	Most brands up to 6 inches in height (e.g. Philips Avent, Comotomo, Nuk)

Wyjmowana środkowa przegroda

Wyjmowana przegroda pozwala zmienić torbę z układu dwupoziomowego w jedną dużą komorę.

Key benefits

- **High thermal insulation:** The 600D PEVA material effectively protects and maintains the correct temperature of food.
- **Universal space:** The Fits Most design allows stable storage of bottles from various manufacturers, including Philips Avent.
- **Removable divider:** The ability to easily remove the internal separator allows taller bottles to be carried or the bag's function to be changed.
- **Practical attachment system:** The detachable strap and buckle allow the bag to be quickly hung on any pushchair.
- **Safe structure:** The use of waterproof and non-toxic materials guarantees hygienic food storage.

The product is intended for

- **Mothers who pump milk:** Women looking for a safe way to transport milk at different temperatures.
- **Active parents:** People who need a stable thermal organiser that can be easily attached to a pushchair frame.
- **Travel enthusiasts:** Users looking for a functional bag for picnics, camping or long car journeys.
