Price: **579.00 zł** gross / 470.73 zł net

Manufacturer: GOOGLE

Referention number: DNXXGGLNLLRMMNK

Product features

Product type	Tabletop router
Height	90.4 mm
LED indicators	WLAN
USB charging port	No
Memory card slot(s)	No
Width	110 mm
Depth	110 mm
4G	No
Security algorithms	WPA3
Power management	15 W
Cables included	LAN (RJ-45)
Harmonized System (HS) code	85176990
Ethernet LAN interface type	Gigabit Ethernet
Networking standards	IEEE 802.11k
Ethernet LAN (RJ-45) ports	2
Flash memory	4000 MB
DC-in jack	Yes
AC adapter included	Yes
Cabling technology	10/100/1000Base-T(X)
Processor frequency	1400 MHz
Internal memory	1024 MB
Wi-Fi band	Dual-band (2.4 GHz / 5 GHz)

Wi-Fi standards	802.11a
Ethernet LAN	Yes
SIM card slot	No
Top Wi-Fi standard	Wi-Fi 5 (802.11ac)
Processor cores	4
Power source type	DC
Built-in processor	Yes
Antenna design	Internal
3G	No
Product colour	White
Ethernet WAN	Yes
WLAN data transfer rate (max)	2200 Mb/s
3G/4G USB modem compatibility	No
Watch case material	Plastic
Product weight	380 g

Full product description

Google Nest WiFi System kit - perfect Wi-Fi in every corner of the house

Meet the innovative solution that will give you smooth and fast Internet access throughout your home - **Google Nest WiFi Router access point**. This state-of-the-art kit provides a **range of up to 350 square meters** (for the router and access point), eliminating dead zones and allowing you to seamlessly stream multiple 4K videos. **Setup is incredibly simple with the Google Home app**, which makes it easy to manage and connect devices. What's more, **each WiFi point includes a built-in Google Assistant**, allowing you to control smart devices, play music and manage your network with voice commands. This system is designed with the modern household in mind and supports as many as 300 devices simultaneously, providing stable connectivity without lag. In addition, advanced parental controls allow you to easily manage your family's time in front of the screen, ensuring a healthy balance between online and offline.

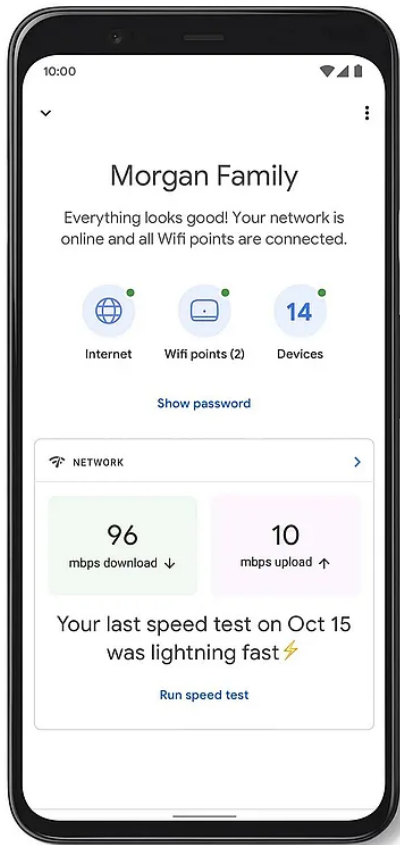

Reliable whole-house coverage and precise signal routing

The Google Nest WiFi system is a breakthrough in home networking, enabling uninterrupted Internet access throughout the home. This system is designed to run invisibly in the background, providing seamless Internet access without annoying buffering and guaranteeing constant connectivity to the digital world. It also provides a stable and powerful connection to wireless devices thanks to its beamforming technology.

Simple setup and convenient control

Nest WiFi offers extremely easy setup, which is done through the intuitive Google Home app. With this convenient platform, connecting and managing all the devices on your network becomes trivial. It only takes a few minutes to enjoy a fast and reliable connection throughout your home. The Google Home app makes it easy to manage the network, and rolling advanced tips make setup a breeze, even for novice users.

Advanced security and voice control

The Nest WiFi system guarantees a secure and up-to-date network with WPA3 encryption and automatic updates. But that's not all - each Nest WiFi access point is equipped with Google Assistant, which allows you to control smart devices, play music, send messages and much more with simple voice commands. It's a smarter way to manage your smart home.

High performance for modern homes

Nest WiFi is an impressively powerful system that is capable of supporting as many as 300 connected devices and enables simultaneous streaming of multiple 4K videos, ensuring that the network remains stable, even under heavy load. This system covers an area of up to 350 square meters (for router and access point) and offers two wireless bands (2.4 GHz and 5 GHz) for faster and more reliable performance, reaching data rates of as much as 2.2 Gbps.

Integrated Google Assistant

Each access point not only expands the Wi-Fi coverage area, but also includes a built-in Google Assistant, allowing you to use network management, music playback and control smart home devices with simple voice commands.

Network management tailored to the needs of the family

Nest WiFi provides convenient tools to control how the whole family uses the Internet. With the ability to pause Internet access on children's devices and monitor time spent in front of the screen, you can maintain a healthy digital environment at home. This system also makes it easy to grant guests access to the network and allows you to prioritize devices to ensure optimal performance.

Compatibility and expandability

The Google Nest WiFi system is fully compatible with previous Google WiFi devices, allowing for easy expansion of existing network infrastructure. This allows users to gradually expand their systems without having to replace their entire network, giving them more flexibility and the ability to customize their network to meet their needs.
