Referention number: DNXXGOPMMRMNJ

Information:

Gemfan D51 propellers (2020-4) are durable, four-blade propellers designed for FPV pilots looking for improved flight performance. The 5.1-inch diameter provides a good balance between power and precision, offering stable and responsive control both indoors and outdoors. The design increases thrust and efficiency while remaining impact-resistant. The reduced noise level helps to capture cleaner video footage. The set includes 8 propellers: 4 clockwise and 4 counter-clockwise.

Full product description

Rugged Gemfan D51 Propellers: Optimizing Flight for FPV

Gemfan D51 (2020-4) propellers are the ideal choice for FPV pilots and enthusiasts looking for improvements in flight performance. The four-blade design provides improved thrust and efficiency, which works well both indoors and outdoors. The 5.1-inch diameter offers a balance of power and control, ensuring stable and responsive control in a variety of conditions. Durable construction ensures impact resistance, while reduced noise helps you record high-quality video footage. The kit includes 8 pieces: 4 clockwise and 4 counterclockwise rotating propellers.
