momcozy

Manufacturer: MOMCOZY

Referention number: DNXXGJOIFRMMKI

Information:

Momcozy BF009 is a set of 6 disposable hydrogel cooling pads for nursing mothers, which bring immediate relief for breast tenderness, irritation and cracked nipples. The lanolin contained in them intensively moisturises and supports the regeneration of sensitive skin, and the cooling effect can be enhanced after chilling in the fridge. The pads work for up to 3 hours, protect the nipples from rubbing against underwear and create a moist environment that promotes healing. They are hypoallergenic, free from preservatives and artificial fragrances, individually packaged to maintain hygiene, convenient to use and ideal for the hospital bag and everyday breastfeeding.

Full product description

Momcozy BF009 - Cooling gel pads for nursing mothers

The **Momcozy** BF009 product is a true **Lifesaver** for women for whom **breastfeeding** has become a challenge due to sore breasts. This set containing **6 pieces** of hydrogel compresses provides immediate relief and long-lasting **Comfort**. Each **pad** has been enriched with lanolin, which intensively moisturises and regenerates sensitive **nipples**, allowing them to recover more quickly. It is an essential item for the hospital bag for the **postpartum** period, making it easier to get through the first stages of lactation.

Indywidualnie pakowane dla higieny

Każdy płatek jest osobno zamknięty w czystej saszetce z folii aluminiowej.

Cooling pads - Relief and breast regeneration

Specialist **cooling pads** from **Momcozy** work like a soothing **compress** that can **alleviate** discomfort for up to 3 hours. Their **gel insert** uses a polymer **Gel**, which brings pleasant **cold**, reducing swelling and burning. If you need a stronger **Cooling** effect, you can chill them in the fridge before applying them to the **breast**. This is a much more advanced solution than traditional **Products** from other brands, such as **Lansinoh**, because they combine mechanical protection with active skin soothing.

Chroni obolałe brodawki sutkowe

Chroni przed otarciami

Z dodatkiem lanoliny

Delikatne usuwanie

Bez śladów

Hygiene and safety during breastfeeding

In the process of **breastfeeding**, the highest level of **hygiene** is key. That is why each of the **6 pieces** of pads in the pack is individually wrapped in sterile aluminium foil. This makes the product fully **portable** and ideal to take on **Travel**. The **pad** is made of soft, double-layer non-woven fabric that is hypoallergenic and safe for sensitive skin. The material is free from petroleum-derived substances and preservatives, making it a product friendly to both mum and the baby receiving **breast milk**.

Momcozy BF009 product description - A practical choice for mum

This **Practical insert** has been designed to **adapt** to the shape of the body, leaving no sticky residue after removal. You can **use** it discreetly under a bra, which protects irritated areas from rubbing against clothing. Although it is not a **reusable** product (it should be thrown away after use to maintain freshness), its effectiveness means it is **often bought together** with breast pumps. It supports women both during **Nursing** and **Pumping**, providing them with an essential **360°** protective barrier.

Natychmiastowa i długotrwała ulga

Przyjemnie chłodzi już przy kontakcie

Comprehensive protection and soothing for sensitive areas

Thanks to the advanced hydrogel formula, the **cooling pads** not only bring immediate relief, but also create a moist environment that supports healing. This prevents scab formation on damaged **nipples**, which is a common problem at the beginning of the **Breastfeeding** journey. The delicate structure of the material allows the skin to breathe while isolating it from irritating external factors. By investing in a set from **Momcozy**, you provide yourself with professional support that makes each subsequent feeding session less painful and more comfortable.

Niezbędnik dla świeżo upieczonych mam
