Price: **369.00 zł** gross / 300.00 zł net

Manufacturer: XIAOMI

Referention number: DNXGKKLMJRMMK

Information:

Xiaomi Smart Standing Air Circulation Fan is an efficient standing fan for the home, delivering a powerful airflow of 1440 m³/h and a range of up to 13 m, effectively refreshing even larger rooms. It distributes air evenly thanks to 120° horizontal and 100° vertical oscillation, as well as 100 speed levels that allow you to precisely adjust the airflow for work, relaxation or sleep. Quiet operation at 27.9 dB(A) supports comfort at night, while low energy consumption helps reduce running costs. Adjustable height, the option to place it on the floor or a desk, control via Xiaomi Home, a removable cover and a child safety lock all enhance everyday convenience and safety.

Full product description

Strong airflow and wide reach

Xiaomi Smart Standing Air Circulation Fan is a standing fan for the home that combines **1440 m³/h strong airflow** with a wide operating range. It works well wherever quick room refreshment and even air movement matter. Thanks to its **reach of up to 13 m**, it also covers larger interiors.

Key advantages

- **1440 m³/h** – refreshes the air in the room faster.
- **13 m reach** – effectively serves a larger room.
- **100° and 120° oscillation** – distributes air across a larger part of the interior.
- **100 speed levels** – you can adjust the airflow to the situation and time of day.
- **27.9 dB(A)** – operates quietly, so it does not disturb sleep.
- **1.3 kWh** – reduces the cost of everyday use in summer.

Cyrkulacja powietrza z całego pokoju w 2 minuty

Dystrybucja powietrza 3D

Oszczędność energii i pieniędzy

27.9 dB(A)

Wentylator biurkowy lub stojący 2 w 1

Inteligentna łączność w wielu sytuacjach

Even 3D circulation

The model uses **3D air distribution**, which directs the airflow in different directions. This operating method helps equalise the temperature in the room and reduces the feeling of stuffiness when ventilation is poor. It is a practical solution both with open windows and with air conditioning.

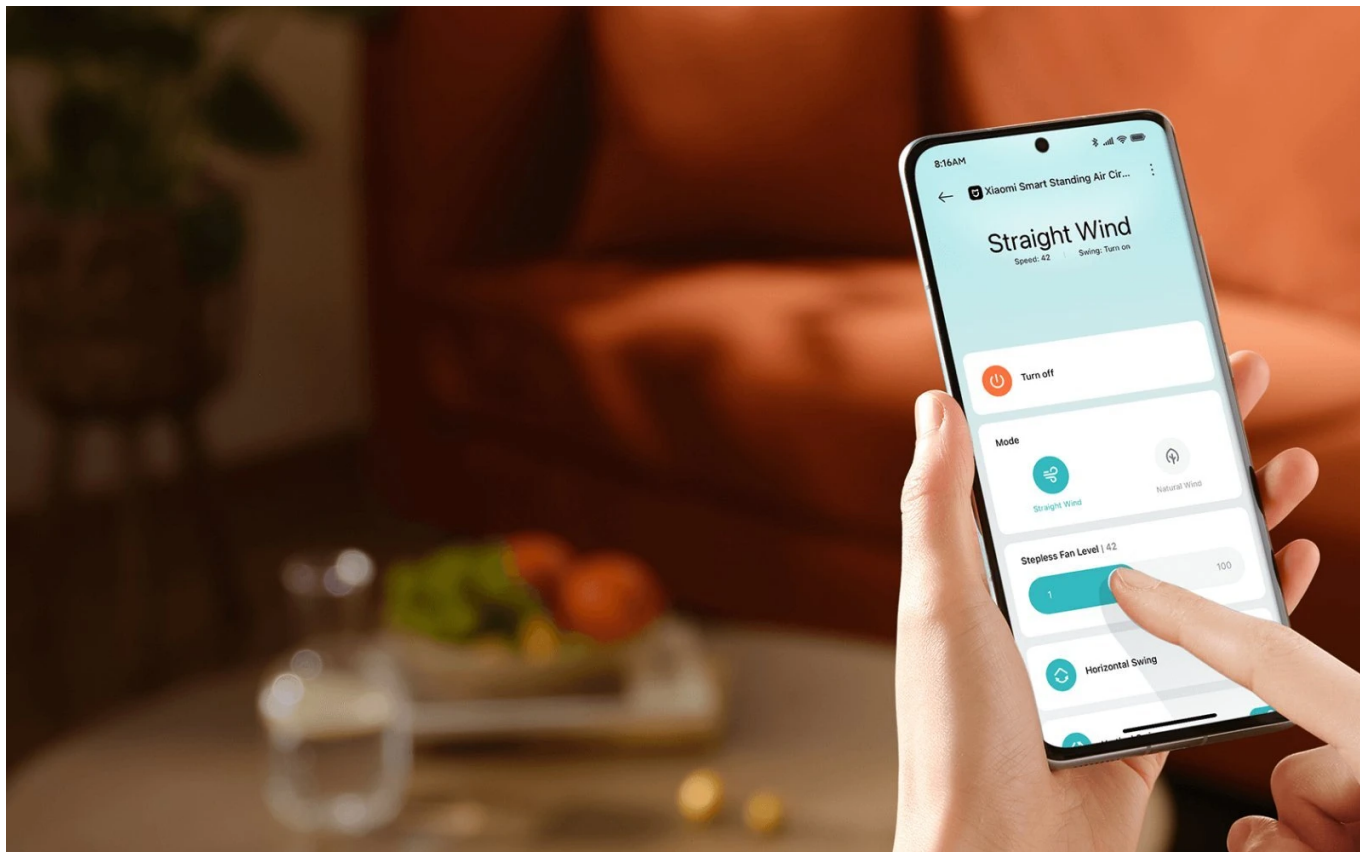

Wide oscillation range

The fan rotates automatically by **120° horizontally** and **100° vertically**, directing the airflow to a larger part of the room. The user does not need to move the device manually when the room layout changes. It is a convenient solution for a bedroom, living room and office.

100 airflow levels

The **DC inverter motor** supports **100 speed levels**, so you can easily adjust the fan's operation for work, rest or sleep. In practice, you gain greater control over cooling intensity, without abrupt changes in performance. The device also works with the Xiaomi Home app.

Quiet operation and low power consumption

At low speed, the noise level is only **27.9 dB(A)**, so the fan does not disrupt evening relaxation or sleep. Energy consumption of **1.3 kWh** helps keep costs down during everyday use in the summer season. It is a solution for people who want cooling without a high bill and without noisy operation.

Desk or floor

The compact, **slim design** and **adjustable height** give you the freedom to place it on a desk or on the floor. One device works in different rooms and with different furniture layouts. It is convenient when you need air circulation exactly where you are.

Easy operation and safety

The model has a **removable cover**, which makes assembly, disassembly and cleaning easier. In addition, a **child safety lock** has been used to increase protection in a home with little ones. It is a practical choice for everyday use when simplicity and peace of mind matter.

Technical data

- **Rated voltage:** 12V □
- **Model:** BPLDS11DM
- **Rated power:** 18W
- **Product dimensions:** 326 × 310 × 886mm
- **Noise emission:** ≤61dB(A)
- **Power cord length:** 1.5m
- **Net weight:** 2.7kg
- **Wireless connectivity:** Wi-Fi IEEE 802.11b/g/n 2.4GHz
- **Package contents:**
 - Fan head assembly x1
 - Stand x1
 - Base x1
 - Power adapter x1
 - User manual x1
